THE MOTION TO APPROVE THE ITEMS ON THE CONSENT AGENDA CARRIED
UNANIMOUSLY.
9. Finance Committee – County Budget (Discussion)

Commissioner Schafer stated that read the minutes from the May 19, 2020 County Services Committee meeting, and he had seen the inclusion of many different people, but it did not include the County Treasurer, which he thought could be quite significant because of bond ratings and so forth. He further stated that the Finance Committee should have a discussion concerning some of the potential cutbacks that the County needed to do.

Commissioner Schafer stated that, at the previous meeting, Commissioner Grebner had entertained the idea of how some of the trails millage could be used to fund the Parks Department. He further stated that he for one did not want to see the fund balance be brought down to zero, and so some discussion about the direction that the County needed to go would be important.

Commissioner Schafer stated that he had served with Commissioner Grebner for a long time, and he brought some interesting points that he had considered on some occasions.

Commissioner Crenshaw asked Michael Townsend, Budget Director, if the budget submissions had already been sent, or were in the process of being sent, to the Controller’s Office.

Mr. Townsend stated that he was correct. He further stated that the budget calendar called for the budget submissions to be sent out on May 6, 2020 and were due back from departments on May 22, 2020.

Mr. Townsend stated that the Controller’s Office had received some of the budget submissions already, but there were more to come.

Commissioner Crenshaw asked if there was a request for a 10 percent cut per department.

Mr. Townsend stated that the Budget Office had told departments of the financial situation and asked for a 10 percent submission of a reduction, but not necessarily a 10 percent cut in their budget. He further stated that his office asked for scenarios where departments would look at their process to see if there were any discretionary programs that could be delayed or put off in 2021.

Commissioner Crenshaw asked, knowing that the budget submissions were due on May 22, 2020, and the Budget Office and Controller’s Office would have a chance to go through the scenarios, if this discussion would be more apt at the next Finance Committee meeting.

Mr. Townsend stated that, at this point in time, they would be getting the input from departments according to the schedule, and going through budget reviews as was done every year. He further stated that for the next month or so, they would go through the department’s budget submissions.

Mr. Townsend stated that, in a lot of cases, the projections did not take into consideration the reduction of revenue that might come. He further stated that, in the next 20 days before the
budget hearings, his office would be looking at those and costing them out, and if there were problems, those would be addressed at the budget hearings.

Commissioner Crenshaw thanked Mr. Townsend for his answers.

Commissioner Grebner stated that he always talked preparing for unexpected events, but of all the unexpected events he had ever imagined, he did not expect one like this. He further stated that it seemed to him that the County was now making decisions about hundred times as fast for ten times as much money.

Commissioner Grebner stated that if you were looking for a metaphor, the idea that Commissioner Schafer mentioned of keeping an adequate fund balance, it was like suggesting to a pilot who had lost two engines to maintain adequate altitude. He further stated that the goal of the pilot was not to crash the plane and kill everyone, which was pretty much where the County was.

Commissioner Grebner stated that this was pretty horrible and the County did not know where it would go next. He further stated that he expected no revenue sharing from the State of Michigan, and the County, for example, could find itself with an unoccupied wing of the Human Services Building (HSB) because the State of Michigan was short of money.

Commissioner Grebner stated that on the revenue side of things, it seemed to him that the County happened to find itself well-positioned because the County’s finances were so archaic, as they did not have sales or incomes taxes. He further stated that because the County’s revenues were based so much off of property taxes, and property taxes were so slow to change, compared to other units of government in the United States, the County was pretty well off.

Commissioner Grebner stated that the County had such an adequate fund balance, it would be nice like Commissioner Schafer said to not spending at all, but it would also be good not to experience a catastrophe. He further stated that he assumed that the County was plunging with both hands into this quasi-furlough that had been proposed.

Commissioner Grebner stated that the federal government had somehow created an option for the County to lay-off employees for one day per week, which would treat employees as unemployed and qualify them for full unemployment benefits without affecting the County’s unemployment experience ratings. He further stated that, in the case of collective bargaining agreements, the County would have to reach an agreement.

Commissioner Grebner stated that, for many employees, it seemed like a delightful agreement. He further stated that he understood that this program was available until July 31st, and so if the County planned to be in a catastrophe, the County ought to be taking advantage of this program to salvage some money.

Commissioner Grebner stated that it was possible that the federal government will provide cash to counties, cities, and townships. He further stated that it was the unknown that made this 100 times larger than their usual unknowns.
Commissioner Grebner stated that the County normally had a budget that consisted of minimal changes to the overall picture. He further stated that, in this case, it involved a hundred or two hundred positions and not knowing the County’s financial status.

Commissioner Polsdofer asked Mr. Townsend, in addition to the request for a 10 percent cut, to have Department Heads provide rankings of the items that they were identifying for cuts, and give the Board of Commissioners a ranking of importance to coalesce from different departments.

Commissioner Polsdofer asked if all discretionary out-of-state travel had been suspended.

Mr. Townsend stated that all discretionary out-of-state travel had been suspended. He further stated that the Department Heads were instructed to respond in terms of scenarios, and as the Budget Office cost them out, his office would have all of that information.

Mr. Townsend stated that, as Commissioner Grebner mentioned, the County was still in a quandary because one thing that benefited the County was that they started the budget process so early. He further stated that it was unique, as other entities he had previously worked for did not spread the budget calendar out so far, which worked to the County’s advantage.

Mr. Townsend stated that the longer the County waited, the more information they would know. He further stated that his office was putting together the temporary numbers, and the requests being brought in would be looked at and further evaluated if needed.

Mr. Townsend stated that the Department Heads were submitting their requests and he knew that his office would be receiving more than one from each department. He further stated that his office did not ask the Department Heads to rank, but he knew that some of the departments would give his office some options, which had been done in the past.

Commissioner Polsdofer asked to be provided a breakdown for what the Department Heads were requesting for transfers from different lines within a department’s budget, so the Commissioners could have oversight of where funds might be shifting around, and to look into the future as the County balanced their funds and found inefficiencies.

Mr. Townsend stated that, from an expense standpoint, his office had asked for a carryover budget where departments could still move things amongst their line items, but his office had asked that those remain stable. He further stated that his office had asked departments to provide scenarios on a separate sheet, so that his office could evaluate those scenarios.

Mr. Townsend stated that his office had asked departments to maintain their current budget, which his office rolled over from the 2020 fiscal year, but if the departments needed to move things around, they could still do so within their budget. He further stated that departments submit a report along with their budgets that detail the movement of line items.

Commissioner Polsdofer stated that Mr. Townsend’s answer focused on the following fiscal year, but he had hoped that his request could be wrapped up in what the County was dealing with.
now and needing to adjust for the current fiscal year. He further stated that if the County could get the Department Heads to address that moving forward today to get a picture of the movement of funds.

Commissioner Polsdofer asked if the County would find potential, sizable savings if the County was to shut down for the entire week around July 4th and Labor Day.

Mr. Townsend stated that his office had done a forecast of where the County would be at this point in time, and based on the proposals of 2019, the County did not use as much of the fund balance as they had projected. He further stated that his office anticipated the 2020 budget being pretty much taken care of by those additional funds.

Mr. Townsend stated that, as far as major expenses, his office was keeping separate track of things related to COVID-19, and there were funds supposedly available for that. He further stated that, as far as employees were concerned, his office was looking at using the fund balance to take care of the vacation time buyout and so forth.

Mr. Townsend stated that, as Commissioner Grebner mentioned, the Controller’s Office was gathering information to participate in the State of Michigan’s work-share program, which would be a tremendous savings for the County. He further stated that, at this point in time, the County was prepared for this occurrence in terms of the fund balance and budget stabilization.

Discussion.

Chairperson Morgan stated that, to continue Commissioner Maiville’s statement before his Zoom connection was lost, the concern of some of the Commissioners was that the County’s 2021 fiscal year was taken care of, but the more the County tightened their belts now, the fewer pounds lost the next year. He further stated that questions around the 2020 fiscal year were valid, and if the County did not make cuts and take extreme caution, including hiring freezes, the more they would have to slash and burn in the next fiscal year.

Mr. Townsend stated that he did not mean that his office would be using those funds from before to cover current expenses. He further stated that as far as current expenses, many of them were on the books, and in the projections, would still be coming in unless something changed at the state level.

Mr. Townsend stated that those budgets were already approved and the County would be receiving the State of Michigan revenue sharing this year. He further stated that what would be tremendously affected was the 2021 fiscal year, but through October, the revenue sharing should be solid and be coming in.

Mr. Townsend stated that there had not been an order for all discretionary spending to stop, but with the cease of work, a lot of the expenses that would be done by now were not being incurred. He further stated that it was not business as usual right now, and his office had started to cut back in terms of spending in the 2020 budget that were approved, and were not being done because either the service was not available or they were not in the office to make it happen.
Commissioner Grebner stated that there was a sense of looking at expenses to see if the County was wasting money somewhere, but because the County had already done that before, there was little chance of finding any more money. He further stated that the Commissioners needed to remember that 80 percent of the County’s workforce was represented, and so they could not just cut their hours or announce that the County would be closed for a period of time as a result of collective bargaining agreements.

Commissioner Grebner stated that, for the small number of employees who were not represented, many were providing services that would not want to be cut. He further stated that, for example, the County could not get rid of the management or nursing staff at the jail.

Commissioner Grebner stated that what made the work-share program interesting was that it would be possible to get the bargaining units to sign a Memorandum of Understanding because the substitute would be, for example, $1.10 for $1.00. He further stated that the employees would be better off and the County would save money if this was done.

Commissioner Grebner stated that he did not think the normal mindset to address the County’s fiscal concerns would be appropriate. He further stated that this was a difficult time for managers to manage because they were being told to manage a situation that had never before occurred.

Commissioner Grebner stated that if there was an instruction from the Finance Committee to the administration, it should be what short-term measures should be taken to respond to the current epidemic in light of the changed workload. He further stated that he did not know what steps ought to be taken, but he did know this was a time that would reward quick decision-making, innovation, and imagination.

Commissioner Tennis stated that the State of Michigan entered into an agreement with their employees and the federal government that allowed, as Commissioner Grebner had mentioned, for employees to take a day off a week, and so the state was saving their payroll dollars to the tune of about $80,000,000. He further stated that the employees were being made whole by unemployment benefits.

Commissioner Tennis stated that he wondered how soon the County could do something like that. He further stated that he wondered if that program was open to counties.

Commissioner Maiville stated that he was in the private sector, and his employer did something similar where he had received time off in April, May, and June. He further stated that he received unemployment benefits and the additional $600 payment.

Commissioner Maiville stated that, per Congresswoman Elissa Slotkin’s email, Congress was trying to extend that until the end of the year. He further stated that the County had already done a good job of covering employees, but they needed to look at doing something else.

Commissioner Maiville asked if the County was under a hiring freeze except on the most critical positions.
Mr. Townsend stated that he was correct. He further stated that the County had not yet come out publicly, but the County was only looking for critical positions.

Mr. Townsend stated that the furlough process through the State of Michigan was available to the County, and the County was in the process of doing that. He further stated that he believed the deadline to respond was tonight, and so the Controller’s Office was working hard to coordinate with Department Heads to see if everyone would participate. Mr. Townsend stated that it was communicated to everyone yesterday, so the Controller’s Office was working hard to get that together. He further stated that this was something that his office was very excited about, and from a County standpoint in terms of dollar amounts, it would be the most effective way to save money.

Mr. Townsend stated that most of the County’s dollars were tied up in salaries, so that was most of the expenses. He further stated that the other line items were not flowing at their normal pace anyway, so expenses outside of that were not being spent.

Mr. Townsend stated that the program was great news for the County and the Controller’s Office was moving expeditiously to move that process forward. He further stated that it would be effective June 1, 2020 through July 31, 2020, and while it may be a small amount of time, there would be tremendous savings of millions of dollars.

Commissioner Maiville asked, speaking to the line items, in monitoring those, if the County would be making sure that no one was playing a shell game where they see some savings and move the line item to another line to fund a pet project.

Mr. Townsend stated that his office’s process was to monitor those budgets monthly to look at if there was anything outstanding, and the last review did not show anything out of line. He further stated that Department Heads had traditionally done this, and if the Commissioners remembered, in 2017 and 2018, a lot of the departments did not fill positions, even though there was not a hiring freeze.

Commissioner Schafer stated that he did not say they should use the fund balance for stabilization, but rather that they needed to be prudent in how they did that because it was important for their bond rating. He further stated that the Commissioners were talking about the current 2020 fiscal year, and he thought this had been a great discussion.

Commissioner Schafer stated that the City of Lansing had gone through some turmoil yesterday as they had to make dramatic cuts for 2020, and so he thought it was important to keep asking those questions. He further stated that, as Commissioner Grebner mentioned, as the County went into 2021, perhaps some of the trail millage could be used to offset Parks Department expenses.

Commissioner Schafer stated that, at the airport, there was an increase in the interim Director’s salary. He further stated that he thought that was a mistake at this time to have salary increases and other expenses.
Commissioner Crenshaw stated that he was made aware of the work-share program several weeks ago in a webinar with Jeff Donofrio, Department of Labor and Economic Opportunity Director, and he mentioned it to Jared Cypher, interim County Controller, and said that the County should look into this. He further stated that Mr. Cypher had met with Sue Graham, Human Resources Director, on Friday, which was later than he had anticipated.

Commissioner Crenshaw stated that, nevertheless, there was a minimum, which he believed was 10 percent of the workforce or payroll to be eligible, and the maximum was 60 percent. He further stated that it was an aggressive timeline, and so Department Heads had until 5:00 p.m. today to respond as to what their plans were.

Commissioner Crenshaw stated that he hoped that he would receive a report from the Controller’s Office tomorrow in terms of where the County was and how to proceed. He further stated that, if the County did participate, there would be a late item at the upcoming Board of Commissioners meeting on Tuesday.

Commissioner Crenshaw stated that he wished this could have been done sooner, but unfortunately it was not.

Public Comment

County Clerk Barb Byrum stated that it was great that the Commissioners were finally talking about the budget for 2020, in addition to the budget of 2021. She further stated that she applauded and thanked all of the Commissioners for bringing this up.

Clerk Byrum stated that just because there was money in the reserve and just because they had budgeted the money did not mean the County should spend it all. She further stated that she strongly believed that direction needed to be given to their employees in regards to not just anticipating that Department Heads and Elected Officials would not spend or hire.

Clerk Byrum stated that she had not been told not to hire, or that she should reevaluate all of the positions that had been posted. She further stated that for the County Clerk’s Office, she did not have any positions posted, but for the Circuit Court Clerk’s Office, there were positions posted and those were frontline workers that dealt with the public.

Clerk Byrum stated that perhaps some of those good positions should not be filled, so to the best of her knowledge, that message had not been forwarded onto Department Heads or Elected Officials. She further stated that, in terms of freezing line-item budgets, including out-of-state travel, those should be frozen and not let Department Heads and Elected Officials move that money.
Clerk Byrum stated that, if Department Heads and Elected Officials did move that money, there should be conversation, and the direction that had been given thus far had not been a fiscally-conservative direction. She further stated that that concerned her, and she was thrilled that the Commissioners were talking about 2020, in addition to 2021.

Clerk Byrum stated that it was talked about earlier that the County was looking for quarters in the couch, which she agreed with that statement, and those quarters were used for employee expenses and some of those budgeted items. She further stated that Department Heads and Elected Officials should receive an email that included a directive that told them not to spend and to conserve, and thought that conserving money in 2020 was a prudent move.

Clerk Byrum thanked the Commissioners for bringing this issue up and asking these questions.

Adjournment

The meeting was adjourned at 7:13 p.m.
RESOLUTION ACTION ITEMS:

The Controller’s Office recommends approval of the following resolutions:

1. **Drain Commissioner** – Resolution Pledging Full Faith and Credit to Montgomery Drain Drainage District Bonds

The Drain Commissioner has asked that the Board of Commissioners grant full faith and credit of Ingham County to Montgomery Drain Drainage District bonds. A pledge of full faith and credit helps to obtain a lower interest rate on the debt, resulting in lower costs for the municipalities and property owners of the drainage district who are liable to pay for the project. This drain project is necessary for the protection of the public health, and in order to provide funds to pay the costs of the project, the Drain Commissioner intends to issue the Drainage District’s bonds. The Drain Office is still receiving bids for this project and will have a not to exceed amount ready for inclusion in the resolution at the June 2 County Services Committee meeting. Principal and interest payments on the Bonds will be payable from assessments to be made upon public corporations and/or benefited properties in the Special Assessment District.

2a. **Facilities Department** – Resolution to Authorize an Agreement with Tower Pinkster for the Architectural and Engineering Design Services at the Ingham County Probate Court Office

This resolution will authorize entering into an agreement with Tower Pinkster for the architectural and engineering design services at the Ingham County Probate Court office for an amount not to exceed $14,000. The Probate Court office front counter area is in need of health and safety improvements. Tower Pinkster is on the State of Michigan MiDeal contract, so three quotes were not required per the County’s Purchasing Policies and Procedures. Funds are available for this project within the Public Improvements Fund.

2b. **Facilities Department** – Resolution to Authorize an Agreement with Du-All Cleaning Inc. for Janitorial Services at Several County Facilities

This resolution will authorize entering into an agreement with Du-All Cleaning Inc., for janitorial services at several County facilities for three years for an amount not to exceed $2,431,593.89. The current contract for janitorial services will expire on July 31, 2020. The Purchasing Department solicited proposals from qualified, experienced vendors who are familiar with providing janitorial services for office buildings and medical facilities. Du-All Cleaning Inc. submitted the lowest responsive and responsible proposal of $2,431,593.89 for a three-year contract beginning August 1, 2020 through July 31, 2023 with an optional two year renewal.

See memo for details.

3. **Fair Office** – Resolution to Authorize a Memorandum of Understanding with the Ingham County Fair Foundation to Provide Programming and Financial Assistance to the Ingham County Fair

This resolution authorizes a letter of understanding with the Ingham County Fair Foundation for services at the Ingham County Fair, under mutually agreeable terms and conditions to both parties, effective upon execution of the contract, for a 5-year term, unless terminated earlier.
4a. **Parks Department** - *Resolution to Authorize an Amendment to the Contract with Signs by Crannie*

This resolution authorizes an Amendment to the contract with Signs by Crannie to approve an additional $7,000 to complete the Ingham County wayfinding project. Funds are available from the Trails & Parks millage.

4b. **Parks Department** - *Resolution to Authorize an Amendment to the City of East Lansing Trails and Parks Millage Agreements*

This resolution authorizes an additional $600,000 from the Trails & Parks millage to cover expenses associated with unforeseen circumstances that have arisen in four projects on the City of East Lansing’s Northern Tier Trail.

4c. **Parks Department** - *Resolution to Authorize a Contract with Ratnik Industries*

This resolution authorizes a contract with Ratnik Industries in the total amount not to exceed $3,500 for engineering services for the new snowmaking pipe at Hawk Island. The contract with Ratnik Industries shall be effective the date of execution through August 1, 2020. Funds are available through the Parks fund balance.

4d. **Parks Department** - *Resolution to Approve the Application Form, Scoring Criteria for the Trails and Parks Millage, and Declaring that a Sixth Round of Applications for the Trails and Parks Millage Funds will be Taken Beginning June 10, 2020*

This resolution authorizes a sixth round of Trails & Parks millage applications, which will be taken beginning June 10, 2020. This resolution merely authorizes the process and does not commit the County to funding any specific projects. This is important to note as we enter a difficult budget year.

5. **Financial Services Department** – *Resolution to Authorize a Business Associate Agreement with Plante and Moran, PLLC Relative to the Annual Audit*

This resolution will authorize entering into an agreement with Plante and Moran, PLLC, to comply with all laws and regulations pertaining to the privacy, security and confidentiality of all Protected Health Information encountered as a result of their audit engagement and examination of the County of Ingham. Plante and Moran, the firm who conducts the County’s annual audit, has begun obtaining Business Associate Agreements with their clients as they routinely access protected health information in order to meet the auditing standards. The agreement simply affirms that our audit firm will abide by the privacy laws.

6. **Ingham County Brownfield Development Authority** – *Resolution to Expend Brownfield Fund 240 Bond Proceeds for Environmental Remediation & Redevelopment Purposes*

This resolution will authorize expenditure in the amount of up to $157,953 for eligible environmental activities and authorizes the Chair of the Board of Commissioners to execute a Reimbursement Agreement between the Ingham County Brownfield Development Authority (ICBRA) and the Ingham County Land Bank.

The Ingham County Land Bank is the owner of a parcel commonly known as the Former Deluxe Inn Site. This property is listed as a priority site within the Brownfield Plan for Redevelopment of Ingham County Land Bank Fast Track Authority Parcels in the City of Lansing. To finance the purposes of the plan in 2010, ICBRA approved the issuance of bonds in an amount not to exceed $2,685,000, in anticipation of the collection of certain tax increment revenues from eligible properties.
However, the Brownfield Plan Fund (240), was and is currently operating in deficit due to a lack of tax increment revenues from eligible properties. In 2010, Ingham County provided a limited tax pledge for the payment of principal and interest on the bonds and is now covering the bond debt service. To reduce the deficit and bond debt payments without subsidy from the County’s general fund, an increase in tax increment revenues is required.

REO Town Holding, LLC has engaged the Land Bank with intent to buy and develop the property, either as a hotel or mixed-use apartment development, both holding approximately 100 beds. The property currently requires environmental remediation before any development can occur. The developer and the Land Bank approached ICBRA staff regarding the possibility of assisting with the environmental due diligence.

After discussions with the Land Bank, the developer and the City of Lansing, ICBRA staff recommends expending up to $157,953 on eligible environmental activities authorized in the Brownfield Plan to enable environmental remediation and development in accordance with City of Lansing planned zoning.

See memo for details.

7. **Road Department** – Resolution of Support for the Local Bridge Program Funding Applications for Fiscal Year 2023

This resolution will authorize the Road Department to submit five applications for the following bridges to solicit fiscal year 2023 Local Bridge Program funding:

1. Replacement of the Dennis Road Bridge over West Cedar Drain, Leroy Township (SN 3898)
2. Replacement of the Hagadorn Road Bridge over Mudd Creek, Alaiedon Township (SN 3876)
3. Replacement of the Noble Road Bridge over Deer Creek, Wheatfield Township (SN 3921)
4. Rehabilitation of the Holt Road Bridge over Doan Creek, Leroy Township (SN 3869)
5. Preventative Maintenance on Various Bridges Countywide

The Michigan Department of Transportation (MDOT) is currently soliciting applications for funding through the Local Bridge Program for Fiscal Year 2023. Funding categories include full bridge replacement, bridge rehabilitation, and preventative maintenance work. Each local agency is allowed to submit up to five funding applications for bridges measuring at least 20-ft long measured along the centerline of the roadway. Funding applications are due by June 1, 2020. The Local Bridge Program requires the road agency’s governing body to pass a resolution of support for the bridge funding applications, which is normally included as part of the complete application submittal package. However, MDOT is allowing resolutions to be submitted at a later date without impact to the funding selections, due to variable COVID impacts to road agencies throughout the state.

Re: Resolution Authorizing County’s Full Faith and Credit for Montgomery Drain 2020 Bonds for meeting agendas of May 19<sup>th</sup> and May 20<sup>th</sup>

I am requesting that the Board of Commissioners grant full faith and credit of the County for the bonds that will finance the Montgomery Drain Maintenance and Improvement Project (“Project”). Such action is customary because it provides the bond holder an important level of security for the bonds.

The Project results from a June 3, 2014, petition submitted by the City of Lansing and Ingham County to address public health, pollution, and flooding problems. The Montgomery Drain Drainage Board found the Project necessary for public health on July 15, 2014. The Montgomery Drain – originally established in 1906 – serves the largely commercial area near the City of Lansing’s eastern edge where US-127 intersects with major thoroughfares of Grand River Avenue, Saginaw Highway, Michigan Avenue, and Kalamazoo Street. The Project’s targeted low impact design maximizes the use of existing infrastructure within the system while adding storage capacity where needed. A water quality “treatment train” will also be constructed, consisting of various facilities including media filters, engineered biofiltration, and wetland treatment systems to significantly reduce the estimated 50,000-75,000 pounds of pollutants conveyed through the Montgomery Drain into the Red Cedar River on a yearly basis.

Project bids are being opened for each of 13 divisions of construction through June 2020. The total Project computation of cost will not be completed by the time of Board action. As a result, the attached Full Faith and Credit Resolution contains blanks in which a “not-to-exceed” amount will be inserted prior to the County Board meeting instead of an exact amount.

In connection with this request for full faith and credit, the Drain Office has performed certain due diligence for the Project. Attached is additional material that includes an explanation of Drain Code provisions that provide powers and safeguards with respect to Chapter 20 drain bonds in general and an explanation of the financial due diligence performed for the Project in particular.

Based on the attached analysis, it is my opinion that there is significant property value in the drainage district to support the payment of the assessments leading me to conclude that there is no substantial risk that a significant, long-term payment would be required from the County as a result of its pledge of full faith and credit for these Bonds.

I will be in attendance at your Committee meetings on May 19<sup>th</sup> and 20<sup>th</sup> to answer any questions you might have regarding this important Project. Thank you so very much for consideration of my request. It is an honor and a privilege to serve the citizens, municipalities, and businesses of Ingham County.
MEMORANDUM

To: Ingham County Board of Commissioners
From: Patrick E. Lindemann, Ingham County Drain Commissioner
Re: Full Faith and Credit Resolutions in Support of Chapter 20 Drain Projects
Date: May 5, 2020

The Ingham County Drain Office performs certain due diligence for each drain project it undertakes for which the County will be asked to pledge its full faith and credit. The Montgomery Drain Maintenance and Improvement Project is a project that has been petitioned under Chapter 20 of the Drain Code, by the City of Lansing and the County. The purpose of this memo is to summarize the due diligence my office has performed for this Chapter 20 drain project and to provide some background on the general Drain Code provisions that provide safeguards to a county when it pledges its full faith and credit.

Based on the following analysis, it is my opinion that there is significant security to support the payment of the assessments for the Montgomery Drain Project leading me to conclude that there is no substantial risk that a significant, long-term payment would be required from the County as a result of its pledge of full faith and credit for these Bonds.

DRAIN CODE POWERS AND SAFEGUARDS REGARDING PAYMENT OF CHAPTER 20 DRAIN BONDS

In considering the risk that there would be insufficient funds to pay drain bonds (which could lead to an advance by a county on its full faith and credit pledge), the Michigan Drain Code and Michigan law in general build in important safeguards to protect the vital public interest in being able to finance drain projects:

1) The debt service on drain bonds issued under Chapter 20 of the Drain Code is paid from assessments levied against public corporations benefitted by the Project. These are assessments directly to the public corporations, unlike assessments under Chapters 4 and 8 of the Drain Code where a portion of the assessments would be levied by the Drainage District against benefitted properties. These assessments under Chapter 20 are a strong source of revenue since the assessments are a general obligation of the public corporations and the Drain Code provides significant powers to Cities and Charter Townships to raise revenue to pay their assessments.

   a) The assessments against public corporations are a general obligation of the public corporations payable from their general fund and any other available funds.

   b) In addition, the public corporations have the power to specially assess the amounts assessed against the public corporation to benefitted properties in the public corporation. This power provides the public corporation with an additional source of revenue to pay its assessment by raising funds from benefitted properties with all of the powers that are available to the public corporation pursuant to the laws governing the levying and collecting of special assessments.
c) In addition, Chapter 20 of the Drain Code gives cities and certain charter townships the ability under the laws of the state of Michigan to levy ad valorem taxes to pay their drain assessments. This taxing power is not limited by the constitutional, statutory and charter limitations on the taxing power of the public corporation. This unlimited taxing power provides a second additional revenue source to pay the drain assessment.

2) By adopting a resolution pledging full faith and credit, the County is agreeing to be a backup source of payment for the bonds if there is a shortfall in the primary source of payment and the County would only make payments pursuant to this pledge in the event there is ever a shortfall in the assessment collections from the public corporations.

3) For a Chapter 20 drain project, the Drain Code gives the County significant powers to collect any shortfall in payment from the public corporations.

   a) If there is a shortfall in payments from a public corporation that requires the County to advance funds to make payments on the bond, the Drain Code requires the County Treasurer to notify the State Treasurer who is then required to deduct the amount of the shortfall from any moneys of the public corporation in the State’s possession not otherwise pledged to the payment of debts, up to an amount equal to 25% of the total owed by the public corporation in any one year.

   b) In addition, the Board of County Commissioners can order the public corporation and its officers to levy on its tax roll in an amount sufficient to reimburse the County by the due date of the public corporation’s tax levy, in which event the Drain Code requires the public corporation and its officials to levy the tax.

   c) The Drain Code places a direct requirement on the public corporations to levy whatever taxes are needed to pay their assessment if they have not set aside other funds sufficient for that purpose.

   d) The County has all other remedies available at law to enforce the obligations of the public corporations, which includes the ability to sue for damages and obtain a judgment against the public corporation, which could be spread on the tax roll of the public corporation, and the ability to bring a mandamus action to compel officials of the public corporation to perform their duties mentioned above.

   e) Section 477 of the Drain Code requires the Drainage Board to levy additional special assessments if the original assessments are not sufficient to pay the principal and interest on the bonds.

4) The County has never made a payment pursuant to a resolution pledging full faith and credit for drainage district bonds issued by a drainage district during my 27-year tenure as drain commissioner.

DUE DILIGENCE PERFORMED FOR THE MONTGOMERY DRAIN MAINTENANCE AND IMPROVEMENT PROJECT

The Drain Office has performed specific due diligence for the Montgomery Drain Maintenance and Improvement Project which is undertaken under Chapter 20 of the Drain Code. Each public corporation has discretion to decide how to raise the funds necessary to pay for its assessment. The Drain Office been informed in this case that each of the municipalities is developing its own mix of funds that it will use to make its payments. Since this mix is in the discretion of the public corporations, the due diligence for this project has focused on the possible tax revenue and the state aid that is available to the public corporations to pay the assessment in the worst case scenario that a public corporation does not pay an installment of its assessment. It should be clear that this is not a representation of how the public corporations plan to pay their assessments.
This is just an analysis to show availability of revenues in the case there is a shortfall causing the County to make a payment on the bonds.

1) As stated above, the ultimate source of revenue to pay a public corporation’s assessment in a worst case scenario is an ad valorem tax levy. In addition to the County and MDOT, the public corporations that will be assessed for the Montgomery Drain Maintenance and Improvement Project are the City of Lansing, the City of East Lansing and the Charter Township of Lansing. In the event that a millage would need to be levied to pay an annual installment of debt service on the bonds for the main drain project, it is estimated that the necessary millage rate to raise those funds would not exceed:

   City of Lansing – 0.593 mill
   City of East Lansing – 0.135 mill
   Lansing Charter Township – 0.90 mill

This analysis shows that even in a worst case scenario, the revenue stream required for payment would be manageable revenue.

2) As stated above, the other available source of revenue in a worst case scenario is the state revenue sharing payments that are available to the public corporations. Current year estimates of the revenue sharing for the public corporations published by the state of Michigan are:

   City of Lansing – $15,598,269
   City of East Lansing – $1,573,536
   Lansing Charter Township – $804,184

3) Based on this analysis, there are significant resources available to support the payment of the assessments for the bonds that will be issued for this project, leading me to conclude that there is no substantial risk that a significant, long-term payment would be required from the County as a result of its pledge of full faith and credit for these Bonds.

2. Should the County advance County funds pursuant to the pledge made in this Resolution, it shall be the duty of the County Treasurer, for and on behalf of the County, to take all actions and proceedings and pursue all remedies permitted or authorized by law for the reimbursement of such sums so paid.

SUBJECT: Amendment to the Contract with Signs by Crannie

For the meeting agenda of 6/1/20 Human Services and 6/3/20 Finance

BACKGROUND
Board of Commissioners Resolution #19-123 authorized a contract with Signs by Crannie for designing and fabricating custom wayfinding signs for the Trail Wayfinding Signage project in a total amount not to exceed $281,427.77 from the Trails and Parks Millage Fund. Additional funds are needed to complete the project due to updated sign dimensions from the Ingham County Road Department.

ALTERNATIVES
A wayfinding system is an important tool for helping people navigate and fully experience an area. Well placed signage ensures that people can safely reach desired destinations. It also can help people discover new areas of interest in an impromptu way. Wayfinding signs are needed by Ingham County visitors and residents to navigate their land and water trail systems that can often disorient the user, even when they are familiar with the area.

FINANCIAL IMPACT
Additional funds need to be appropriated for the project from the Trails and Parks Millage fund balance in an amount of $7,000.00 to complete the project.

STRATEGIC PLANNING IMPACT
This resolution supports the overarching long-term objective of striving to make facilities and services user-friendly, specifically Section A. 1(f) of the Action Plan - Maintain and improve existing parkland, facilities, and features. This resolution supports the overarching long-term objective of striving to make facilities and services user-friendly, specifically Section A. 1(g) of the Action Plan - Work to improve accessibility for visitors of all ages and abilities.

The City of East Lansing is requesting an amendment to these agreements due to the following unforeseen circumstances (as detailed in attached documents):
- TR003 - Repair of cracks and relocation of 1500’ along the Sanderson Drain to mitigate the impact of the trails proximity to the drain which has caused drops along the drain.
- TR033 - Delay in receiving matching funds from the MDNR TF, re-bidding and delay in start of construction
- TR057 and TR058 - East Lansing did not receive the matching funds from the MDNR TF and the City does not have the matching funds to provide internally.

ALTERNATIVES
The Park Commission approved this approach at their May 11, 2020 meeting.

FINANCIAL IMPACT
The financial impact from these requests will be $600,000 from the Trails and Parks Millage Fund. With the millage recently being renewed, the impact would be minimal.

STRATEGIC PLANNING IMPACT
This resolution supports the overarching long-term objective of striving to make facilities and services user-friendly, specifically Section A. 1(f) - Maintain and improve existing parkland, facilities and features,1(g) - Work to improve accessibility for visitors of all ages and abilities and 1(h)- Enhance existing trails and blueways, and develop new multi-use trails and blueways, that connect parks with recreational, residential, cultural and business centers throughout Ingham County.

OTHER CONSIDERATIONS
The Ingham County Park Commission supported this resolution at their May 11, 2020 meeting.

RECOMMENDATION
Based on the information presented, I respectfully recommend approval of the resolution authorizing amendments to the Agreements with the City of East Lansing.

RE: Request for Amendment
Northern Tier Trail Connection through White Park
Trails Millage Project #TR033

Good day Melissa:

The City of East Lansing would like to request an amendment to the agreement for Ingham County Trails Millage Project #TR033, Northern Tier Trail Connection through White Park. The purpose of this amendment would be to extend the term of the agreement by one year, from March 7, 2020 to March 30, 2021.

The local match for this project is being provided by a Michigan Department of Natural Resources Trust Fund (MNRTF) grant. The MNRTF grant was received in June 2018 and bids were secured for project construction in September 2019. Higher than estimated bid results required a project re-design and rebidding which was completed in November 2019. Project construction began in January 2020 and it is expected that it will take a calendar year to complete all aspects of the work.

The proposed extension will allow the City of East Lansing to complete the project construction. Attached are photographs depicting the project progress to date.

If you should have any questions about this request or need additional information, please contact Wendy Wilmers Longpre at wlongpr@cityofeastlansing.com or 517-319-6940 for assistance.

We appreciate the support of Ingham County in providing safe and quality trails and recreational opportunities for the region.

RE: Northern Tier Trail Connections from Riveria Drive and Colorado Drive

Good day Commissioners:

The City of East Lansing would like to request that the Ingham County Park Commission increase the Trails and Park Millage Allocation for the Northern Tier Trail Connections at Riveria Drive and Colorado Drive by $300,000. In August 2018, the City of East Lansing requested funds from the Ingham County Trails and Parks Millage to install a bridge connecting Riveria Drive to the Northern Tier Trail and a bridge connecting Colorado Drive to the Trail. Attached is a location map and site plans for both funding requests. The City proposed that the local match for the projects would be provided by Michigan Natural Resources Trust grant. The County viewed these funding request favorably.

During the January 13, meeting of the Ingham County Parks Commission, East Lansing representatives informed the Commission that they had not been successful in securing NRTF funds for the local match and the City was not in a position to match the Trails Millage allocation with general funds. Three possible options for moving forward on this project were discussed: combine the Trails Millage funds to fully fund one bridge versus partially funding two bridges; increase the Trails Millage allocation to fully fund both bridges; or request that the City of East Lansing submit a revised funding request during the next grant funding cycle.

The Park Commission requested that East Lansing evaluate the options and return to the Commission in May with a proposal. Therefore, East Lansing is requesting that an additional $200,000 in Trails Millage funds be allocated to the Riveria Drive connection for a revised project allocation of $570,796 and that an additional $100,000 in Trails Millage funds be allocated to the Colorado Drive connection for a revised project allocation of $291,684.

An allocation of millage funds at this time would allow the projects to move forward with design and position the City to install the connections as early as this fall or spring of 2021. This allows the City to capitalize on the community support that was built through the public input process associated with preparing the grant requests and will provide a much-needed resource to the East Lansing community.
If the Commission has any additional questions, please contact Wendy Wilmers Longpre at wlongpre@cityofeastlansing.com or 517-319-6940 for assistance.

We appreciate the support of Ingham County in providing safe and quality trails and recreational opportunities for the region.

Sincerely,

Timothy M. McCaffrey
Director of Parks, Recreation and Arts

RE: TR003 Northern Tier Trail Improvements
    Trails Millage Allocation Request

Good day Commissioners:

The City of East Lansing would like to request that the Ingham County Park Commission increase the Trails and Park Millage Allocation for TR003 Northern Tier Trail Improvements by $300,000 to repair cracks that migrated through the recent trail improvements and to relocate 1,500 linear feet of trail along the Sanderson Drain.

During the January 13, meeting of the Ingham County Parks Commission, East Lansing representatives updated the Commission on the status of the various East Lansing trails projects that had been funded through the Trails Millage and requested an extension on the Northern Tier Trail Improvements project agreement. The extension was requested to allow the opportunity to evaluate two outstanding issues: cracks that are mitigating through the new asphalt surface and a section of the trail along the Sanderson Drain where asphalt wedging and movement of the drain have created substantial drops along the trails edge. East Lansing indicated that they had contracted with KEBS Inc., complete a topographic survey of the trail section along the Sanderson drain and to develop a preliminary plan and estimate of cost to correct the issues.

Attached are preliminary plans and an estimate of probable cost to repair the reflective cracking of the existing trail surface and to move 1,500 lf of trail away from the Sanderson Drain. The scope of work proposed in this plan includes:

1. Complete removal of 1,500 lf of trail.
2. Grading and earthwork necessary to shift the trail +/- 5’ to the east and lower the trail elevation. This will level the slope between the trail and top and drain which will reduce erosion along the drain.
3. Installation of a new 10’ wide asphalt trail surface with 3 ½” of asphalt, an 8” gravel base and biaxial geogrid along the entire length.
4. 135’ of barrier fence.
5. Crack restoration along the full 3.5 miles of the trail that are in Ingham County
An allocation of millage funds at this time would allow the repairs to be implemented as early as this fall or spring of 2021 and close out this project.

If the Commission has any additional questions please contact Wendy Wilmers Longpre at wlongpre@cityofeastlansing.com or 517-319-6940 for assistance.

We appreciate the support of Ingham County in providing safe and quality trails and recreational opportunities for the region.

FROM: Tim Morgan, Parks Director
DATE: May 12, 2020
SUBJECT: Contract with Ratnik Industries
For the meeting agenda of 6/1/20 Human Services and 6/3/20 Finance

BACKGROUND
In the fall of 2018, staff repaired two areas of the pipe that had developed holes in the steel. Initially it was thought these two areas were isolated and that the problem had been fixed. While attempting to prepare the snowmaking system and during the initial snowmaking days of the 2019/2020 season, we discovered at least three more areas that have developed corrosion. The cause of these “holes” in the lines are unknown but possibilities include corrosion caused by other metals and materials in the ground at Hawk Island or possible defects in the original steel pipe that was installed. The pipes are corroding from the outside inwards, so the water traveling through the lines is not the issue.

Proposals were solicited for engineering services for the new snowmaking pipe at Hawk Island. The evaluation committee recommends entering into a contract with Ratnik Industries.

ALTERNATIVES
We need to completely replace the underground snowmaking lines in order to continue to be able to operate the snow tubing hill at Hawk Island.

FINANCIAL IMPACT
This resolution requests authorization to use the Parks 208 fund balance. There are funds available to do this project in the Parks Department 208 fund balance.

STRATEGIC PLANNING IMPACT
This resolution supports the overarching long-term objective of striving to make facilities and services user-friendly, specifically Section A. 1(f) of the Action Plan - Maintain and improve existing parkland, facilities, and features.

OTHER CONSIDERATIONS
The Ingham County Park Commission supported this resolution at their May 11, 2020 meeting.

RECOMMENDATION
Based on the information presented, I respectfully recommend approval of the attached resolution.

SUBJECT: Opening of the Next Round of Trails and Parks Millage Grant Applications and Updates to the Scoring Criteria and Application
For the meeting agenda of 6/01/20 Human Services and 6/03/20 Finance

BACKGROUND
The Park Commission reviewed the recommendations set forth by the Trails and Parks Millage Coordinator for the sixth round of millage grants. The need to balance fiscal responsibility as well as keep the momentum going for future planning and projects is a high priority for the Park Commission.

The Park Commission reviewed and edited the Trails and Parks Millage Grant Application (Attachment A) and Scoring Criteria (Attachment B), taking into consideration the comments from the BOC in the last round of grants.

The Park Commission would like to recommend the sixth round of applications be set at a $7 million dollar cap, providing an opportunity for multi-year funding, with no required match but additional points will be rewarded if match is provided. $3.5 million allocated for 2021 and $3.5 million allocated for 2022. The Park Commission also recommends that the cap for small projects/shovel ready projects be raised to $300,000 which is reflected in the application.

The current application and scoring criteria will remain the same except for the number of match points awarded if provided. If a community does provide match they will receive additional points but it is not required for this round.

The resolution opens the application period for the sixth round of grants. Applications will be open on June 10, 2020 and be due on July 31, 2020. Following due diligence by staff and the Park Commission, final approval is expected from the Board of Commissioners in December 2020.

ALTERNATIVES
This process will be reviewed by the Park Commission annually, moving forward with the Trails & Parks Millage to ensure that the application and scoring criteria stay current and are in line with the needs of the program.

FINANCIAL IMPACT
This resolution would provide $7 million dollars to communities out of the Trails and Parks Millage Fund.
**STRATEGIC PLANNING IMPACT**

**OTHER CONSIDERATIONS**
The Parks & Recreation Commission supported this resolution and recommended a sixth round of grants at their May 11, 2020 meeting.

**RECOMMENDATION**

Trails and Parks Program Application

The overall goal of the Ingham County Regional Trails and Parks Millage Fund is to create and maintain a sustainable countywide system of recreation trails and adjacent parks within Ingham County. All Ingham County municipalities are eligible to apply. In addition, 501(c) (3) non-profit organizations may apply for grant funds so long as they partner with an Ingham County municipality which contributes tax dollars to the Trails and Parks Millage.

Funds must be matched by the local community with their own funds, or in-kind services, or funds obtained from other sources, i.e., state, federal, private or other allocations. Applications for County Trails and Parks Program funding must include a resolution(s) of support for the project from the governing body (ies) of the community where the trail project or blueways project is proposed. Eligible projects must fit the following categories: small shovel ready projects up to a limit of $300,000, planning and engineering for future projects. Preference will be shown to applications within those parameters, however all grant applications will be considered, even if they are not shovel ready or include future planning.

Project applications must be received by 6:00pm July 31 for funding consideration in the following year. Projects deemed worthy of funding may be approved at the November Ingham County Board of Commissioners meeting. The following information will be used by the Ingham County Parks and Recreation Commission in determining and recommending which projects should be funded by the Board of Commissioners. Projects already locally approved and bid will not be eligible for millage funding.

**DESIGN/SCOPE OF THE PROJECT-(Attachments as needed)**

Provide a (detailed) description of the project you are proposing, with reference to specific scope items. Describe the features of the project and all factors that affected your design or program. Describe how your design was chosen, and why it is appropriate for the proposed project. Use this opportunity to explain why you chose the type and placement of particular scope and design elements. Explain how your project design meets or exceeds standards. (If your project addresses a clearly identified item from the Ingham County Trails and Parks Comprehensive Report, please identify that with a reference to the report – page #, table #, or identifying marker (ie. Bridge # CL-01-SCT-SC)). (No minimum word count-attachments as needed).
1. Describe in detail any other available funders and partners.
   Your discussion should address whether your project has funding available through grants or partner contributions, has funding available through donations or in-kind services, and/or has funding available through local community match and what total percent of the project these all account for. This should be detailed on the Estimated Costs/Budget sheet also. Local agencies are required to list Ingham County Parks as a contact in TAP applications that propose Ingham County Parks Millage funding as part of their match. 250 word limit.

2. Discuss how the project is improving regional connectivity.
   Your discussion should address how the project provides, supports and relates to the Ingham County regional priority corridors as depicted on Figure 24 of the Ingham County Regional Trails and Parks Network either as an existing trail repair/rehabilitation/long-term maintenance, new regional trail construction or new local trail access to the regional network (including enabling water trail access); improves access to Ingham County Parks; improves access to major regional destinations such as commercial and employment centers as well as community facilities, schools, colleges and universities; expands transportation options; provides for recreation; increases access to sites of natural, scenic or historic interest; and any other related information. 250 word limit.
3. Describe how the project responds to public demand and has public support. 
   Your discussion should address how the project is based on public demand, has been prioritized in 
   adopted plans, has volunteer and/or partner organization support, is a community interest project that 
   supports partnerships, shared resources or coincides with other planning and development activities; 
   has the support of multiple jurisdictions and/or stakeholders; and any other related information. 250 
   word limit.

4. Explain how the project meets acceptable design standards and is the best design solution. 
   You must have on staff, or hire a Michigan licensed professional engineer or a landscape architect, and 
   all construction (new or rehab) must be according to current MDOT standard and specifications for 
   construction of trails, bridges, and boardwalks and any other support facilities. Trail repair and 
   maintenance projects may not require an engineer or landscape architect. (Deviation from this 
   requirement needs to be stated and explained. The County will review on a case-by-case basis.) Any 
   work in the road Right of Way, not just pedestrian crossings, needs to meet applicable permit requirements. You 
   must meet permit requirements for any pedestrian crossings of the given road agency—Michigan 
   Department of Transportation (MDOT), Ingham County Road Department or whatever City your 
   community is in. You must have the necessary required permitting, be it public/road rights-of-way, local 
   ordinance (township or municipality), environmental (Michigan Department of Environmental Quality- 
   MDEQ), Drain office, etc. Your description should address how the project is physically separated from 
   streets and roadways where possible; provides a variety of experiences that can be enjoyed by a 
   diversity of users, including people of all ages and abilities; meets or exceeds the minimum accessibility 
   requirements of the ADA; design alternatives to the project have been examined to minimize impact on 
   the environment; meets AASHTO guidelines for alignment, grade, width, vertical clearance, and loading 
   intersection and crossing design (deviation from AASHTO guidelines need to be stated and explained. 
   The County will review on a case-by-case basis); considers low-impact development techniques that 
   protect and enhance significant natural features; and any other related information. Please review 
   Attachment B- BOC Resolution #18-054 for design standard clarification. 250 word limit.
5. Explain how the project is feasible and ready for implementation or development.
Your discussion should address whether your project area is under public ownership or is currently accessible for public use; does not require complex or lengthy acquisition process; does not require a complex or lengthy permitting process; is within an existing corridor such as a transmission line and railroad corridor where it may be feasible to negotiate public access without needing to acquire land; there is an imminent threat to lose the project opportunity; demonstrates cost efficiency; and/or is appropriate and in line with available funds. 250 word limit.

6. Discuss how the project supports equitable opportunities.
Your discussion should address how your project increases or improves access and provides low cost transportation and recreation options for low income populations; is located in a high use area; is located in an underserved area; and/or contributes to an equitable geographical distribution of the millage funds. 250 word limit.
7. Maintenance Commitment & Plan

Describe your operation and maintenance plan (with budget costs) detailing the amount of money needed to operate and maintain the trail after it is completed, and identify who will be responsible for the work. Describe in detail how the trail will be managed. Include discussion on season length, hours of operation, enforcement provisions, and scheduling. 250 word limit.
# Ingham County Trails and Parks Program Application

## ATTACHMENTS - REQUIREMENTS

1. **Project Location Map & Photos.** Attach a project location map and site photographs (clearly identify photos and locations in correlation with your location map).

2. **Site Plan.** The site plan must show the entire site to be improved/developed, and should delineate and label the location and type of all existing and proposed uses. Features such as wooded areas, wetlands, water bodies, overhead utility lines, and all existing uses, including buildings and other development, need to be identified. The placement of all scope items proposed in the application should be depicted on the site plan. Indicate on your site plan the destinations to which the proposed trail project will connect. Provide a map of the trail network (existing or proposed) to which your project will link.

3. **Documentation of Other Funding Sources.** You must provide documentation for all the funding sources you indicated on your application form, as outlined in Attachment C.

4. **Certified Resolution.** The governing body of the local unit of government must pass a resolution. The resolution should list and commit to the amount of the local match in terms of dollar amount or percentage of total project cost, and all source(s) of match as specified in the application. (This may be obtained and submitted after submission of the application if timing is an issue, but must be before the date of the award by the BOC).

5. **After the award, and during construction, entities must display temporary millage recognition signage on site of projects provided by the County.** Once complete, must display a permanent recognition plaque on site also provided by the County.

6. **After completion of the project,** entities must agree to participate in the County wide wayfinding signage plan.

ATTACHMENT B.

Introduced by the Human Services and Finance Committees of the:

INGHAM COUNTY BOARD OF COMMISSIONERS

RESOLUTION CLARIFYING DESIGN STANDARDS FOR TRAILS AND PARKS MILLAGE PROJECTS

RESOLUTION # 18 – 054

WHEREAS, the Ingham County Trails and Parks Program Application states that the Trails and Parks Millage projects must meet acceptable design standards and is the best design solution as adopted by Board of Commissioners Resolution 17-275; and

WHEREAS, the County will review any deviations from such standards on a case by case basis; and

WHEREAS, applicants must obtain necessary permits for the projects, be it public/road rights-of-way, local ordinance (township or municipality), environmental (Michigan Department of Environmental Quality-MDEQ), Drain office, etc.; and

WHEREAS, at least one case has surfaced where the announced design standards of the Trails and Parks Millage may conflict with the standards and rules of a permitting agency; and

WHEREAS, on reflection, the Parks Commission does not believe that wise administration of the millage money should require the applicant to be caught between the standards of a permitting agency and the general standards demanded by the County for its millage projects.

THEREFORE BE IT RESOLVED, that the Ingham Board of Commissioners adopt the following policy: in cases where a permitting authority disagrees with use of a particular county standard, the terms of the draft permit proposed by the permitting authority will control, but the applicant is required to promptly notify the County Park Commission of the permitting authority's position.

BE IT FURTHER RESOLVED, Parks Department staff are to raise any concerns with the permit in consultations with the applicant and the permitting authority.

BE IT FURTHER RESOLVED, this policy is retroactive for any signed agreements that have not yet been completed and any future agreements.

BE IT FURTHER RESOLVED, that the Chairperson of the Board of Commissioners is hereby authorized to sign any necessary contract documents on behalf of the County after approval as to form by the County Attorney.

Match Requirement for Ingham County Trails & Parks Millage

The applicant is not required to provide match, however, applicants that do contribute match will receive additional points under the Scoring Criteria. Match being the applicant provided a portion of the total project cost.

Applicant match can be met by general funds, cash donations, and other grants or by donation of a portion of land that will be used for the project. All land value donations must be clearly documented in the grant application and supported by a letter of commitment by the landowner.

Additional forms of match may consist of credit for certain applicant-assumed costs directly related to the construction of the proposed project, including charged for local government-owned equipment and labor performed by the applicant's employees. Donations of goods and services may be used as all or part of the match if the applicant specifies the nature and can document actual values of the items or services. The source and amount of ALL donations must be clearly stated in the grant application and supported by a letter of commitment from the donor.

Match commitments must be secured prior to the application deadline for that current application round. Proof of secured match must be provided to the County grant coordinator on or before the deadline. Applications using millage funds as match for Federal or State grants will be reviewed on a case by case basis. Failure to provide match documentation by the application deadline may be declared ineligible.

Examples of secured match include:

- General fund-Resolution from local governing body committing to the match
- Cash donations- Letters of commitment from donors
- Other awarded grants- Letter from granting organization committing to the grant, explaining conditions of award, and information on the scope of work provided by the other grant.
- Applications for other grants are not considered a secure match source
- Donation of land value- Letter from land owner committing to donate a fixed percentage of the appraised fair market value.
- Donation of goods and services- Letter from the donor explaining the nature and value of the goods and services. The letter of donation must indicate number of hours or quantity of materials. The letter must include the quantity, dollar amount and for labor the number of hours and hourly rate. Pre-bid discounts such as percentage off a price are not accepted for documentation of match.
- In-kind/Force-account- Resolution from the governing body committing to the match

Secured match ensures there should not be a cash flow problems threatening the completion of the project. Changing match after the application deadline is highly discouraged and will require approval by the County and the grantee must provide documentation for this change.

TO: INGHAM COUNTY BROWNFIELD REDEVELOPMENT AUTHORITY (ICBRA)
FROM: LANSING ECONOMIC AREA PARTNERSHIP (LEAP – CONTRACTED ICBRA STAFF)
DATE: FRIDAY, MAY 8, 2020
RE: FORMER DELUXE INN SITE -- EXPENDITURE OF BROWNFIELD BOND PROCEEDS

BACKGROUND
Ingham County Land Bank (“Owner”) is the owner of parcel number 33-01-01-21-203-003, located at 0 E. Malcolm X Street and commonly known as the Former Deluxe Inn Site (“Property”).

Property is listed as a priority site within the Brownfield Plan for Redevelopment of Ingham County Land Bank Fast Track Authority Parcels in City of Lansing, Only (“Plan”), approved in 2008 and amended twice in 2010. Plan was approved to restore environmental and economic viability of Land Bank-owned parcels in the City of Lansing.

To finance the purposes of the Plan in 2010, Ingham County Brownfield Redevelopment Authority approved the issuance of bonds (“Bonds”) in the aggregate principal amount of not to exceed $2,685,000, in anticipation of the collection of certain tax increment revenues from eligible properties. Bonds are designated “Brownfield Redevelopment Authority Bonds, Series 2010,” maturing not later than August 1, 2026 and bearing interest at a rate or rates not exceeding 6% per annum. Bonds were activated at eligible properties across City of Lansing, including demolition of the former Deluxe Inn Hotel at 0 E. Malcolm X Street. Currently, bond proceeds remain in the amount of $157,953.

However, the Plan’s fund, known as Brownfield Fund 240, was and is currently operating in deficit due to a lack of tax increment revenues from eligible properties. In 2010, Ingham County provided a limited tax pledge for the payment of principal and interest on the Bonds and is now covering the bond debt service. To reduce the deficit and bond debt payments without subsidy from the County’s general fund, an increase in tax increment revenues is required.

PROJECT OVERVIEW
REO Town Holding, LLC (Developer) has engaged Owner with intent to buy and develop the Property. Developer intends to construct either a hotel or mixed-use apartment development, both holding approximately 100 beds.

Property currently requires environmental remediation before any development can occur. Developer and Owner approached Ingham County Brownfield Redevelopment Authority staff regarding the possibility of assisting with the environmental due diligence.

Owner and Developer have entered into a Purchase Agreement for the Property, providing the Developer 160 days beginning in mid-March to complete due diligence activities and achieve necessary approvals with the City of Lansing.
RECOMMENDATION
After thorough discussions with Owner, Developer and City of Lansing, ICBRA staff recommends expending up to $157,953 on eligible environmental activities authorized in the Plan on the Property to enable environmental remediation and development in accordance with City of Lansing planned zoning.

ICBRA staff believes mobilizing the remaining Bonds adheres to the mission of the ICBRA and pairs well with the original intent of the Bonds -- to remediate and redevelop blighted and contaminated properties.
INGHAM COUNTY

Brownfield Redevelopment Authority

The Authority’s mission is the maintenance and implementation of a Brownfields redevelopment program throughout Ingham County and to support the cleanup and redevelopment of environmentally contaminated and previously used development sites, that promote the economic development goals of Ingham County.

WHEREAS, the Ingham County Land Bank, City of Lansing, and ICBRA are engaged with developers on a prospective development at the Deluxe Inn site, located at 0 E. Malcolm X Street, parcel number 33-01-21-203-003, identified as a priority site in the Plan, and currently owned by the Ingham County Land Bank; and

BE IT FURTHER RESOLVED, that should any section, clause or phrase of this Resolution be declared by the Courts to be invalid, the same shall not affect the validity of this Resolution as a whole nor any part thereof other than the part so declared to be invalid and all resolutions or parts of resolutions in conflict with any of the provisions of this Resolution are hereby repealed.

BACKGROUND
The Michigan Department of Transportation (MDOT) is currently soliciting applications for funding through the Local Bridge Program for Fiscal Year 2023. Funding categories include full bridge replacement, bridge rehabilitation, and preventative maintenance work. Each local agency is allowed to submit up to five funding applications for bridges measuring at least 20-ft long measured along the centerline of the roadway. Funding applications are due by June 1, 2020.

The Road Department has proposed candidates for the 2020 bridge funding applications for Fiscal Year 2023 as follows:
1. Replacement of the Dennis Road Bridge over West Cedar Drain, Leroy Township (SN 3898)
2. Replacement of the Hagadorn Road Bridge over Mudd Creek, Alaiedon Township (SN 3876)
3. Replacement of the Noble Road Bridge over Deer Creek, Wheatfield Township (SN 3921)
4. Rehabilitation of the Holt Road Bridge over Doan Creek, Leroy Township (SN 3869)
5. Preventative Maintenance on Various Bridges Countywide (TBD)

The Local Bridge Program requires the road agency’s governing body to pass a resolution of support for the bridge funding applications, which is normally included as part of the complete application submittal package. However, MDOT is allowing resolutions to be submitted at a later date without impact to the funding selections, due to variable COVID impacts to road agencies throughout the state.

These costs will be included in the 2023 Road Department budget if awarded funding.

SUBJECT: Authorization to Convert the Clinical Data Analyst Position from an ICEA County Pro Grade 8 to an ICEA County Pro Grade 7

For the meeting agenda of June 1, June 2 and June 3, 2020

BACKGROUND
Ingham County Health Department (ICHD) wishes to covert vacant Position #601532 Clinical Data Analyst from an ICEA County Pro Grade 08 to ICEA County Pro Grade 07. The position had initially been budgeted in the FY 2020 budget at an ICEA County Pro 08 range. However, after Human Resources’ re-analysis of the final job description, it has been determined that the position is appropriate to grade as an ICEA County Pro 07. The ICEA County Professionals Union has been notified, and they support the establishment of the position and concur with the conversion to an ICEA County Pro 07 grade. The Clinical Data Analyst position has not yet been posted pending finalization of the job description.

ALTERNATIVES
The alternative would be to leave Position #601532 Clinical Data Analyst at an ICEA County Pro Grade 08 and forfeit a cost savings of $5,905.63 annually.

FINANCIAL IMPACT
The position was initially budgeted in the FY 2020 budget at an ICEA County Pro 08 range. Therefore the conversion in the budget from an ICEA County Pro 08 ($59,140.99 - $70,997.30) to ICEA County Pro 07 ($54,222.00 - $65,091.67) shall result in a cost savings of $5,905.63 annually.

STRATEGIC PLAN
This resolution supports the overarching long-term objective of promoting accessible healthcare, specifically section A.1(e) of the Action Plan – Expand access to healthcare for county residents, with an emphasis on the uninsured and underinsured

OTHER CONSIDERATIONS
There are no other considerations.

RECOMMENDATION
Based on the information presented, I respectfully recommend approval for Ingham County to authorize the conversion of vacant Position #601532 Clinical Data Analyst (ICEA County Pro Grade 08 to ICEA County Pro Grade 07).

WHEREAS, it is proposed that the Authority finance all or part of the cost of the Project
by the issuance of building authority bonds payable from cash rental payments by the County to
the Authority pursuant to this Contract of Lease; and
WHEREAS, an estimate of [40] years and upwards as the period of usefulness of the Project and an estimate of [$75,000,000] as the cost of the Project (to be paid from proceeds of the bonds of the Authority) have been prepared and have been filed with the County Clerk and the Secretary of the Authority; and

WHEREAS, in order to provide for constructing, furnishing, equipping, improving and financing the Project and to make possible the issuance of building authority bonds to defray all or part of the cost of the Project it is necessary for the parties to enter into this Contract of Lease.

THEREFORE, IN CONSIDERATION OF THE MUTUAL UNDERTAKINGS AND AGREEMENTS HEREINAFTER SET FORTH, IT IS HEREBY AGREED BY AND BETWEEN THE PARTIES HERETO AS FOLLOWS:

1. The Authority shall, as soon as practicable after the effective date of this Contract of Lease, proceed to issue its building authority bonds in one or more series in the aggregate principal amount of [$75,000,000] or such lesser amount as shall be determined by the Commission of the Authority to be necessary to defray all or part of the cost of the Project, pursuant to and in accordance with the provisions of Act 31, and shall pledge for the payment of the principal of and interest on said bonds the receipts from the cash rental payments hereinafter agreed to be paid by the County. The bonds shall be serial bonds, term bonds or a combination thereof dated as of such date as shall be determined by the Authority, shall bear interest at a rate or rates not to exceed [7]% per annum and shall mature (subject to such prior redemption, if any, as may be provided in the bond authorizing resolution) on such dates and in such years as shall be determined in the resolution authorizing the issuance of the bonds. Upon receipt of the proceeds of the sale of the building authority bonds the Authority immediately shall
deposit such proceeds (other than any premium, capitalized interest and accrued interest received from the purchaser of the bonds, which shall be transferred to the bond and interest redemption fund) into a construction fund, which shall be maintained as a separate depositary account and from which shall be paid the cost of the Project.

2. After the building authority bonds have been sold, the Authority shall undertake the construction, furnishing, equipping and improving of the Project.

   (a) The Authority shall contract with the architect selected by the County for the Project unless the Authority objects to the contracting with the selected architect. In such event the Authority shall contract with another architect selected by the County with whom the Authority has no objections. All final plans and specifications prepared by the architect and the total project budget shall be reviewed and approved by the County before commencement of construction. The final plans and specifications and the total project budget shall also require approval of the Authority, which approval shall not be unreasonably withheld.

   (b) The Authority shall select a construction manager for the Project. After the plans and specifications have been approved by the Authority and the County, no changes shall be made except as approved by the Authority and the County in writing. The Authority and the County shall designate those persons who are authorized to approve changes to the plans and specifications. Any such changes shall be made by change order.

   (c) The cost estimate and the estimated period of usefulness for the Project, both of which heretofore have been filed with the County Clerk and the Secretary of the Authority, are approved and adopted. The cost of the Project shall include not only the direct costs of constructing, furnishing, equipping and improving the Project but all other costs including, without limitation, all architectural, engineering, construction management, moving, financial,
legal, printing and publishing costs and expenses incidental to the Project and to the issuance of
the building authority bonds.

3. In the event that the Authority shall at any time determine that the Project
cannot be completed at the estimated cost, the Authority immediately shall so notify the County
in writing, specifying the additional funds required, and thereupon one of the following actions
shall be taken: (a) the County shall pay or cause to be paid to the Authority in cash the
additional amount so required, or (b) the Authority shall issue building authority bonds in such
increased or additional principal amount as shall be necessary to complete the Project, or (c) the
Project shall be modified so as to permit its completion within the estimated cost. No such
increased or additional building authority bonds shall be issued unless the County and the
Authority shall provide by amendment or supplement of this Contract of Lease for such issuance
and for an increase in the cash rental payable by the County hereunder sufficient to permit
payment of the principal of and interest on the increased or additional bonds. Any additional
building authority bonds so issued shall have equal standing with the bonds hereinbefore
authorized to be issued. The proceeds of any such cash payments or increased or additional
bonds (except for accrued interest, premium and capitalized interest) shall be deposited into the
construction fund for the Project.

4. If, after completion of the Project, moneys remain in the construction fund, such
moneys shall be considered to be an unexpended balance of the proceeds of the sale of the bonds.
Any unexpended balance of the proceeds of the sale of the bonds remaining after completion of
the Project may be used to improve or enlarge the Project or for other Projects of the Authority
leased to the County if such use is approved by the Michigan Department of Treasury, if required
by law, and by the County. Any unexpended balance not so used shall be paid into the bond and
interest redemption fund and the County shall receive a credit against the cash rental payments next due under this Contract of Lease to the extent of the moneys so deposited in the manner provided in the resolution authorizing the bonds.

5. The Authority shall require the contractor or contractors for the construction of the Project to furnish all necessary bonds guaranteeing performance and all labor and materials bonds and all owners protective, workers compensation and liability insurance required for the protection of the Authority and the County. All bonds and insurance, and the amounts thereof, shall be subject to approval of the County attorney. All such insurance shall be made effective from the date of issuance of the building authority bonds described in Section 1 or commencement of construction of the Project, whichever is later. The Authority also shall require a sufficient fidelity bond from any person handling funds of the Authority.

6. The Authority hereby leases the Project and the Site described on Exhibit A to the County for a term commencing on the effective date of this Contract of Lease and ending on _____________ 1, 20__, or such earlier date as hereinafter provided. Possession of the Project shall vest in the County upon completion of construction of the Project. When all of the building authority bonds issued by the Authority to finance the Project have been retired, the Authority shall convey to the County all of its right, title and interest in the Project and any lands, air space, easements or rights-of-way appertaining thereto. Upon such conveyance by the Authority to the County, this Contract of Lease and the leasehold term shall terminate and the Authority shall have no further interest in, or obligations with respect to, the Project.

7. The County hereby agrees to pay to the Authority as cash rental for the Project herein leased to it by the Authority such periodic amounts as shall be sufficient to enable the Authority to pay the principal of and interest on the building authority bonds to be issued by the
Authority as such principal and interest shall become due. On the 15th day of the month preceding the first date that any noncapitalized interest shall become due on the bonds and semiannually thereafter while any of the bonds remain outstanding the County shall pay to the Authority an amount sufficient to pay the interest due on the bonds on the first day of the following month. On the 15th day of the month preceding the first principal payment date on the bonds and annually thereafter while any of the bonds are outstanding the County shall pay the Authority an amount sufficient to pay the principal due on the bonds on the first day of the following month. If for any reason the cash rental payments made by the County are not used to pay the principal of and interest on the bonds, the County agrees to pay to the bondholders on behalf of the Authority as additional cash rental such amounts as are necessary to pay such principal and interest. The County hereby pledges its limited tax full faith and credit for the payment of the cash rental when due and agrees that it will levy each year such ad valorem taxes as shall be necessary for the payment of such cash rental which taxes shall be subject to applicable constitutional and statutory tax limitations. If the County, at the time prescribed by law for the making of its annual tax levy, shall have other funds on hand which have been set aside and earmarked for payment of its obligations for which a tax levy otherwise would have to be made, then the tax levy shall be reduced by the amount of such other funds. Such other funds may be raised from any lawful source. The obligation of the County to make such cash rental payments shall not be subject to any setoff by the County nor shall there be any abatement of the cash rentals for any cause including, but not limited to, casualty that results in the Project being untenantable.

8. The County may pay in advance to the Authority any cash rental payments herein required to be made and in such event shall be credited therefor upon future-due cash
rental payments as the County shall direct. Any such advance payments, if the County shall so
direct, shall be used by the Authority to redeem or purchase bonds prior to maturity when and to
the extent possible and to pay the interest thereon and any call premiums applicable thereto. Any
such advance payments shall be deposited in the bond and interest redemption fund of the
Authority. The County also shall have the right to purchase bonds on the open market and to
surrender the same to the Authority at any time. In the event that any bonds are redeemed or
purchased and surrendered as above provided, the respective amounts which otherwise would
have been payable as semiannual interest thereon shall be credited upon the cash rental payments
otherwise required to be made on the cash rental payment dates next preceding such semiannual
interest payment dates and the principal amount of such bonds shall be credited upon the cash
rental payments otherwise required to be made on the cash rental payment dates next preceding
the maturity dates of the bonds. Any bonds redeemed, purchased or surrendered shall be
cancelled.

9. In addition to the cash rental provided for in Section 7 hereof, the County
hereby agrees to pay to the Authority all operating expenses of the Authority including expenses
incidental to the issuance and payment of the bonds to the extent such expenses are not paid from
the proceeds of the bonds. The obligations of the County to make such payments shall be limited
tax general obligations of the County.

10. The County shall, at its own expense, operate and maintain the Project and
shall keep the same in good condition and repair. The County may contract for the operation and
maintenance of the Project or any part of the Project by a private party. Operation and
maintenance shall include (but not be limited to) the providing of all personnel, equipment and
facilities, all air conditioning, light, power, heat, telephone, water, sewage disposal, storm
drainage and all other personnel services, equipment and supplies, of whatever nature, as shall be necessary or expedient for the operation and maintenance of the Project. Premiums for insurance required to be carried upon or with respect to the Project or the use thereof and taxes levied upon either party hereto on account of the ownership or use thereof or rentals or income therefrom likewise shall be deemed operation and maintenance expenses. The obligation of the County to pay all costs and expenses of the operation and maintenance of the Project shall be a limited tax general obligation of the County.

11. The County shall provide, at its own expense, fire and extended coverage, malicious mischief and vandalism insurance in an amount which is at least equal to the amount of the building authority bonds outstanding from time to time or to the amount of the full replacement cost of the Project if that amount be less than the amount of bonds outstanding. Such insurance shall be payable to the County and the Authority as their interests may appear and shall be made effective from the date of issuance of the building authority bonds described in Section 1 or commencement of construction of the Project, whichever is later. In the event of the partial or total destruction of the Project during or after construction, or if the Project is for any reason made unusable, the cash rental payments as provided in Section 7 hereof shall continue unabated. The County shall have the option to use the proceeds of insurance, in the event of loss or damage to the Project, for the repair or restoration of the Project. If the County shall determine not to use the proceeds of insurance for the repair or restoration of the Project the amount of such insurance proceeds shall be paid to the Authority and by it deposited in the bond and interest redemption fund and the County shall receive appropriate credits on future cash rental payments due.
12. The County shall provide adequate liability insurance protecting the County, the Authority and the members of the Authority against loss on account of damage or injury to persons or property, imposed by reason of the ownership, possession, use, operation or repair of the Project or resulting from any acts of omission or commission on the part of the County, the Authority, the members of the Authority or their agents, officers or employees in connection therewith. Such insurance shall be made effective from the date of issuance of the building authority bonds described in Section 1 or commencement of construction of the Project, whichever is later.

13. The County shall hold the Authority and the members of the Authority harmless and to the extent permitted by law keep it fully indemnified at all times against any loss, injury, or liability to any person or property by reason of the use, misuse, or non-use of the Project by the County or by any other person or from any act or omission in, on or about the Project, including any liability resulting from any and all environmental matters pertaining thereto. The County shall, at its own expense, make any changes or alterations in, on or about the Project which may be required by any applicable statute, charter, ordinance or governmental regulation or order, and shall save the Authority and the members of the Authority harmless and free from all cost or damage in respect thereto.

14. The County, in its sole discretion, may install or construct in or upon, or may remove from the Project, any equipment, fixtures or structures and may make any alterations or structural changes as it may desire, but the County shall not make any permanent alterations to the Project that will affect adversely the security for the building authority bonds to be issued by the Authority or the prompt payment of the principal of or interest on such bonds.
15. The Authority, through its officers, employees or agents, may enter upon the Project at any time during the term of this Contract of Lease for the purpose of inspecting the Project and determining whether the County is complying with the covenants, agreements, terms and conditions hereof.

16. Inasmuch as this Contract of Lease, and particularly the obligations of the County to make cash rental payments to the Authority, provides the security for payment of the principal of and interest on the building authority bonds to be issued by the Authority to finance the Project, it is hereby declared that this Contract of Lease is made for the benefit of the holders of said bonds as well as for the benefit of the parties and that said holders shall have contractual rights herein. In the event of any default on the part of the County, the Authority and the holders of said bonds shall have all rights and remedies provided by law and especially by Act 31. The parties further covenant and agree that they will not do or permit to be done any act, and that this Contract of Lease will not be amended in any manner, which would impair the security of said bonds or the rights of the holders thereof. An amendment of this Contract of Lease to authorize the issuance of additional building authority bonds and providing for the payment of additional cash rentals for the payment thereof shall not be deemed to impair the security of the bonds or the rights of the holders thereof.

17. This Contract of Lease shall inure to the benefit of, and be binding upon the respective parties hereto and their successors and assigns; provided, however, that no assignment shall be made in violation of the terms hereof nor shall any assignment be made which would impair the security of the bonds or the rights of the holders thereof.

18. Additional building authority bonds of equal standing with the bonds herein authorized may be issued, in addition to those for which provision is made in Section 3, for the
purpose of making improvements or additions to the Project; provided, however, that no such bonds of equal standing may be issued unless this Contract of Lease is amended or supplemented to provide for such issuance and for an increase in the cash rental payments required to be made by the County in amounts sufficient to permit payment of the principal of and interest on such additional bonds. Nothing in this Contract of Lease shall prevent the Authority from issuing building authority bonds to finance other Projects for lease to the County.

19. In the event the building authority bonds to finance the Project cannot be or are not issued by the Authority prior to [December 31, 2021], the Project shall be abandoned and the County shall pay all expenses of the Authority incurred to the date of abandonment, and neither party shall have any further obligations under this Contract of Lease. The provisions of this Section 19 may be extended or waived by the parties by resolution of their respective governing bodies.

20. Except as otherwise provided herein, the right to give any consent, agreement or notice herein required or permitted shall be vested, in the case of the County, in its Board of Commissioners, and in the case of the Authority, in its Commission. Any notice required or permitted to be given hereunder shall be given by delivering the same, in the case of the County, to the County Clerk or the Deputy County Clerk, and in the case of the Authority, to any member of its Commission.

21. In the event there shall occur changes in the constitution or statutes of the State of Michigan which shall affect the organization, territory, powers or corporate status of the County, the terms and provisions of this Contract of Lease shall be unaffected thereby insofar as the obligation of the County to make cash rental payments is concerned. The proceeds of any sale or other liquidation of any interest of the County in the Project are hereby impressed with a
first and prior lien for payment of any outstanding building authority bonds or other obligations of the Authority incurred by reason of the Project or any additions or improvements thereto.

22. This Contract of Lease shall become effective 60 days after a notice of intention of entering into this Contract of Lease has been published in a newspaper of general circulation in the County as required by Section 8b(3) of Act No. 31; provided, however, that if a petition for a referendum requesting an election on this Contract of Lease is filed with the County Clerk within 45 days after the notice is published, signed by not less than 10% or 15,000 of the registered electors of the County, whichever is less, then this Contract of Lease shall become effective only if and when approved by a majority of the electors of the County voting thereon. This Contract of Lease shall terminate on __________ 1, 20__, unless terminated prior to such date in accordance with the provisions hereof.

TO ALL ELECTORS AND TAXPAYERS OF THE COUNTY OF INGHAM:

NOTICE IS GIVEN, that the Board of Commissioners of the County of Ingham, State of Michigan, intends to authorize the execution of a full faith and credit (limited tax) general obligation contract of lease with the Ingham County Building Authority. The contract of lease will further provide that the Ingham County Building Authority will finance the cost of the Project by the issuance of building authority bonds, in one or more series, pursuant to the provisions of Act 31, Public Acts of Michigan, 1948 (First Extra Session), as amended, in anticipation of the receipt of cash rental payments to be made by the County of Ingham to the Ingham County Building Authority pursuant to the contract of lease. FULL FAITH AND CREDIT AND LIMITED TAXING POWER OF THE COUNTY OF INGHAM PLEDGED

In addition to its obligation to make cash rental payments, the County of Ingham will agree, in the contract of lease, to pay all costs and expenses of the Authority incidental to the issuance and payment of the bonds to the extent such expenses are not payable from the proceeds of the bonds and to pay the expenses of operating and maintaining the Project.
