INGHAM COUNTY BOARD OF COMMISSIONERS
RESOLUTION PLEDGING FULL FAITH AND CREDIT TO
WEBBERVILLE CONSOLIDATED DRAIN DRAINAGE DISTRICT BONDS
RESOLUTION # 19 - 492

Minutes of a regular meeting of the Board of Commissioners of Ingham County, Michigan, held in the Ingham County Courthouse, Mason, Michigan, on November 26, 2019, at 6:30 p.m., local time.

PRESENT: Commissioners Celentino, Grebner, Koenig, Maiville, Morgan, Naeyaert, Polsdofer, Schafer, Sebolt, Slaughter, Stivers, Crenshaw

ABSENT: Commissioners Tennis and Trubac

The following resolution was offered by Commissioner Celentino and supported by Commissioner: Naeyaert

WHEREAS pursuant to a petition filed with the Drain Commissioner of the County of Ingham, State of Michigan (the “Drain Commissioner”), proceedings have been taken under the provisions of Act 40, Public Acts of Michigan, 1956, as amended (the “Act”), for the making of certain intra-county drain improvements referred to as the Webberville Consolidated Drain Maintenance and Improvement Project (the “Project”), which is being undertaken by the Webberville Consolidated Drain Drainage District (the “Drainage District”) in a Special Assessment District (the “Special Assessment District”) established by the Drainage District; and

WHEREAS, the Project is necessary for the protection of the public health, and in order to provide funds to pay the costs of the Project, the Drain Commissioner intends to issue the Drainage District’s bonds (the “Bonds”) in an amount not to exceed $4,490,000 pursuant to the Act; and

WHEREAS, the principal of and interest on the Bonds will be payable from assessments to be made upon public corporations and/or benefited properties in the Special Assessment District (the “Special Assessments”); and

WHEREAS, the Drain Commissioner, in consultation with professionals engaged by the Drainage District, has analyzed the Special Assessments and the proposed Bonds; and informed the County that there is no other indebtedness of the Drainage District secured by the Special Assessments, and that the Special Assessments will be levied in an amount equal to or greater than the par amount of the Bonds, assuring the County that there is a sufficient amount of Special Assessments levied, which together with interest thereon is projected to be sufficient to make payments of the principal of and interest on the Bonds as they become due; and

WHEREAS, PFM Financial Advisors LLC has been engaged by the Drainage District to review such projections and to assist the Drainage District as registered municipal advisor for the issuance of the Bonds; and

WHEREAS, the Ingham County Board of Commissioners (the “Board”) may, by resolution adopted by a majority of the members of the Board, pledge the full faith and credit of the County for the prompt payment of the principal of and interest on the Bonds pursuant to Section 276 of the Act; and
WHEREAS, the Drain Commissioner has informed the County that the pledge of the full faith and credit of the County to the Bonds will reduce the interest cost of financing the Project thus reducing the interest cost of the County and the property owners in the Drainage District for the Project; and

WHEREAS, if the County has advanced funds pursuant to its full faith and credit pledge and the Drainage District does not have funds to reimburse the County, the Act requires the Drain Commissioner to levy an additional assessment in such an amount as is required to reimburse the County for its advance; and

WHEREAS, the Drain Commissioner recommends that the Board adopt a resolution to pledge the full faith and credit of the County for the prompt payment of the principal of and interest on the Bonds; and

WHEREAS, based on the recommendation of the Drain Commissioner, the Board agrees to pledge the full faith and credit of the County to the Bonds.

NOW, THEREFORE, IT IS RESOLVED as follows:

1. The County pledges its full faith and credit for the prompt payment of the principal of and interest on the Bonds in a par amount not to exceed $4,490,000. The County shall immediately advance sufficient moneys from County funds, as a first budget obligation, to pay the principal of and interest on any of the Bonds should the Drainage District fail to pay such amounts when due. The County shall, if necessary, levy a tax on all taxable property in the County, to the extent other available funds are insufficient to pay the principal of and interest on the Bonds when due.

2. Should the County advance County funds pursuant to the pledge made in this Resolution, the amounts shall be repaid to the County from assessments or reassessments made upon benefited properties in the Special Assessment District as provided in the Act.

3. RESOLUTION TO PURCHASE STAND-ALONE EVIDENCE SOFTWARE FROM PORTER LEE CORPORATION

RESOLUTION #19 - 510

WHEREAS, the Ingham County Sheriff’s Office has a need to hold items of property and evidence in the course of its duties, and

WHEREAS, our current evidence system, a part of our records management system, is time consuming, redundant and therefore inefficient, and

WHEREAS, using a records management system for evidence management will require manual removal of property/evidence data from the current records management system and manual re-entry of all property/evidence data into the new records management system each time a new records management software is purchased, and

WHEREAS, manual re-entry of all evidence data into a new records management system requires extensive personnel hours and increases opportunity for error; and

WHEREAS, many law enforcement agencies are moving to a stand-alone evidence management system to eliminate that process, and

WHEREAS, research and quotes from three stand-alone evidence systems were received; of the three stand-alone evidence systems, The Beast was found to be the most efficient, customizable, and successfully used by other local agencies, and

WHEREAS, The Beast was the median cost of the three systems and offered the most support and customization, at the cost of $23,285.10 with annual software support costs of $1,475.00 $1,775.00, and initial set up cost and support will be paid out of the Forfeiture Account (26533500-726010), and future maintenance and support will be paid out of Field Services/Contracts (10130101-818000); and

WHEREAS, The Beast software will provide electronic data migration for property/evidence held in our records management systems, eliminating manual individual item re-entry into the software, therefore significantly reducing personnel hours and opportunity for error, and

WHEREAS, The Beast software will allow the Ingham County Sheriff’s Office to hold all evidence items in a stand-alone evidence system, regardless of the records management software used in the future.

THEREFORE BE IT RESOLVED that the Ingham County Board of Commissioners authorizes entering into a contract with Porter Lee Corporation, located at 1901 Wright Blvd., Schaumburg, IL 60193, for the purchase of

RESOLUTION TO SUBMIT TO THE ELECTORATE A SPECIAL MILLAGE FOR CONTINUING HEALTH SERVICES FOR LOW INCOME, UNINSURED FAMILIES AND ADULTS LIVING IN INGHAM COUNTY

RESOLUTION # 19 - 516

WHEREAS, the Board of Commissioners desires to continue to provide funding for healthcare services for low income, uninsured families and adults residing in Ingham County; and

WHEREAS, the Board of Commissioners has provided the financial stability necessary for sound planning through the facilitation of a local-federal funding match arrangement since 1998; and

WHEREAS, the current funds available through the federal funding are not sufficient to continue to provide access to medically necessary services for low income, uninsured residents in Ingham County; and

WHEREAS, the millage funds were approved by the electorate to provide funding for healthcare services for low income, uninsured families and adults residing in Ingham County in 2012 and 2014, and the current authorized Millage expires December 31, 2019; and

WHEREAS, health services for low income uninsured families and adults are of substantial benefit to the citizens of Ingham County; and

WHEREAS, a millage of 0.6300 of one (1) mill is needed to continue to provide for this program; and

WHEREAS, the Board of Commissioners seeks to have the voters of Ingham County determine whether or not they desire to raise funds at a millage rate of 0.6300 of one (1) mill for a period of four (4) years to continue to support funding for healthcare services for low income, uninsured families and adults residing in Ingham County.

THEREFORE BE IT RESOLVED, that the following question be submitted to a vote of the electorate at the election to be held on August 4, 2020.
INGHAM COUNTY HEALTH SERVICES MILLAGE

For the purpose of reauthorizing funding for providing basic health care and mental health services to low-income Ingham County residents who are not eligible for Medicaid under the Federal Affordable Care Act, and who do not have medical insurance, including use of these funds to help pay for access to doctor visits, generic medications, mental health services and essential care such as preventive testing and treatment for cancer, diabetes, heart disease and other serious illnesses, shall the Constitutional limitation upon the total amount of taxes which may be assessed in one (1) year upon all property within the County of Ingham, Michigan be increased by up to 63/100 (0.6300) of one (1) mill, $0.63 per thousand dollars of state taxable valuation, for a period of four (4) years (2020-2023) inclusive? If approved and levied in full, this Millage will raise an estimated $4,840,219 in the first calendar year of the levy, based on state taxable valuation.

YES [ ] NO [ ]

BE IT FURTHER RESOLVED, that the millage would be used to support Ingham County residents whose household income is at or below 250% of federal poverty guidelines.

BE IT FURTHER RESOLVED, that this question is hereby certified to the County Clerk.

BE IT FURTHER RESOLVED, that the County Clerk is hereby directed to place the proposal on the August 4, March 10, 2020 ballot and to be prepared and distributed in the manner required by law.

Commissioner Sebolt moved to adopt the resolution. Commissioner Slaughter supported the motion.

Commissioner Morgan moved to amend the resolution to change the election that the ballot question would go before voters from the August 4, 2020 election to the March 10, 2020 election. Commissioner Slaughter supported the motion.

Commissioner Morgan stated that he had thought more about this and that March was a more appropriate time for this millage to be on the ballot. He further stated that lives were at stake and that the millage would be likelier to pass on the March ballot.

Commissioner Stivers stated concern that Commissioner Tennis was not present to be a part of the vote. She further stated that this matter had been discussed at great length and that she believed that the best ballot for this millage was the August ballot because of the request from Williamstown Township that the matter not be on the March ballot.

Commissioner Stivers stated that Williamstown Township would have a road millage that they needed that may not pass if there are other millage initiatives on the ballot. Commissioner Stivers further stated that there had been no advanced notice that this resolution would be reconsidered and that there may be other motivations at play from the other Commissioners.
Chairperson Crenshaw stated that no advanced notice of a reconsideration of a vote was required and further stated to Commissioner Stivers that it was out of order to impugn the honor of the other Commissioners and that she should refrain from doing so.

Commissioner Polsdofefer stated that the reasoning behind moving this millage to August originally was to assist a community that has struggled to improve their infrastructure. He further stated that this was a regional approach to advancing Ingham County’s needs, while making sure that the County was cognizant of the needs of small towns like Leslie and Stockbridge and, in this case, Williamstown Township.

Commissioner Polsdofefer stated that improving the infrastructure in that community will improve property values and thereby the revenue for the county and the township and also improve the township’s schools.

Dave Stoker, County Attorney, indicated that the date of the millage appeared in two locations in the resolution and would need to be changed in both.

Chairperson Crenshaw stated that it was his ruling that that was the intent of the motion.

Commissioner Grebner stated that he would support the amendment and that the County cannot take into account every taxing authority’s millage schedule when deciding the scheduling of countywide millages. He further stated that he was concerned that if an allowance is made for Williamstown Township, then every municipality or taxing agency would be coming to ask for county millages to be moved.

Commissioner Naeyaert stated that she was surprised that she agreed with Commissioner Grebner and further stated that she represented many small communities within her district and stated that she would not bring such requests to the Board of Commissioners to consider.

Commissioner Stivers stated that there would be times when the Board of Commissioners was not able to consider such requests, but this was not one of those situations. She further stated that the organizations who requested these ballot initiatives were happy with the current dates because it gave them time to build goodwill in the community for their initiatives.

Commissioner Stivers stated that, while the millage would be likely to pass in March, the organizations were worried that there would be animosity in the community regarding their passage if they don’t have the time to build the community consensus.

The motion to amend the resolution carried. **Yeas:** Grebner, Koenig, Maiville, Morgan, Naeyaert, Sebolt, Slaughter, Crenshaw **Nays:** Celentino, Polsdofefer, Schafer, Stivers **Absent:** Trubac, Tennis

INGHAM COUNTY BOARD OF COMMISSIONERS

RESOLUTION TO AMEND THE BUSINESS TRAVEL AND REIMBURSEMENT POLICY

RESOLUTION # 19 –

WHEREAS, on October 5, 2010 the Board of Commissioners approved the Business Travel and Reimbursement Policy for all employees, elected officials and Commissioners; and

WHEREAS, the Policy is intended to provide rules and procedures for determining appropriate expenditures related to business travel; and

WHEREAS, the Board of Commissioners wishes to amend the policy to streamline travel reservation procedures, amend meal reimbursement rates and reference contemporary resources for mileage calculation; and

WHEREAS, proposed changes were vetted by County auditors and attorneys for consistency with Generally Accepted Accounting Practices and applicable statutes.

THEREFORE, BE IT RESOLVED, that the Ingham County Board of Commissioners amends the Business Travel and Reimbursement Policy as follows:

- Section M.2, second paragraph is amended to state: Any trip needed as part of an employees’ essential job duty (such as transporting a prisoner or escorting a child for out-of-state placement) is not subject to this requirement.
- Section N.1 is amended to state: The County will be liable for the employee’s travel expense and the direct billing for the County shall be for the employee only. Alternatively, these expenses can be provided through travel advances and normal reimbursement procedures. These provisions shall apply only to traveling employees and shall not apply to air travel required for other functions such as witnesses required by the Prosecuting Attorney.
- Current Section N.2 is moved to a new Section N.4.
- Section N.3 is renumbered as Section N.2 and the second paragraph is amended to state: The use of commercial airlines is permitted when it is to the advantage of the County as measured by both comparative travel costs and the time of the traveler. Travelers should purchase the least expensive accommodations available on any one flight with approval of the Department Head. Persons choosing to use first class transportation when tourist class is available shall be responsible for the additional cost of first class accommodations. First class fare will be allowable only when a ticket agency certifies that less expensive accommodations are not available. Such certification must accompany the reimbursement voucher.
- Section N.4 is amended to include text from the old Section N.2.
Section N.7 is amended to state: Mileage must be computed based on the shortest available route between the point of departure and the destination, plus road and bridge tolls. The per diem allowance will be limited to the number of days required to complete the travel at that rate. Documentation is required for toll roads and bridges and the like.

Section N.9 is amended to state: The cost of meals while traveling is an allowable expense. If a meal is provided at the hotel or as part of the conference, no additional amount will be allowed. The actual cost of any meal will be reimbursed up to the cost of the U.S. General Services Administration Meals and Incidental Expense (M&IE) rate posted on the GSA Web page (https://www.gsa.gov/travel/plan-book/per-diem-rates) Incidental Expenses are included in the M&IE rate and will not be reimbursed separately. Meal receipts are not required when using the M&IE rate. However, within 60 calendar days of the date, employees must file a County Travel Expense Voucher including:

i. The business purpose of the trip;

ii. The date and place of the trip; and

iii. Receipts for lodging (if using the M&IE meals-only per diem rate).

If any of these requirements are not met, the payment may be deemed taxable to the employee. No reimbursement for alcoholic beverages will be allowed.

Maximum per diem allowance will be prorated as shown on the table below:

A. Introduction

This policy pertains to all employees, elected officials and Commissioners. Compliance with these regulations is the responsibility of the department head or elected official. Vouchers that appear to be in violation of this policy will be returned unpaid to the department with an explanation.

B. Local Travel

1. County employees and elected officials that use a privately owned vehicle for County business may be reimbursed. The amount to be reimbursed shall be determined by reference to the Internal Revenue Service (IRS) Standard Mileage Rate Method. The Human Resources Department will notify department heads and elected officials of changes in the Standard Mileage Rate.

2. Departments shall establish regulations regarding the designation of official work stations as assigned. This work station will be used in determining mileage reimbursement. No mileage will be allowed for travel between an employee’s home and his or her official work station (commuting expenses). Examples to assist in calculating allowable travel expenses are presented in Appendix A.

3. Only allowable auto expenses as determined by IRS guidelines will be reimbursed. Adequate documentation is required. The charge should be supported by a listing of the vicinity itinerary in sufficient detail to justify the mileage claimed.

4. Charges for gasoline, lubrication, repairs, antifreeze, towage, and other similar expenditures will not be allowed as reimbursable items when privately owned cars are used.

C. Computation of Mileage

Mileage must be computed based on the shortest available route between the point of departure and the destination. A mileage grid showing distances between County facilities is provided in Appendix B. This grid may be used in place of actual odometer readings.
D. Parking Fees

If an employee is required to have a motor vehicle available for County business purposes, a monthly parking allowance may be provided. The department head or elected official must request approval from the County Services Committee. If approved, a reimbursement will be provided monthly upon receipt of a statement of the parking charge in an amount specified in labor contracts or managerial compensation plan. Intermittent parking charges for meter, lots, etc., will be reimbursed monthly as incurred. Parking reimbursement requests should be included on the travel reimbursement requests. Meter parking should be identified on the reimbursement form as meter parking.

E. Parking or Traffic Violations

Under no condition will parking or traffic violation tickets be reimbursed. They are the full responsibility of the employee operating the vehicle.

F. Automobile Insurance

Employees who use their vehicles as a requirement of their job shall be reimbursed for automobile insurance as established by collective bargaining agreements and/or compensation plans. This payment will be made by December 15 of the contract year providing that prior to December 1 the employee shall submit proof of the additional automobile insurance and payment of same to the Human Resources Department.

G. Temporary Assignments

An employee temporarily working at another location that requires driving less distance than that from home to the regular work site and back will not be reimbursed for such travel in his or her own vehicle, but, if the temporary work assignment requires driving more distance than normal, the employee will be reimbursed for the difference in miles driven.

H. Attendance at Funerals

Employees designated as official representatives of the County for attendance at a funeral may claim reimbursement for travel expenses subject to the limitations of these regulations.

I. Use of County-Owned Vehicle

An employee using a County-owned vehicle on County business shall be reimbursed for gasoline and other operating expenses incurred while using the vehicle, provided that appropriate receipts for all such expenses are submitted with the travel reimbursement request.
J. Meal Allowance

Meal reimbursement calculations are provided in Section N.9.

K. Travel Reimbursement

1. All travel expense claims shall be prepared and submitted on a Travel Expense Voucher, and must be itemized and stated in accordance with these regulations. Failure to use the specified form could delay the processing. The form must be signed by the employee. Each traveler should keep a memorandum of expenditures properly chargeable to the County so that the accumulated information will be available for preparation of the travel voucher at the end of each travel period.

2. Expense reports shall not be submitted until the total requested exceeds $15.00. An exception is the fiscal year-end report which must be submitted no later than the fifth work day of the new fiscal year. Another exception would be when an employee is leaving employment with the County.

3. The official work station shall be shown on the voucher.

4. Supporting receipts must be attached for all items of expense, unless exempt by these regulations.

5. All items on the travel voucher should appear in chronological order and all expenses for the period must be included.

6. Each day’s expense shall be shown separately and totaled.

7. The certification on each voucher shall be attested to by the manual signature of the employee. An authorized agent may not approve his or her own voucher.

L. Several People Attending the Same Out of Town Event

It is strongly recommended that if several people are attending the same out-of-town event that they travel together to reduce costs. This recommendation applies to employees within the same Department or from different Departments.

M. Overnight Travel

1. General. This policy pertains to all employees, elected officials and Commissioners. County representatives traveling on official business are expected to exercise the same care incurring expenses that a prudent person would exercise if traveling on personal business. Compliance with these regulations is
the responsibility of the department head or elected official. The Controller/Administrator and the Financial Services Department will refuse to pay any travel vouchers that appear to violate the intent of these regulations.

2. Authorization. All travel must be authorized and approved by the department head, elected official or his/her designated representative. No designated representative may approve his/her own vouchers. The Ingham County Board of Commissioners encourages County employees and County-wide elected officials to participate in professional self-improvement and continuing education efforts, and to seek out innovative and cost-effective programs and technologies for potential utilization in Ingham County. Department heads, elected officials and the presiding judges of the various courts may authorize the expenditure of budgeted funds for professional development of County employees, and to seek innovative programs and technologies for use in Ingham County. No out-of-state travel will be authorized without approval of the Controller/Administrator and the Chairperson of the Board of Commissioners.

Any trip needed as part of an employees’ essential job duty (such as transporting a prisoner or escorting a child for out-of-state placement) is not subject to this requirement.

N. Travel Arrangements.

1. General. The County will be liable for the employee’s travel expense and the direct billing for the County shall be for the employee only. Alternatively, these expenses can be provided through travel advances and normal reimbursement procedures. These provisions shall apply only to traveling employees and shall not apply to air travel required for other functions such as witnesses required by the Prosecuting Attorney.

Air Travel. The policy of Ingham County is that airline travel by County employees on official business shall, whenever financially prudent, originate from Capital Region International Airport (CRIA). If a flight out of a neighboring airport can be found at a materially lower rate, the flight may be booked from that airport. If the CRIA flight exceeds the cost of a flight from a neighboring airport by more than $200 for an individual or $400 for a group, the flight may be booked from the neighboring airport. The $200 or $400 difference is for the inclusive cost of the flight including mileage and parking.

The use of commercial airlines is permitted when it is to the advantage of the County as measured by both comparative travel costs and the time of the traveler. Travelers should purchase the least expensive accommodations available on any one flight with approval of the Department Head. Persons choosing to use first class transportation when tourist class is available shall be responsible for the
additional cost of first class accommodations. First class fare will be allowable only when a ticket agency certifies that less expensive accommodations are not available. Such certification must accompany the reimbursement voucher.

3. **Round-Trip Tickets.** Round-trip tickets shall be secured whenever economical and practicable.

4. **Changes.** Once an airline ticket or hotel room has been booked, it can only be changed with Department Head’s approval. If the change is the result of an employee’s personal non-emergency issue (such as having to attend a child’s social event), the employee will be responsible for any additional cost incurred by the County. If a disagreement occurs, the County Controller/Administrator will determine if the change was the result of an emergency.

5. **Insurance.** Insurance coverage for persons traveling by common carrier is not allowable as a reimbursable expense.

6. **Transportation by Private Owned Car.** Employees or commissioners, who elect to drive a privately owned car in lieu of common carrier, shall be reimbursed at rates established in labor contracts or as provided by Board resolutions. Reimbursement for out-of-state travel by a privately owned car in lieu of common carrier (mileage plus lodging, per diem, and toll charges) is limited to the cost associated with tourist class air fare.

   An employee using a County owned vehicle on County business is reimbursed for gasoline and other operating expense incurred while using the vehicle. Appropriate documentation for all such expenses must be submitted with the travel reimbursement request.

7. **Computation of Mileage.** Mileage must be computed based on the shortest available route between the point of departure and the destination, plus road and bridge tolls. The per diem allowance will be limited to the number of days required to complete the travel at that rate. Documentation is required for toll roads and bridges and the like.

8. **Rental Cars.** A car may be rented at a conference site with prior approval of the department head. Only the cost for a compact vehicle will be reimbursed. The cost for any upgrade from a compact vehicle will be the responsibility of the employee. There is no need to purchase insurance when renting a vehicle since it is covered under the County’s insurance policy. Reimbursement for a rental vehicle precludes any reimbursement for local travel costs at the conference site.
9. **Meal Reimbursement.** The cost of meals while traveling is an allowable expense. If a meal is provided at the hotel or as part of the conference, no additional amount will be allowed. The actual cost of any meal will be reimbursed up to the cost of the U.S. General Services Administration Meals and Incidental Expense (M&IE) rate posted on the GSA Web page (https://www.gsa.gov/travel/plan-book/per-diem-rates). Incidental Expenses are included in the M&IE rate and will not be reimbursed separately. Meal receipts are not required when using the M&IE rate. However, within 60 calendar days of the date, employees must file a County Travel Expense Voucher including:

i. The business purpose of the trip;

ii. The date and place of the trip; and

iii. Receipts for lodging (if using the M&IE meals-only per diem rate).

If any of these requirements are not met, the payment may be deemed taxable to the employee. No reimbursement for alcoholic beverages will be allowed.

Maximum per diem allowance will be prorated as shown on the table below:

<table>
<thead>
<tr>
<th>Departure Time</th>

</table>

The cost for any additional activities provided outside the conference will not be allowed. The above schedule is allowable only during the day of departure or return.

10. **Documentation.** Receipts are required for all other transactions in excess of $25.00 claimed on the travel voucher as reimbursable items.

11. **Foreign Travel.** Travel expenses incurred while traveling in a foreign country will be reimbursed at the rate charged by the employee’s credit card or the published exchange rate at the time of the expenditure. A copy of the credit card statement or an exchange rate table from any financial publication should be provided to support the rate claimed. Daily and weekly exchange rate data is also available on the Federal Reserve Board website.
12. **Lodging Charges and Meals.** Sales and use taxes, applicable to lodging charges are reimbursable in addition to the regular lodging allowance. Only the actual lodging expenses paid, plus tax, is allowable. Receipts for lodging expenses are required. Any change in hotel location during continuous occupancy by an employee must be explained on the voucher. Reimbursement for hotel or motel room expense will be made for a standard single room. Any cost for the upgrade of a room will be the responsibility of the employee.

13. **Lodging Charges for Multiple Occupancy.** When a County employee in travel status shares hotel or other lodging with other County employees, reimbursement to the traveler will be as follows:

   a. If hotel or other lodging is shared with a person other than a County employee, reimbursement to the County employees will be at the single rate. Documentation supporting the single rate must be available.

   b. If hotel or other lodging is shared with two or more County employees or Commissioners and they all occupy the same room, reimbursement to the County employee or Commissioner will be based on the amount paid.

14. **Guidelines.** The following rules are established as guides for the employee and the approving officials:

   a. It is expected that expenses incidental to official County travel will be held to the minimum amount required for essential and efficient conduct of County business. The department head, elected official or his/her authorized representative approving the travel voucher will be held responsible in his/her certification for all items of expense as being necessary and correct.

   b. Expenditures for hospitality expenses and/or alcoholic beverages will not be reimbursed under any circumstances.

   c. When travel expense vouchers are supported by receipts that show signs of erasures or alterations, the voucher will be returned to the employing department for a statement of facts explaining the reason for the alteration before the travel voucher will be approved for payment.

   d. No employee shall travel as the guest of any current or potential private (non-grantor) vendor who could reasonably be expected to offer service to the County in the future unless authorized by the Department’s Liaison Committee.

   e. Employees may take annual leave during a tour of travel with approval of the department head or elected official, provided, that in no case shall travel expenses be allowed while in annual leave status. Whenever an
employee in travel status becomes incapacitated due to illness or injury certified by a licensed physician that is allowable as sick leave, he may continue in travel status for a period not to exceed seven calendar days at rates not to exceed M&IE allowance and lodging charges as provided in these regulations.

f. An employee will be considered to be in travel status on non-work days unless the employee can return to his/her official work station or home prior to a non-work day. Employees may be entitled to compensation for work performed on non-workdays pursuant to applicable collective bargaining agreements. Every effort should be made to find an alternative to paying the employee overtime for traveling or attending a conference during a non-workday.

g. Enrollment or registration fees for approved conventions and meetings of associations or organizations are allowable for employees attending as official representatives of Ingham County. Advance registration is preferred. Receipts must be attached for reimbursement.

O. Accounting for Travel Advances and Advances for Travel

1. Requisition for Travel Advance. Departments are authorized to make travel advances for specific trips of employees and Commissioners traveling on County business, subject to approval by the County Controller/Administrator. Requests for such advances should be made at least ten days prior to departure, but no more than 30 days before departure. An employee or Commissioner taking a trip with the appropriate prior approval, which would involve personal cash outlay for travel expenses, shall furnish the Controller/Administrator a statement setting forth the purpose of the trip, expected travel period, method of transportation, itinerary, and an estimate of cash outlay for travel showing individually the estimated costs to be borne by the County.

Travel advances will not be issued for less than $50.00. Such de minimis expenditures will be reimbursed on a standard Travel Expense Voucher.

2. Issuing Advances. The official or employee shall request a travel advance by submitting a travel advance form. The preparer must retain a copy of the form. Receipt of a travel advance is conditional upon agreement to a payroll deduction to settle any unsubstantiated expenses (See Failure to Comply, below). Financial Services shall issue travel advances to employees with the concurrence of the employee’s department head.

3. Travel Advance Settlement: A travel advance should be settled within five working days subsequent to the final date of expenses listed on the travel advance form. Actual expenditures shall be reconciled to the amount of advances on the
copy of the travel advance form. This completed and signed form shall be submitted to Financial Services along with any required documentation.

A check must be submitted to the Ingham County Treasurer for any excess travel advance.

4. **Failure to Comply:** IRS regulations require substantiation of expenses and the return of any excess travel advance within a reasonable period of time (60 days). Any portion of a travel advance not settled within 60 days shall be recovered through payroll deductions.

5. **Travel Reimbursements:** Overnight travel expenses incurred without benefit of a travel advance will be reimbursed on a travel voucher. Such reimbursement claims will be prepared and submitted on the standard Travel Expense Voucher, itemized and stated by these regulations.

**P. Use of County-Owned Vehicles**

1. This policy shall cover and apply to all official’s and employee’s use of any vehicle owned by Ingham County, except that this policy may be considered modified, but only to the extent that provisions of a collective bargaining agreement expressly provide for vehicle use in a manner inconsistent with this policy.

2. All vehicles acquired by Ingham County are for the use and purpose of County business only, and all officials and employees of the County operating vehicles are subject to and required to adhere to the terms of this policy.

3. Except as otherwise specifically provided in this policy, no official and no employee may use a County-owned vehicle for personal use. County-owned vehicles shall be used for County business.

4. County employees may use County-owned vehicles for commuting to and from employment only if specifically required to do so for the purposes of on-call duty, or if specifically authorized by the employee’s department head or elected official, as being necessary and in the best interest of the County. Except as permitted herein, there shall be no commuting with County-owned vehicles and there shall be no other personal use of County-owned vehicles by County employees. Employees shall report in writing bi-weekly the number of “commuting days” to the employee’s department head or elected official.

5. Personal use of County-owned vehicles by an employee may be subject to taxation to that employee by the Internal Revenue Service.
Q. Other Reimbursement

1. **Miscellaneous Expenditures**: County funds may be expended for supplies to the extent that such supplies are consumed by the general public or used in the conduct of normal business. Whenever possible, supplies should be billed to Ingham County by the vendor. If direct billing is not possible, an employee may be reimbursed for such expenses.

2. **Charges not Reimbursable**: In general, the County is not liable for any loss or damage to an employee’s property.

3. **Sales Tax**: As a governmental entity, Ingham County is not subject to state sales tax. Sales tax should not be paid on any item purchased for the exclusive use of Ingham County. Ingham County’s tax exempt number is 38-6005629. An exemption certificate is available from the Purchasing Department, if required.

4. **Registration Fees**: Enrollment or registration fees for approved conventions and meetings of associations or organizations are allowable for employees attending as official representatives of the County. Documentation must be attached.

5. **Retiree Recognition Policy**: County funds may be utilized to recognize and honor retirees to a maximum of $75.00 for employees who have a minimum of ten years and $150.00 for employees who have a minimum of 25 years. A completed Retiree Recognition Expense Form is required to be submitted with the invoice for payment. This amount must be used to purchase an actual gift or fund a party. Gifts of cash or gift cards are not allowed.

6. **_guests**: The cost of guest meals is allowable when incurred by department heads only if it can be shown that such cost was incidental and necessary to the conduct of official County business. In no cases will the amount allowed be in excess of the maximum established in these regulations. Full explanation must be given on the voucher, including the name of the guest. Tips are limited to 15%.

7. **Food and Beverages for Meetings**: Food and beverages purchased for staff meetings and staff lunches are not allowable expenses. Only meetings which include community members, vendors or other outside parties will be allowed to serve food and beverages at the County’s expense. The Business Meal Expense Form or Meeting Supplies Expense Form must accompany all requests for reimbursement or submittal of the Procurement Card documentation.

8. **Rental of Rooms**: Expenses for rental of special rooms for meetings will be approved only when County owned facilities are not available. Approval from the Controller/Administrator is required. Receipts are required.
9. **Dues and Subscriptions:** Professional dues and subscriptions will only be allowable expenses if they are required for an employee’s essential job duty or are necessary to provide a Department’s primary service.

10. **Documentation and Processing:** All requests for reimbursement must have adequate documentation. Employees are encouraged to order items with per unit cost of $100 or more through the Purchasing Department. A purchase order should be issued to the vendor for such purchases.

    An employee may request reimbursement by including the expense on a standard Travel Expense Voucher with his or her mileage (NOTE: The correct charging distribution number should be indicated.) Alternately, a reimbursement voucher may be submitted. The voucher should be made payable to the employee. The description should read “employee reimbursement” and should also indicate the employee’s department.

11. **Enforcement:** The Director of Financial Services has the authority to reject any expenditure which he or she believes is not in accordance with this policy. Any employee disagreeing with this decision can appeal the decision to the County Controller/Administrator.
APPENDIX A
TRAVEL SCENARIOS

Following are examples to assist in calculating allowable travel expenses:

EXAMPLE 1

One staff person lives in Mason.

Is she entitled to mileage from her home in Mason to the Mason Courthouse (which is not her assigned location) or is she entitled to mileage from the VMC (where she did not report but is her assigned location) to the Mason Courthouse?

*If she is going to mason for the entire day, she would not be entitled to any mileage since it is closer than her typical commuting miles. But, if she drove to Lansing at 8:00 and then needed to go to Mason for a two-hour 11:00 a.m. meeting and then returns to Lansing for the rest of the day, she would be entitled to the mileage from Lansing to Mason and back to Lansing.*

EXAMPLE 2

If this staff person reports from her home in Mason to the Mason Courthouse in the morning and then reports to the VMC location in the afternoon, is she entitled to mileage from the Mason Courthouse to the VMC building?

*She would not be entitled to any mileage since she is not traveling any farther than she would on a typical day.*

EXAMPLE 3

One staff person lives in Lansing.

Is she entitled to mileage from her home in Lansing to the Mason Courthouse (when she reported directly to the Mason location instead of her assigned location of VMC) or is she entitled to mileage from the VMC to the Mason location?

*She would be entitled to the difference between her normal commute and the commute to Mason. If she lives five miles from downtown but needs to drive 20 miles to Mason instead, she would be entitled to reimbursement for 15 miles driven.*

EXAMPLE 4

If this staff person reports from her home in Lansing to the Mason Courthouse in the morning and then reports to the VMC location in the afternoon is she entitled to mileage from the Mason Courthouse to the VMC building?

Same as Example 3

INTRODUCTION

The Plan of Organization (PO) of the Ingham County Health Department (ICHD) was last approved by the Michigan Department of Health and Human Services (MDHHS) as part of its accreditation process in March 2017. In preparation for MDHHS’ March 2020 accreditation visit, ICHD is updating its PO to reflect any changes that have occurred since then. The department continues to be organized around three major branches: Public Health Services, Community Health Centers, and Community Health, Planning, and Partnerships. Linda S. Vail, MPA, continues to serve as Health Officer; and Nike Shoyinka, MD, MPH, now serves as Medical Director. The 2020 Plan of Organization will be approved by the Ingham County Board of Commissioners on December 10, 2019 and is now submitted for approval by the Michigan Department of Health and Human Services.

LEGAL RESPONSIBILITIES & AUTHORITY

State and Local Statutory Authority for ICHD

The Constitution of the State of Michigan includes the following declaration:

“The public health and general welfare of the people of the State are hereby declared to be matters of primary public concern. The Legislature shall pass suitable laws for the protection and promotion of public health.”

In 1978, the Public Health Code was passed by the Legislature and signed by the Governor. The “Code” establishes a State/Local system to carry out the responsibility to protect and promote public health. The Code establishes the Michigan Department of Public Health with the responsibility to:

“. . .continually and diligently endeavor to prevent disease, prolong life, and promote the public health through organized programs, including prevention and control of environmental health hazards; prevention and control of diseases; prevention and control of health problems of
particularly vulnerable population groups; development of health care facilities and health services delivery systems; and regulation of health care facilities and health services delivery systems to the extent provided by law.” (MCL 333.2221)

The Michigan Department of Public Health is charged in the Public Health Code to:

“. . .promote an adequate and appropriate system of local health services throughout the state.” (MCL 333.2224)

The Public Health Code requires every county to provide for a local health department. County Boards of Commissioners are required to organize county or district health departments (MCL 333.2413) and it charges the local health departments with the same basic responsibilities as are given to the State:

“. . .continually and diligently endeavor to prevent disease, prolong life and promote the public health through organized programs, including prevention and control of environmental health hazards; prevention and control of disease; prevention and control of health problems of particularly vulnerable population groups. . .” (MCL 333.2433)

County Boards of Commissioners must appoint a health officer who has the authority and responsibility to protect the public’s health:

“A local health department shall have a full-time local health officer appointed by the local governing entity... [who] may take actions and make determinations necessary or appropriate to carry out the local health department’s functions under this part or functions delegated under this part and to protect the public health and prevent disease.” (MCL 333.2428)

The Michigan Administrative Code also defines the duties and responsibilities of Medical Directors of local public health departments.

The Ingham County Board of Commissioners has responded to this mandate by establishing ICHD as a unit of government and appointing a Health Officer to oversee the activities of the department. In addition, it has created the Sanitary Code of Ingham County which utilizes Michigan’s public health code to empower the Health Officer to enforce public health laws. The Sanitary Code was adopted in 1973 and has been amended three times since then. The first amendment is incorporated into the Sanitary Code. Two other amendments created a point of sale program to ensure inspection and repair of well and septic systems, and directed complaints of foodborne illness to ICHD. Three county resolutions of public health significance—the licensing of tobacco vendors, eliminating smoking in public places, and prohibiting the sale of electronic smoking devices to minors —are not part of the Sanitary Code.

**Governing Entity Relationship with ICHD**

ICHD is a unit of government in Ingham County. Ingham County is governed by a fourteen-member Board of Commissioners, elected to two-year terms. The Board of Commissioners appoints the Health Officer to serve as the Director of ICHD and establishes through its annual budget process the personnel and other resources available to ICHD to carry out its statutory mission and any other duties assigned to it by the Board of Commissioners. ICHD’s primary point of contact with elected officials is the Human Services Committee of the Board of Commissioners which oversees the Department’s strategic and financial planning and contracting, and guides the Department on legislative matters.
The Board of Commissioners has established administrative policies for the operation of all County departments. These include the operation of the personnel functions and the financial management functions (i.e. budgeting, general ledger, and purchasing). These functions are overseen by the County Controller, who is appointed by the Board of Commissioners as the County’s Chief Administrative Officer. ICHD is bound by these policies and utilizes the resources of the Controller’s Office (i.e. Human Resources Department, Financial Services Department, Purchasing Department, Budget Office, and IT Department) to implement all such functions. Through its administrative processes, the Board of Commissioners negotiates agreements with several collective bargaining units and establishes a compensation plan for managers and confidential employees. Through these mechanisms, the job titles, classifications, wages and other terms of employment are established for all positions in ICHD. The Board of Commissioners charges the Human Resources Director, via the Controller, with the responsibility of implementing the collective bargaining agreements and the managerial compensation plan. The Health Officer utilizes these documents to employ and direct the staff of ICHD.

PA 30 of 1978 permits Counties to establish budget stabilization funds equal to fifteen percent of their budget. Ingham County utilizes this mechanism to the fullest extent possible in order to ensure continuation of County services, including public health services, in the event of a crisis. ICHD operates a network of Federally Qualified Health Centers (FQHC) funded under section 330(e) of the Public Health Services Act and/or through the Act’s Health Care for the Homeless
provision, section 330(h). This designation is important because it enables these Health Centers to obtain grants made available only through the Act.

Under the Public Health Services Act, federally funded Community Health Centers must be governed by a Community Health Center Board. As a public entity FQHC, Ingham County is a co-applicant for HRSA funding with the CHC Board. The majority of the members of the CHC Board must be clients of the Community Health Center. This CHC Board oversees the implementation of the Section 330 grants and the operation of the network of Community Health Centers operated by ICHD. The Community Health Center Board partners with ICHD and the Board of Commissioners to implement health services for Ingham County residents through the network of community health centers. These services provide assurance that uninsured, under-insured, and low-income Ingham County residents have access to an organized system of health care.

**Indemnification of Employees for Civil Liability**

Ingham County is insured through the Michigan Municipal Risk Management Authority (MMRMA). Coverage is extended to all County elected officials and employees, including Health Department employees, for acts and omissions while in the course of their employment and within their scope of authority. MMRMA provides for civil defense, and coverage of any civil judgment or settlement over and above the County's deductible. Ingham County purchases malpractice insurance for health care providers who require it. We purchase malpractice insurance for physicians and dentists from The Doctors Company.

**Delegation of Food Service Sanitation Program Responsibilities**

ICHD contractually assigns partial authority to implement food service sanitation program responsibilities to Michigan State University for establishments on their property. These include the residence halls, stadium, ice arena, the Kellogg Hotel and Conference Center, the MSU Union, Sparty's Cafes, the Wharton Center, the Breslin Center, the International Center, the Agriculture Pavilion, Cowles House, the Dairy Store, the Golf Courses, and all other fixed, temporary, mobile and vending services. The Department's contract with MSU requires it to enforce 2000 PA 92, MCL 333.12534, MCL 722.113 and MCL 333.12506 and Chapter IV of the Ingham County Sanitary Code. The agreement requires MSU to keep records of inspections and violations as required by law, outlines when and how MSU must communicate with ICHD and details how ICHD shall oversee MSU's work. The agreement stipulates that all program enforcement and quality assurance shall be performed by ICHD.

LOCAL HEALTH DEPARTMENT ORGANIZATION

LHD Organizational Structure

The Health Officer of a local health department is appointed by the governing board of the jurisdiction she or he serves. The Michigan Department of Health & Human Services verifies that a health officer meets the minimum qualifications outlined in the Administrative Code (325.13001). The Health Officer acts as the chief administrative officer of the local health department and must “Have powers necessary or appropriate to perform the duties and exercise the powers given by law to the local health officer and which are not otherwise prohibited by law.” The most serious of these powers relate to the declaration of “imminent danger to health or lives” which could lead to orders to restrain a condition, practice or person, and the issuance of emergency orders and procedures to include involuntary detention and treatment of persons in the event of an epidemic. Linda S. Vail, MPA, was appointed Health Officer on April 7, 2014. Adenike Shoyinka, MD, MPH was appointed by MDHHS as the Provisional Medical Director on April 8, 2019 for a term of July 1, 2019 through July 1, 2022.

To assure that a proper representative of ICHD is always available to exercise the powers and duties of the Health Officer, the following Chain of Command is established in ICHD’s Continuity of Operations Plan and through the adoption of this Plan of Organization supported by the Ingham County Board of Commissioners and by the Director of the MDHHS:

a. Debbie Edokpolo, MSW, Deputy Health Officer - Public Health Services
b. Joel D. Murr, MPA, Deputy Health Officer - Administration
c. Anne Scott, MPH, Deputy Health Officer/Executive Director Community Health Centers

In the event that the chain of command is activated, there will be no official Acting Health Officer. However, the above list identifies the person authorized to act with the authority vested in the Health Officer via statute, rule or policy.

The Accounting Unit is managed by the Chief Financial Officer. Eric Thelen, MBA has been the Chief Financial Officer since 2014. The Accounting Unit is responsible for operating the financial aspects of ICHD including budgeting, accounting, billing and reporting, purchasing and also supports certain County wide functions like payroll. Accounting, like the rest of the County, utilizes MUNIS financial information system to generate reports to keep Department managers informed about their budget position.
Administrative functions for the Department are overseen by Joel D. Murr, MPA, the Deputy Health Officer-Administration, who leads the Community Health, Planning, and Partnerships work and acts as the Public Information Officer and the HIPAA Privacy Officer.

**Department Structure**
ICHD is organized into three overarching branches. One branch is Public Health Services where traditional and contemporary public health activities are located as well as Registration and Enrollment. The second branch is Community Health Center Services, which houses our network of Federally Qualified Health Centers. Community Health, Planning, and Partnerships is the third branch and provides services and programs that bridge both Public Health and Community Health Center services.

The Deputy Health Officer for Public Health Services is Debbie Edokpolo, MSW. Public Health Services contains most of the public health functions that would be found in any other Health Department. There are approximately 127 FTEs working in Public Health Services which has a budget of $16,855,655 and is divided into four divisions: Health Promotion and Prevention; Environmental Health; Communicable Disease Control; and Maternal and Child Health.

Jessica York, BA, directs the Health Promotion and Prevention division which include the Breast and Cervical Cancer Control Navigation Program (BCCCNP), Pathways to Care, Substance Use Disorder services, and Registration and Enrollment services with a budget of $2,730,643.

Rod McNeill, MHA, directs the department’s Environmental Health division and oversees programs to prevent health and safety issues as they relate to the total environment. It has approximately 21 FTEs working in Public Health Services which has a budget of $2,510,123.

Environmental Health operates three program areas: Food and Facilities Programs (which includes the food service sanitation program), Land and Water Programs (including the water supply services and on-site sewage programs), and Prevention and Response programs.

Sumeer Qurashi, MD, MPH manages the Communicable Disease Control division which includes Immunizations, the HIV/STI Prevention Program, and the TB/LTBI programs with a budget of $4,768,172.

Sally Meyer, MPH, directs the Maternal and Child Health Division which includes Children’s Special Health Care Services, Family Outreach Services, Native American Outreach Program, Nurse Family Partnership, Strong Start, Healthy Start, Vision and Hearing, Maternal Infant Health Program, Childhood Lead, and Women, Infants, and Children (WIC) with a budget of $6,846,717.

Anne Scott, MPH, serves as the Deputy Health Officer/Executive Director of the Ingham Community Health Centers. The Ingham Community Health Centers operate the network of Federally Qualified Health Centers described above and the supportive services related to them. The health centers serve approximately 24,000 unduplicated individuals per year with a budget of approximately $28 million dollars. There are 190 FTEs of County employees, including FTEs directly employed and approximately 38 contractual providers (physicians, dentists, nurse practitioners, and physician assistants). Priti Pathak, is the interim Medical Director for the Health Centers. Dr. Pathak also serves as the director for the clinical laboratories. The Health Centers provide primary care, OB/GYN and pediatric health care services, adolescent health care, infectious disease specialty services as well as adult and
pediatric oral health care, and medical services at the Ingham County Jail and Youth Center. Most of those served are people who are eligible for Medicaid; people who do not have health insurance; or people who are enrolled in the Ingham Health Plan. Kelli Zurek, RN, Clinical Services Manager oversees jail and youth center medical within ICHD. The health centers must remain compliant with federal, state, and local funding sources and guidelines.

Joel D. Murr, MPA, serves as the Deputy Health Officer-Administration and oversees ICHD’s Community Health, Planning, and Partnerships (CHPP) programs. CHPP works to power data-informed decision-making and to address social determinants of health, while developing partnerships and engaging in planning to promote wellness and health equity throughout Ingham County. Programs include: Community Health Assessment (CHA), Public Health Emergency Preparedness, Environmental Justice, Health Equity and Social Justice, Healthy Communities and AmeriCorps. This branch also oversees ICHD’s Public Information, Grants administration, and Information Technology programs that are supported by a team of Analysts and Electronic Health Records trainers.

**Documentation of Approval of Local Health Department (LHD) Plan of Organization**

The Ingham County Board of Commissioners approved the Plan of Organization of ICHD on December 10, 2019.

**Operating Budget and FTEs for Public Health Services**

The annual operating budget of ICHD for 2020 is $51,914,715 and was approved in the County’s General Appropriations Resolution # 19-433. The Public Health Services portion totals $16,855,655. There are 350.25 full time equivalent positions employed in the Department at this time of which 122 are in the Public Health Services branch. The link below will take you to the controllers recommended budget. Please note the approved 2019 County Budget is not published online at this time but is expected to be out by the time of our 2020 site review. ICHD’s budget summary is on page 4-40 of this document. The section outlining FTEs is on page 4-52.
The effective use of information technology is a priority for ICHD. Technology at ICHD is supported by Ingham County’s Innovation and Technology Department (ITD) and has support staff directly in the ICHD building. There are more than 350 computer users in seven different buildings using a Gigabit fiber backbone between IT and ICHD, and multiple high speed connections reaching out to the remote sites. Every branch uses the enterprise email system. Each division also utilizes specialized applications appropriate to its needs. ICHD began redeveloping its website in 2014 and launched an updated, client-focused design in 2015. In addition, ICHD utilizes social media such as Facebook, Twitter and Instagram to distribute public health information and to gather input from stakeholders.

- In 2011 an Electronic Health Records (EHR) system was implemented as required by the Affordable Care Act. EHR improves service delivery to ICHD clients and allows ICHD Clinical Services to move from paper-based records to a more efficient means of information storage and sharing. ICHD has been implementing EHRs in Public Services Division in the last year. In December 2013, the Board of Commissioners approved the creation of two Electronic Health Specialist positions to assist in the training of the EHR use across the department. In addition, two Health Analysts maintain the EHR system back end, database, and create reports.

- ICHD is a member of the Great Lakes Health Connect (GL-HC). Health Information Exchange GL-HC is a community collaborative developed by and for physicians, employers, academic institutions, hospitals, health plans, community members, public health and community mental health service providers with the support of the State of Michigan and the federal government. GL-HC is committed to the exchange of patient health information through a secure web-based environment, promoting patient safety and improved quality of care and the advancement of research initiatives.

- Financial Services uses the County’s MUNIS system to automate financial and personnel administration.

- The Environmental Health division (EH) uses diverse GIS applications to collect and analyze geospatial data including Arc/GiS. It also electronically tracks and stores data regarding EH program inspections in the area of food, water, sanitation, vector issues, permits, complaints and pollution prevention and makes this available to the public over the Internet. EH uses a paperless system for storing and retrieving well and septic reports.
The Immunization clinic uses the EHR to track immunizations. Records are transferred via the HIE (GL-HC) to the Michigan Care Improvement Registry (MCIR).

Emergency Preparedness uses the Michigan Health Alert Network, Epi-X, and other applications geared to help prepare and react to emergency events.

The Communicable Disease Control division also uses MCIR, Epi-X and the Michigan Health Alert Network. It uses the Michigan Disease Surveillance System to receive and update cases of reportable diseases.

Community Health Assessment (CHA) uses the data collected by each group to report to the community on the overall health of Ingham County. It has also utilized LiveStories, Policy Map, Arc/GIS and tableau to access public health and related data and visualize it in a format that the public and other audiences can use. The CHA group also uses SAS, SPSS, and Stata software to analyze public health data.

Laptops, tablets and smartphones are used by staff on the Department’s wireless network and when they are out in the community. Leadership team members utilize mobile technology to be more available to their staff or to be more accessible during an emergency.

The Innovation and Technology Department performs the backup and disaster recovery procedures. Backups happen nightly and are stored in multiple locations. Servers are in limited access secured rooms and all workstations lock after a period of time. ITD uses multiple firewalls, anti-virus software, and spam filtering software to help reduce potential risks to data and infrastructure. Employees are given a Technology Use Policy and Computer Security Policy to help ensure IT security.

MISSION, VISION, AND VALUES

ICHD regularly shares its mission, vision, and values with stakeholders and employees through its website, annual report, and on-site signage. As part of a strategic planning process for the department for 2017-2020, ICHD worked with a consultant, Mary Kushion, in late 2016 to evaluate and update the department’s existing mission, vision, and values. Prior to October 2016, ICHD’s Mission Statement reflected the Department’s statutory responsibilities and authority derived from the Public Health Code, while the updated mission serves to provide a succinct description to which the public can more closely relate. ICHD’s administration reviewed the existing Mission, Vision, and Values as part of its strategic planning process for 2020-2022 and chose to leave it unaltered.

Mission

Prior to October 2016

The ICHD has the statutory responsibility to protect and promote the public’s health. The Department shall administer programs to prevent and control environmental hazards, prevent and control disease and prevent and control health problems in vulnerable populations. The Department will assess and monitor the health status of Ingham County, identify major health problems, and develop strategies through a community based process to achieve the highest level of health possible for Ingham County residents.

Adopted October 2016

To protect, improve, and advocate for the health and well-being of our community by identifying and advancing the conditions under which all people can achieve optimum health.

Vision

Excellence in health and well-being for all, honoring our diverse community.
Core Values

We frequently refer to the Core Values in describing how we want to relate to our clients and each other. The Core Values are displayed prominently on the website, in social media, and in public and work areas of all the Department’s facilities. The values are:

Health Equity & Social Justice: We improve the health of the entire community by working toward a fair and just distribution of the social opportunities needed to achieve well-being, challenging inequities and barriers to social, economic, and environmental opportunity.

Respect for Others: We see the value of all people, and express this through respectful attention to their unique strengths and challenges.

Service Excellence: We are here to serve people to the best of our ability, seeing beyond our own needs to meet theirs.

Accountability: We are accountable for the quality, integrity and validity of our work.

Continuous Mutual Learning: We are committed to learning through the experience and insight of others.

Innovation: We seek new approaches and progressive solutions to problems, embracing change and accepting reasonable risk.

The Mission Statement, Vision and Core Values are publicized on ICHD’s website and in other documents including the strategic plan.

LOCAL PLANNING AND COLLABORATION INITIATIVES
Priorities

Community Priorities
Beginning in 2011, ICHD, in conjunction with Barry-Eaton District Health Department, Mid-Michigan District Health Department, Sparrow Health System, McLaren Greater Lansing, Hayes Green Beach Hospital, and Eaton Rapids Medical Center, conducted a community health assessment- Healthy!Capital Counties- that included Clinton, Eaton, and Ingham Counties. This regional community health assessment, although it encompasses three counties, contained county and sub-county level statistics. In 2017, the aforementioned organizations, participated in a third cycle of community health assessment and published an updated Community Health Assessment in 2018. The community strategic priorities (generated with community and institutional input) developed as a result of that assessment are:

   a. Access to Health
   b. Behavioral Health
   c. Chronic Disease Prevention and Management
   d. Obesity Prevention
   e. Financial Stability and Economic Mobility

Community Health Improvement Plans (CHIP) based upon Cycles 2 and 3 of Healthy Capital Counties

Cycle 2 of Healthy! Capital Counties resulted in a Community Health Improvement Plan to address the priority areas identified by the community.

   • Click here for the Cycle 2 CHIP

Cycle 3 of Healthy! Capital Counties created an updated CHIP based upon its priorities rooted in data from the Community Health Assessment Healthy! Capital Counties 2018 report. The community was invited to join ICHD in developing, sharing, implementing and improving the plan over the next three years. The Plan uses the Human Ecological Model that recognizes that community improvements should be addressed at various levels along the human ecological spectrum. Therefore, stakeholder representation and strategies are best if they recognize and include all these levels.

This CHIP was developed for 2019-2022 following a ceremony for H!CC findings, an asset mapping process and prioritization for the capital region of Clinton, Eaton and Ingham counties. Priorities for this cycle are similar to the previous cycle and include: 1) Access to Health, 2) Behavioral Health, 3) Chronic Disease, 4) Obesity, and 5) Financial Stability and Economic
Mobility. The plan recognizes that everyone’s contribution is important to help advance and monitor the implementation of the plan.

This is the second iteration of a coordinated effort at community health improvement planning, following the CHIP process in 2016 and the final implementation update on the previous cycle. In this round the planning process was weaved into the regional assessment more tightly with a regional steering committee to determine community assets, identify priorities, then develop common goals and objectives. Some strategies included in this plan are also regional in nature and others are more specific to Ingham County or a neighborhood within. Monitoring of implementation will follow a similar process as the last cycle with tracking the progress twice a year and interim reporting. The community at large will be informed about the interim updates through a presentation.

Description of Process

Planning for this cycle of the CHIP process was initiated in the last cycle of the Community Health Assessment process with a health equity approach. Stakeholders from the tri-county region were engaged during the assessment and reviewed the findings from quantitative, qualitative and asset mapping data. Then a special event was organized to prioritize the issues for the next Community Health Improvement (CHI) planning phase. The priority areas identified in this cycle are:

- Access to Health
- Behavioral Health
- Chronic Disease Prevention and Management
- Obesity Prevention
- Financial Stability and Economic Mobility

For this cycle it was decided by the CHA steering committee that a closer tie and organic transition from the CHA to the CHIP would allow community stakeholders to better understand how the two projects are seamlessly connected. It would also cut back on costs of duplication in meetings for stakeholders who work at a regional jurisdiction level.

The CHI planning committee was formed in March 2019 with public health department members of the CHA Steering committee from Clinton, Eaton and Ingham counties. The planning committee reviewed the proposed human ecological model to use for this CHIP and generated draft goals and objectives for each priority area, then developed a list of stakeholders. The planning committee decided to recruit participants from various sectors and position levels in the human ecology spectrum. Broad participation of community partners was important to ensure that health improvement strategies would have a broad support to be
implemented. Eventbrite and other social media tools were used to announce the first steering committee meeting for this CHIP cycle which was held in May 20th, 2019.

The purpose of the meeting was to introduce stakeholders to the CHA-CHI process, generate enthusiasm about the accomplishments from the previous CHIP cycle, then have a group discussion to validate or give feedback to the planning committee on drafted goals and objectives. The groups were assigned according to priority areas and participants were asked to choose the group they felt they could mostly contribute to. A scoping discussion followed to determine current community strategies that address the priority area for the group and initiate potential new partnerships to further the impact of strategies. The meeting ended with group facilitators sharing table discussion summaries and asking partners to sign in to a follow up meeting when partners who are developing specific strategies for this CHIP cycle would come back to review all the strategies gathered from stakeholders and assess the gaps and timeline.

Since the May and June meetings at ICHD, some hospital partners have completed their design of a similar planning process and shared it to be incorporated into the county level reports since they will be working at the tri-county level.

**County Priorities**

Since 1993 the work of Ingham County Government has been guided by a strategic plan reviewed by the Board of Commissioners. As part of the planning process, ICHD provides input to the Controller’s Office. The Commissioners accept or modify the recommendations and incorporate them in the Strategic Plan. Commissioners use the plan to guide appropriations, budgetary and personnel decisions. The plan contains the County’s mission and vision statement and 14 overarching, long-term objectives. Those long-term objectives are:

1. Enhancing Access to County Records;
2. Providing a Quality Transportation System, including Roads;
3. Providing a suitable and ecologically sensitive drainage system
4. Providing Recreational Opportunities;
5. Fostering Economic Well-Being;
6. Promoting Environmental Protection, Smart Growth, and Conservation;
7. Preventing and Controlling Disease;
8. Promoting Accessible Health Care;
9. Assisting in Meeting Basic Needs;
10. Fostering Appropriate Youth Development;
11. Supporting Public Safety;
12. Assuring Fair and Efficient Judicial Processing;
13. Providing Appropriate Evidence-Based Sanctions for Adult Offenders; and
14. Providing Appropriate Evidence-Based Treatment and Sanctions for At-Risk Juveniles.

Four of the 14 objectives in the Strategic Plan are directly related to public health.

- **Promote environmental protection, smart growth, and conservation.** Develop and implement strategies for fostering appropriate land use and protecting natural resources, such as implementation of a Purchase of Development Rights program, the County's commitment to the Cool Counties Climate Stabilization Goal, and other strategies being recommended by the Tri-County Growth Study Project. Develop and implement green building strategies for existing and new County facilities.
- **Public health services that support this objective include the Pollution Prevention Program, SARA Title III Local Emergency Planning Committee, well and septic programs, wellhead protection, recycling projects; medication disposal; developing and expanding tools to facilitate the use of health impact assessments among local municipalities; our ongoing support of the Capital Area Health Alliance in its work of engaging and encouraging local businesses and organizations to adopt business practices more conducive to health; and our continued collaboration with the Land Use and Health Resource Team.**
- **Prevent and control disease.** The health of the community will be enhanced by assuring that the capacity exists to monitor the existence of communicable diseases and potential outbreaks and to conduct prevention activities such as education and immunizations.
  - **Public health services that support this goal include: the work of Communicable Disease Control, Immunizations, the Lead Prevention Program, Breast and Cervical Cancer Control and Navigation, the Tobacco Control, HIV/STI prevention, tuberculosis control and Environmental Health Programs such as sanitation, vector control, food safety and indoor air quality.**
- **Assure accessible health care.** An increase in Medicaid eligible individuals, as a result of the Affordable Care Act (ACA), has offered the opportunity for ICHD's Community Health Center Network to increase its proportion of Medicaid enrollees. Consequently, the CHC has had to expand it capacity in order to take full advantage of this opportunity. The patient centered medical home status (PCMH) of our community health centers ensures a high level of communication and interaction between our providers and the clients we serve.
• Services that support this goal include: opening the New Hope, Birch Health Center, Relocating River Oak Health Center, and Forest Health Center; our school-based health centers; mobile clinic partnerships with Sparrow Health; and our CHCs that have obtained PCMH status.

• Assist in meeting basic needs. In conjunction with state, local, and nongovernmental resources, the ability of individuals to obtain support for meeting basic needs will be enhanced.

• Public Health services addressing this goal include dental care, adolescent health services, WIC, Pathways, and Registration and Enrollment.

• Foster appropriate youth development. Intervention programs on behalf of youths and families which serve as an alternative to violence and emphasize adolescent health and opportunity will be enhanced.

• Public Health Services addressed by this goal include adolescent health services, Strong Start/Healthy Start’s Fatherhood Initiative, and Family Outreach Services.

**ICHD’s 2017-2019 Strategic Plan**

**Background**

Under the direction of the Health Officer, the department’s leadership team identified the need to have a strategic plan in place to inform and guide their activities for the foreseeable future. They also desire to submit their application to the Public Health Accreditation Board (PHAB) to become nationally accredited. One of the 3 pre-requisites for the PHAB application is a department-specific strategic plan and as such, in July of 2016, the Ingham County Health Department embarked on its strategic planning process.

**The Strategic Planning Process**

We held our first planning session on July 14, 2016 with the health department’s leadership team. During the initial session, which was facilitated by an outside consultant, the team received an overview of the strategic planning process, learned what the Public Health Accreditation Board’s requirements are for a strategic plan and reviewed the proposed plan development timeline. Various documents were reviewed in preparation for the initial meeting and included the following:

• Annual Reports (2013, 2014 and 2015)
The leadership team reviewed its mission and vision statements. The agency’s mission statement, being relatively new, was not amended, but the group worked to review and revise its vision statement. The team also conducted a Strengths, Weaknesses, Opportunities and Threats (SWOT) analysis. (See Table 1) As a result of the SWOT analysis and documentation review, the team, through an affinity diagram process, came up with the initial 5 strategic directions:

- Communication
- Information Technology
- Workforce Development
- Funding
- Culture and Vision

Also, it should be noted that the Community Health Center Network is included in the strategic planning process, but also has a requirement to conduct a strategic planning process with its board of directors as required by the federal government. To address the primary care needs of the medically underserved residents of Ingham County, ICHD formed the Community Health Care Services unit in the 1970s. This unit is home to the Ingham Community Health Centers (ICHC), which operate primary care centers in locations throughout the City of Lansing. ICHD was the first public-entity administered FQHC in the state. ICHC services are designed and coordinated to serve the area’s most vulnerable populations. It also stands as a testimony to the Health Department and the community’s commitment to improve health, reduce health
disparities, and address a multitude of significant health and social issues, including access to quality health care. (Source: Performance Measures for the Health Department)

**Alignment with Ingham County Health Department Plans**

**Connection to the Healthy! Capital Counties Health Improvement Plan**

As previously mentioned, the Ingham County Health Department is an active participant in the Healthy! Capital Counties project which is convened and co-facilitated by three local health departments (Ingham County Health Department, Barry-Eaton District Health Department and Mid-Michigan District Health Department). The Community Health Improvement Plan (CHIP) from Cycle 2 of Healthy! Capital Counties currently had 4 priority areas: Access to Primary Care, Quality Health Care, Chronic Illness, Mental Health, and Financial Stability.

ICHD had responsibilities in 4 of the priority areas and although we do not have a primary role or responsibility to implement the strategies for the Mental Health priority area, we serve a supportive role through collaborative efforts with Community Mental Health and through the Community Health Center’s Behavioral Health Services.

The specific responsibilities assigned to the ICHD within the CHIP are included in the strategic plan and are identified by notation.

**Connection to Quality Improvement, Workforce Development and Performance Management**

As a governmental public health agency accountable to the local and state authorities, but also to the taxpayers, it is important to be good stewards and to utilize our resources as effective and efficient as possible. The strategic plan outlines our process to improve and enhance our operations.

The agency’s QI Committee works with agency staff and provides assistance with identified quality improvement initiatives. We will consistently monitor our progress and identify opportunities for quality improvement initiatives. The strategic plan is the foundation for our performance management system which is monitored through our internal performance dashboard. We have already identified opportunities for QI initiatives at the outset of our plan. We recognize additional QI opportunities will present themselves as the strategic plan’s activities such as surveys and improvement efforts are identified.
The strategic plan has devoted one of its strategic directions to Workforce Development and we are making it a priority to develop and implement our Workforce Development Plan.

The “Admin + Division Directors Team” will oversee the implementation, monitoring, and revisions of the strategic plan and is committed to sharing the progress, barriers and successes with our staff, our stakeholders, and our constituents.

**Priority Projects**

Each long-term objective related to public health in Ingham County’s Strategic Plan can be linked with specific activity areas. These activities are listed below:

**Promote Environmental Protection, Smart Growth, and Conservation.**

a. **Toxicology Programs** – This program includes radon testing, mercury spill response, residential indoor and outdoor air testing, clandestine drug laboratory response, sites of environmental contamination evaluation, and issues of other potential polluting materials.

b. **Food and Facilities Programs** – A Food Safety Program is involved with conducting inspections of restaurants, temporary food services, and vending machines and handling consumer complaints. Food handlers receive educational classes and information. Inspections are also done for day care centers, adult foster care homes, mobile home parks, campgrounds, tattoo parlors, and swimming pools.

c. **Land and Water Programs** – These programs involve private water supply systems, on-site septic systems, vacant land evaluations, private home transfer evaluations, evaluations for remodeling, wells, surface water monitoring, and sanitary complaints. Private home transfers come under the new Point of Sale (POS) program.

d. **Prevention and Response Programs** – These programs include pollution incident prevention plans, SARA III-Community Right to Know, solid waste management, recycling, plan review for new businesses, hazardous waste inspections, household hazardous collections, Emergency Management Planning and Response and the Community Surface Water Monitoring Program.

e. **Land Use and Health Resource Team (LUHRT)** - LUHRT contributed to the establishment of a food policy council in this region, and passage of several complete streets policies. ICHD employees continue to support Safe Routes to
School projects and ICHD’s Healthy Communities Coordinator works to institutionalize a health impact assessment (HIA) (called the Health in All project) process by developing an online decision making tool for planners.

**Prevent and Control Disease**

a. **Communicable Disease Control** – The Disease Control Office is charged with the responsibility for surveillance, epidemiological investigation, and prevention and control of communicable diseases in Ingham County. The tuberculosis (TB) prevention and control program activities are part of the Communicable Disease Control Division.

b. **HIV/STI Prevention, Control, and Care Program** – ICHD’s HIV/STI program is a comprehensive, integrated, and multifaceted program focused on preventing the transmission of sexually transmitted infections (STIs), particularly HIV. Primary prevention, education, individual risk reduction, counseling, and testing are provided at no cost to county residents. Ongoing STI education is provided to department staff, schools, college students, health care workers, faith based groups, and employees at worksites.

c. **Lead Prevention Program** – We continue to provide case management utilizing public health nursing and environmental screening follow-up to children identified with elevated blood lead levels. ICHD partners with Refugee Development Center to reach refugee families to educate them about childhood lead.

d. **Immunization Clinic** – Immunization program activities include routine childhood and adult vaccines, administering Vaccines for Children (VFC) and MI-VFC programs, administering the School Immunization Reporting System (SIRS), educating private providers on immunization practices and vaccine storage and handling, operating a mass immunization campaign for influenza, providing immunizations in the event of a disease outbreak, providing international travelers with health information and vaccines and regional coordination of vaccination clinics as needed.

**Assure Accessible Health Care**

The goal of our entire health center network is to assure accessible healthcare. To meet the needs of the community, different health centers target different barriers or hard to reach
populations in order to improve accessibility. All of our centers provide services to people regardless of financial means and immigration status, but some centers focus on additional barriers. BIRCH Health Center is located in the main office of Community Mental Health Agency of Clinton, Eaton, and Ingham (CMHA-CEI) so that persons with moderate to severe mental health problems can obtain primary care without traveling to another site. At Forest Community Health Center we host CMHA-CEI providers to serve persons with mild to moderate mental health problems in the place where they receive their primary care. Forest Community Health Center houses a Dental Clinic. Cedar Community Health Center-Pediatrics and Cedar Community Health Center Women's Health are located in the same building with other popular maternal and child health programs (i.e. WIC and Immunizations). Our school-based health centers and free-standing teen centers offer health services to teen and young adults in a convenient and familiar setting.

a. River Oak Community Health Center opened in August of 2015 and offers the following services: Adult and Child Healthcare, Internal medicine, Preventive Care, Disease Management, Women’s Health, Behavioral Health Counseling, Substance Abuse Screening, Nutrition Counseling, Immunizations, Community Resource Support, Pharmacy Assistance, and a Mobile Bus to serve the homeless. River Oak Community Health Center received level 3 recognition as a Patient Centered Medical Home (PCMH). PCMH status has allowed our Community Health Center (CHC) network to provide a wider range of support services to its patients including social work, access to patient records through an electronic patient portal, and on-going communications with patients through newsletters, emails, etc. In addition, this practice model includes staff dedicated to quality assurance and improvement. River Oak providers relocated to Forest Community Health Center in Fall 2019.

b. The Mobile Dental Center brings preventive and restorative dental services directly to schools and offers care regardless of insurance status or ability to pay. The program prioritizes rural and low-income schools, but all in-county schools may participate. In 2015, a $500,000 grant from the Human Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services funded the fully-equipped, accessible bus in addition to other equipment.

a. Public Health Nursing - public health nurses provide a variety of services and activities within the community including disease prevention and outbreak control, education, case management and care coordination, and dissemination of community resources.

b. Pathways to Care: Pathways to Care is a home visiting program staffed by Community Health Workers who assist Medicaid-eligible, adult community members in
overcoming obstacles related to accessing necessary care. The purpose of the program is to support clients to live longer, healthier lives by improving their access to preventive health services covered by Medicaid. Community Health Workers serve as liaisons between clients, community, and medical and social service systems to streamline health care services. Pathways to Care benefits clients by:

- Enhancing participants’ ability to communicate effectively with healthcare providers
- Providing culturally and linguistically appropriate health information and resources
- Advocating for individual and community health
- Providing referral and follow-up services
- Care coordination

c. Breast and Cervical Cancer Control Navigation Program (BCCCNP): BCCCNP provides breast and cervical cancer screening, diagnosis, treatment and system navigation at no cost to women who qualify. Both breast and cervical cancers are highly treatable if detected early. Nevertheless, many women, particularly women of low economic status, die unnecessarily because of these cancers. BCCCNP is now able to provide services to women under 40 who are in need of diagnostic screening and treatment services.

d. Registration and Enrollment (R&E): R&E staff assess the eligibility of families and individuals and assists them in applying for a variety of health programs including:

- Healthy Kids program
- MIChild health insurance program
- Healthy Michigan Plan
- Maternal Outpatient Medical Services (MOMS)
- Breast & Cervical Cancer Control Navigation Program (BCCCNP)
- Ingham Health Plan (IHP)
- Ingham County Prescription Discount Card

ICHD is a certified navigator organization assisting consumers with health coverage options available through the marketplace.

e. Maternal & Child Health Services –

i. *Strong Start, Healthy Start*: ICHD is an affiliate of the national Healthy Start Initiative. This grant program is to improve perinatal health outcomes and reduce racial and ethnic disparities in perinatal health outcomes. The Ingham County Strong Start Healthy Start initiative uses community-based approaches
to service delivery, and facilitates access to comprehensive health and social services for women, infants, and their families.

ii. **Nurse Family Partnership**: Nurse-Family Partnership helps vulnerable first-time mothers and their babies. Through ongoing home visits (until the child is two years old) from registered nurses, mothers receive the care and support they need to have a healthy pregnancy, provide responsible and competent care to their infants and toddlers, and become more economically self-sufficient.

iii. **Maternal Infant Health Program (MIHP)**: Support and education is offered to mothers in their homes, and transportation to medical visits is provided. Additionally, advocates link women to other community resources and supports to prepare them for the birth of their child.

iv. **Children’s Special Health Care Services** - The program provides in-home intensive case management for medically fragile children who receive private duty nursing care in the home. These services enable children to remain in their own homes and out of the most costly acute or long term care settings.

**Assist with Meeting Basic Needs**

a. **Maternal & Child Health Services** –
   i. **Strong Start, Healthy Start**: (referred to in above section)
   ii. **Nurse Family Partnership**: (referred to in above section)
   iii. **Family Outreach Service**: Family Outreach Services (FOS) is one of the home visiting programs of the Public Health Services Division the program uses non-medical public health professionals (called Advocates) to assist families in their psycho-social needs.
   iv. **Maternal Infant Health Program (MIHP)**: (referred to in above section)
   v. **Women, Infants, and Children (WIC) Program** - The principal goal of the WIC program is to eliminate nutritional deficiency as a contributing factor in neonatal death, low birth weight, and other significant health problems of children and pregnant or breastfeeding mothers. Clients are eligible for the program for several reasons including poor diet, low iron, weight abnormality, and other risks as defined by the State WIC Office.

b. Social supports in the Community Health Centers: Social workers and Community Health Workers are embedded within the clinical settings and connect patients and clients to resources to meet their basic needs including food and shelter.
Foster Appropriate Youth Development

a. School–Based Health Centers: School-based health centers (SBHCs) are primary care clinics based on school campuses and represent a partnership between the school district and ICHD. ICHD operates two SBHC in two local high schools:
   i. Eastern Health Center
   ii. Sexton Health Center
b. Hearing and Vision Screening Program: The goal of the hearing program is to prevent childhood hearing loss or to initiate steps to alleviate and reduce the trauma of hearing loss. The goal of the vision program is to promote eye health of children and the specified populations through prevention, identification, treatment, and health education. The technicians who conduct the screenings are trained and regularly evaluated by the Michigan Department of Health and Human Services to assure that the tests are administered properly. Children who do not pass the hearing or vision screening tests are referred for evaluation to a physician or optometrist. Families who need assistance with the securing of hearing aids, other adaptive equipment, or eyeglasses are referred to the appropriate community resource.

c. Willow Health Center – This service addresses the health needs of Ingham County adolescents with an emphasis on pregnancy prevention, reducing infant mortality and providing screening and counseling for youth at risk.

Community Partnerships and Collaborative Efforts

Community Partnerships

To accomplish its mission of protecting and promoting public health, ICHD works with many groups and organizations in the community. Health outreach partners identify uninsured residents and assist those who are eligible with enrollment in Medicaid, insurance plans, or other benefit programs such as the Ingham Health Plan. They also help those they serve to
establish a medical home of their choosing and to use the coverage available to them for basic primary and preventive care. Outreach partners also connect residents with other useful services and resources while helping strengthen social connections in neighborhoods. Outreach Partners with ICHD include:

- Allen Neighborhood Center
- Capital Area Community Services
- Care Free Medical Clinic
- Cristo Rey Community Center
- Family & Community Development Services
- Northwest Initiative
- Southside Community Coalition
- St. Vincent Catholic Charities

ICHD collaborated with a variety of local and regional groups and organizations that are engaged in protecting the health and safety of mid-Michigan residents and creating a healthy living environment. These organizations include:

a. Mobile Health Clinic: In 2016, ICHD began partnering with Sparrow and Dean Transportation to provide the Lansing-area’s only Mobile Health Clinic, going on location to residents to provide free basic health services. The mobile clinic, housed in a bus renovated by Dean Transportation, is open to anyone and provides adult and childhood immunizations, flu shots, education, referrals, diabetes checks, and screenings for blood pressure, cholesterol, lead, glucose, and much more.

b. Healthy Lifestyles Committee – Part of the Capital Area Health Alliance (CAHA), the goal of the Healthy Lifestyles Committee is to promote healthy behaviors and thus reduce illness. Another goal is to encourage residents to “Choose Health”.

c. Ingham Substance Abuse Prevention Coalition (ISAPC) – is dedicated to reducing the harm caused by addiction and substance abuse in Ingham County. ISAPC is made up of a broad array of community stakeholders, assesses the needs of specific populations at highest risk of substance use/abuse, shares relevant local data, prioritizes needs, and plans implementation of evidence-based strategies to prevent and reduce substance use/abuse.

d. The Land Use and Health Resource Team is a collaborative effort in the tri-county area involving planners, university faculty, business, and public health. The purpose of the LUHRT is to educate and engage the community on the impact of the built
environment on health and facilitate positive urban policy and environment changes.
e. **Power of We Consortium (PWC)** – ICHD is part of the Power of We Consortium (PWC) staffed by the Capital Area United Way, an inclusive planning and implementation multi-purpose collaborative body of over 250 human services, non-profit, governmental, faith-based, and business sector stakeholders that promote systems reform in Ingham County. The PWC is often referred to as a “community collaborative” or a “network of networks” and capitalizes on the power of social capital (such as trust, civic involvement, and connection) and diversity to achieve positive results for the community.
f. **Social Justice Project** - Through the Social Justice Project, Ingham County is participating in national efforts to transform public health practice by moving its focus “upstream” toward the root causes of health inequity. The Social Justice Project has facilitated both internal and external dialogues to bring the concept of health inequity to the forefront of community improvement efforts. The Department offers internal Health Equity/Social Justice workshops to all employees. In addition, the Department is an active participant in Michigan Power to Thrive a landmark project which partners local public health with community organizers to address the social determinants of health. As the site of a Refugee Resettlement site, the department remains committed to addressing the needs of immigrant populations. As a member of the Immigrant and Refugee Resource Collaborative (IRRC), members of the collaborative have helped improve the provision of English as a second language. Projects such as former grants with Michigan State University have assisted us in understanding the needs of immigrants, refugees, and language minorities in the Capital Area, promote greater understanding, and help improve services, making it possible for these groups to participate fully in our community at all levels. Partnerships with other non-profits such as the Lansing Latino Health Alliance have aided the department in addressing the needs of special populations.

**Collaborative Efforts**

ICHD, in addition to initiating community partnerships, also collaborates in community activities that benefit the health and wellbeing of Ingham County residents. Some of these collaborations include:

a. **Healthy! Capital Counties** - Healthy! Capital Counties (H!CC) is a regional community health assessment and prioritization project undertaken by the four hospital systems
(Sparrow Health Systems, McLaren Greater Lansing, Hayes-Green Beach, and Eaton Rapids Medical Center) and the three local health departments (Barry-Eaton District Health Department, ICHD, and Mid-Michigan District Health Department) serving Clinton, Eaton, and Ingham counties.

b. *Mid-Michigan Health in All* – Is collaboration between, ICHD, Tri-County Regional Planning Commission, and MSU to develop and encourage the use of health impact assessment tools by local and regional planning commissions in their decision making process. Health impact assessments (HIA) allow planning boards and other entities to evaluate the direct or indirect impact on individual and community health of a proposed project.

c. *Ingham Opioid Abuse Prevention Initiative*: First convened in early 2015, the Ingham Opioid Abuse Prevention Initiative came together in the wake of a sharp spike in opioid-related deaths in the Greater Lansing area. The cross-sector group includes law enforcement, emergency medical services, local hospitals, treatment facilities, and community groups. They aim to increase understanding of the growing problem of opioid abuse, and ultimately, to decrease the number of overdoses and opioid-related deaths. Ingham County has seen an eight-fold increase in opioid-related deaths since 2006. While the group members were all aware of the local opioid addiction problem prior to the formation of the group, they were not sharing information or collaborating to address the problem. Today, surveillance data is sourced from the group on a monthly basis which allows the work group to make data-driven decisions. The group is currently building public awareness of opioid abuse, examining policy changes, and pursuing additional opportunities for collaboration with syringe services programs.

d. *BIRCH Health Center* - BIRCH (Building Inter-professional Relationships for Community Health) Health Center is a joint effort between ICHD and Community Mental Health Agency of Clinton, Eaton, and Ingham (CMHA-CEI) to provide medical care to patients who also receive mental health services.

e. *Ingham County Pathways to Care* – Pathways to Care (PTC) is a program within the Health and Promotion Division of the Ingham County Health Department. This program is modeled after the evidence based Pathways to Better Health program. The purpose for Pathways to Care is to support Medicaid eligible participants to live longer, healthier lives by:

- Identifying and enrolling participants eligible for Medicaid funded programs
- Improving access and accessibility to preventive health services covered by Medicaid
- Serving as a liaison between community, medical and social service systems to streamline health services

REPORTING AND EVALUATION

Evaluation

Ingham County government is extremely concerned about accounting for the work of its employees. As mentioned in section 4B of the Plan of Organization, each long-term objective in Ingham County’s Strategic Plan has specific activities associated to it. The County has developed metrics it calls activity indicators, which it uses to benchmark the performance of ICHD and other County units. The Board of Commissioners and the Controller’s Office require ICHD to develop activity indicators in every area of its work, to report annually on them, and to forecast future levels of activity. Over the years ICHD has incorporated the some of its activity indicators into its annual report so that those indicators would be available, not just to the Controller and the Board of Commissioners, but the public, department employees, and anyone exposed to the annual report.

Many of the evaluative methods involve presumptive associations or activities correlated to outcome measures. Additionally, performance monitoring systems that generate feedback to the County Commissioners and ICHD on public health activities are important activities.

Performance Management Activities

The Quality Improvement Committee is responsible for performance management activities for Public Health Services and Community Health Planning and Partnerships/Administration. Ingham County Health Department (ICHD) has collected data on Performance Measures and Activity Indicators since 2008. Each of the four Public Health Services (PHS) divisions and Administration/Community Health, Planning, and Partnerships (CHPP) has collected the
information and reported it on an annual basis to the department's governing entity, the Ingham County Board of Commissioners (BOC), through the Controller’s Office and the department’s annual report.

Performance Standards

Beginning in 2018, ICHD created formal Quality Improvement and Performance Management Plans for the Public Health Services and Community Health, Planning, and Partnerships branches that charge the Quality Improvement (QI) Committee to implement its Performance Management System. One key task for this group is to monitor the achievement of organizational objectives. The QI Committee monitors progress on the activities that support Ingham County’s strategic plan, the department’s strategic plan, and the Community Health Improvement Plan (CHIP) developed from the 2015 and 2018 Healthy! Capital Counties Community Health Assessments. These three documents contain the department's performance standards, including goals, targets and indicators.

Performance Measurement

The Performance Management System utilizes dashboard reports to measure the progress of internal performance standards and measures for Ingham County's and ICHD’s strategic plans, as well as determine the need for policy or program changes. The PHS Division Directors collect data for their programs in dashboards. This is the same information that they have traditionally reported up to the Board of Commissioners through the Controller’s Office as part of the budget creation process. They report the relevant data to administrative support staff who populate dashboards. This data informs progress on Ingham County’s strategic plan for reporting to members of the QI Committee, ICHD administration, and the Board of Commissioners. Progress on ICHD’s strategic plan is reported to the Deputy Health Officer-Administration by the champions for each area that are identified in the plan. Progress on the CHIP is collected from the responsible parties identified in the CHIP by the Health Analyst-Healthy Communities.

Progress Reporting

The QI Committee is responsible for analyzing data related to performance standards and measures for Ingham County’s strategic plan. The group looks at annual trends for data for each of the performance standards and measures as well as trends for quarterly updates of the data throughout the year. Results are recorded in the minutes of the QI Committee meetings and recorded on the shared drive. The members of the QI Committee will share the reports with the
Administrative team as necessary, but at least annually. The Deputy Health Officer-Administration or the champions identified in the plan shares progress on the department’s strategic plan at least quarterly to the Leadership Team. Progress on the department’s strategic plan is included in the annual report. The annual report is shared with employees, stakeholders and the Board of Commissioners. The Health Analyst-Healthy Communities reports on progress on the CHIP to stakeholders, CHIP participants, and the QI Committee annually. They also share the report with the Power of We Consortium.

Quality Improvement

The QI Committee reviews performance measures from the PHS and CHPP/Admin branches. Performance measures that are not at or above their pre-determined targets are investigated further, and resulting information used to develop QI priorities. These priorities are then communicated to solicit or prioritize QI projects related to those priorities.

ICHD continues to strive to translate a variety of quality improvement activities conducted over the past decade into a formalized and institutionalized strategy. The department endeavors to create a sustainable culture of quality improvement, and has a Quality Improvement Committee drawn from the Leadership team and frontline staff; this team is responsible for raising the competence of ICHD staff on quality improvement techniques (e.g. Model for Improvement, the 5 Why’s, process mapping, etc.) as well as serve as a resource for staff wanting to conduct quality improvement activities.

Communication

ICHD employs health communication, risk communication, social marketing and public relations strategies to promote health across Ingham County. In 2014 ICHD hired a full time Health Communications Specialist. This has allowed the Department to plan and focus its communication activities. It has also allowed staff to develop communication-based interventions and messaging based upon behavioral and social learning theories to positively influence the health behaviors and health beliefs of county residents. To reach county residents, ICHD engages in strategic communications, which include paid and earned media across digital and traditional platforms, to support ICHD’s mission, goals and objectives, strategic plan and community health needs assessment. ICHD analyzes and solicits data via survey tools and focus groups to inform communication strategies (formative evaluation) and evaluates the overall outcomes of communications through social media and web metrics in addition to measuring health outcomes (summative evaluation).

Reporting

ICHD utilizes a number of different mediums to communicate to the Community and the Board of Commissioners on the health status of the community and its activities. Below is a list of various types of communication techniques and our information dissemination activities in each.

Large meetings (e.g. town hall meetings)

- Healthy! Capital Counties (H!CC) community prioritization activities
- Capital Area Health Alliance meetings
- CMH-CEI’s Elected and Appointed Officials Luncheon

Small meetings (e.g. department meetings)

- Quarterly Brown Bags meetings
- Leadership Team Assembly
- Board of Commissioners meetings
- Human Service Committee meetings
- Meeting with various community partners
- Board of Health meetings

- Annual report: The Department releases annual reports. These reports are distributed widely in the Community and are also presented to the Board of
Commissioners. The annual report provides detailed information about each of the activity areas described in the Services section, Part 5 of the Plan of Organization, and also reports on some of the activity indicators. In addition the annual report informs the community about Health Department services and how to access them. Although these documents are available online, we find that distributing printed documents is still an effective means of communication, so we still do a small print run.

- Click here for 2018 Annual Report

E-mail
- In Good Health: This is a monthly informational departmental newsletter that is sent out to all departmental staff.

- Data Book: recognizing that not all health information or demographic information is available in the Behavioral Risk Factor Survey Report and that information is also essential to health policy decisions, planning, and grant development, we have developed another statistical resource document for community stakeholders and county officials: the Data Book. The Data Book provides information on demographic, mortality, pregnancy, natality adult and child health data for residents of Ingham County. It is available online and is updated as new information for each topic becomes available.
  - Click here to view Data Book

Healthy! Capital Counties: Healthy! Capital Counties is a regional collaborative community health assessment involving four local hospital systems and three local health departments. The intent of Healthy! Capital Counties is: to conduct a common community health assessment; develop common community priorities; and have the priorities guide community health improvement activities in Clinton, Eaton, and Ingham counties. All documents related to Healthy! Capital Counties are online on the project’s website.

Internet and Social Media

- Social Media: ICHD maintains Facebook, Twitter, and Instagram accounts that it uses to engage the entire community. These tools can play a critical role in public health practice. For example, Facebook played a critical role in data collection in February 2016 during a Norovirus outbreak at the Kellogg Hotel and Conference Center. Via Facebook we were able to disseminate information about the outbreak and direct people who may have visited the Kellogg Center at the time to an online survey to collect information about the outbreak.

- ICHD Website: ICHD is continuing to update its website in order to make it more accessible to the community. The architecture was revised to improve search functions and usability for county residents.

RESOLUTION TO AUTHORIZE A CONTRACT WITH THE COMMUNITY MENTAL HEALTH AUTHORITY OF CLINTON, EATON AND INGHAM COUNTIES (CMH) FOR HEALTH SERVICES MILLAGE ELIGIBLE SERVICES

RESOLUTION # 19 –

WHEREAS, the State of Michigan dramatically reduced State General Fund payments to CMH in fiscal year 2015; and

WHEREAS, the cut eliminated 67% of the State General Fund dollars to the CMH system; and

WHEREAS, these cuts continue to cause ongoing fiscal and service gaps for CMH; and

WHEREAS, in November 2014 the electorate renewed a countywide health services millage level of 52/100 (.52) of one mill for a period of five years (2015-2019) to be used for the purpose of providing basic health care services to Ingham County residents who are not eligible for Medicaid under the Federal Affordable Care Act, and whose individual income is less than $28,000 and who do not have medical insurance; and

WHEREAS, CMH has submitted a proposal to Ingham County to use Health Services Millage dollars to fund essential services and alleviate the cut in State General Fund dollars; and

WHEREAS, funds from the health services millage are allocated in the County’s 2020 budget for this purpose.

THEREFORE BE IT RESOLVED, that the Ingham County Board of Commissioners authorizes a contract not to exceed $1,371,722 with CMH for services provided to Ingham County residents for the period of October 1, 2019 through September 30, 2020.

BE IT FURTHER RESOLVED, that funds for this contract with CMH will come from the Health Services Millage.

BE IT FURTHER RESOLVED, that funds will be utilized by CMH for Health Services Millage eligible services as provided in the attached proposal.

BE IT FURTHER RESOLVED, that the Chairperson of the Ingham County Board of Commissioners is hereby authorized to sign any necessary contract documents on behalf of the County after approval as to form by the County Attorney.

Proposal for the continued use of Ingham County Health Services Millage to close gaps in Ingham County’s behavioral health care system

FY2020

Summary of proposal: This proposal requests the continuation of Ingham County Health Services Millage funding, to the Community Mental Health Authority of Clinton, Eaton, and Ingham Counties (CMHA-CEI), to support a comprehensive package of behavioral healthcare services designed to address the most pressing behavioral healthcare needs in the Ingham County community.

Context and Need: Following the significant State General Fund reduction (2/3 of the funds formerly provided to CMHA-CEI) and the implementation of the Healthy Michigan Plan in 2015, the Community Mental Health Authority of Clinton, Eaton, and Ingham Counties (CMHA-CEI) realized growing service gaps resulting from significantly lower State General Fund dollars. While some of these gaps have been reduced through Ingham County Millage Funding and other federal, state, and local sources that CMHA-CEI has pursued, they persist and at the same time, community need for behavioral health services continues to increase.

These gaps include:

- Individuals who are uninsured which must be covered by scare state general fund dollars or local dollars within CMHA-CEI’s budget in order to maintain in service.
- Individuals with “spend down” Medicaid eligibility, which means they become eligible for Medicaid benefits only after meeting a large monthly spend-down amount.
- Those with severe, chronic and urgent specialized mental health treatment needs (crisis stabilization, community living supports or skill-building services, residential care, case management, etc.) not covered by any other coverage plan.
Proposed Essential Services to close gaps in Ingham County:

Crisis Services: The community’s free-standing (outside of hospital grounds) 24/7 Psychiatric Crisis Services and Inpatient Pre-Screening Unit: This unit provides around-the-clock access to highly trained behavioral health clinicians who provide: crisis intervention, psychiatric inpatient pre-screening (and funding authorization), short-term stabilization, diversion to appropriate levels of care, housing assistance, and linkages to needed services to adults, children, and adolescents. In effort to meet the growing need for crisis stabilization services in our service area and to reduce the need for scarce psychiatric hospital placements in situational crisis, CMHA-CEI has expanded adult and youth Urgent Care Services as part of the Crisis Services continuum, launched youth mobile crisis available 24/7 and initiated adult mobile crisis services. These services provide immediate intensive support to individuals and families in order to intervene, stabilize, and connect them to longer term resources for ongoing care.

The community’s Assessment and Referral Team: This unit provides a full bio-psychosocial assessment and a comprehensive behavioral health and ancillary treatment, supports, and referral plan (using person-centered planning methods) for adults who are uninsured.

The community’s urgent care and intensive home-based treatment program for at-risk children, youth, and their families: This program works to improve the ability of children and youth, with serious emotional disturbance, to function better at home, in school, in the community, and with peers by providing - primarily in the home, school, and workplace of the families enrolled in this program (with some services provided at CMHA-CEI offices) - family and individual psychotherapy, psychiatry, nursing, parenting skills, crisis therapeutic respite services, training and coaching, school liaison services, and referral network linkages.

A spectrum of community-based treatment teams for vulnerable populations: These multidisciplinary teams, made up of mental health therapists/case managers, psychiatrists, nurses, mental health workers/consumer services specialists, and peer support specialists, provide psychotherapy, psychiatry, nursing, and a range of supports to adults in a variety of settings with very high levels of mental health needs, those enrolled in a specialized older adult program, and adults with intellectual/developmental disabilities.
Psychiatric care and outpatient therapy for children and adults with moderate mental health needs: This community has long experienced a significant and growing gap in the availability of office-based outpatient psychotherapy for children, adolescents and adults. These services (along with CMHA-CEI’s 24/7 psychiatric crisis services unit) provide the community’s mental health safety net.

Psychiatric inpatient care: CMHA-CEI pays all psychiatric inpatient claims on all uninsured individuals admitted to psychiatric inpatient facilities. Given that these claims are paid with State General Fund dollars and given the dramatic cut in this CMH’s State General Fund revenues, **CMHA-CEI has limited funds to pay these psychiatric inpatient costs** and others previously funded by State General Fund dollars.
