Commissioner Celentino moved to adopt the resolution. Commissioner Slaughter supported the motion.

Commissioner Celentino introduced the resolution. He stated that this resolution went through the normal reorganization process and the Treasurer had done a good job abiding by the policy, and after some discussion, had been recommended by both the County Services and Finance Committees.

Commissioner Schafer stated he had voted against the resolution in the Finance Committee, because it added $300,000 to the County’s legacy costs and the reorganization had been done outside of the budgeting process so it was not compared to other departments and activities. He further stated the County was two months into this budget year and already committing $300,000 for something else, and for that reason, he would vote against the resolution.

Commissioner Grebner stated that his estimate of the long-term increase to base costs was a little less than Commissioner Schafer’s estimates, as some of this money had been spent on temporary employees’ pay already and that will no longer be necessary, but it was a substantial increase to the base costs for the County. He further stated he had personal and political connections to both the Treasurer and Chief Deputy Treasurer which should be disclosed and the public be made aware of.
Commissioner Morgan stated he had previously supported the resolution in the Finance Committee, but over the weekend he had thought about the property tax rates that were slow to grow, continuing increased OPEB costs, and the County’s Strategic Plan and decided he would rather wait until the budget process to deal with a reorganization, in the context of the full budget. He further stated if the County were to create positions and reorganize, he would prefer to have those more align with the Strategic Plan’s focus on health care and law enforcement.

Commissioner Morgan stated he would be voting against the resolution, and although he was not necessarily against the reorganization, he would like to see what it looks like within the context of the budget.

Commissioner Polsdofer stated he originally supported the resolution in the Finance Committee, but similar to Commissioner Morgan he would like the resolution to be held until the Board of Commissioners had a better sense of the budget. He further stated that for that reason, he would not be supporting the resolution.

Commissioner Grebner stated that the County had set up two separate, inconsistent procedures for departments to increase their budget, one being to request an increase the budget one position at a time through the budget process, and the other was to do a department reorganization and reevaluate all of the positions. He further stated that a reorganization could not be run through the budget and that, originally the Treasurer’s Office tried to do so but was told to go through the reorganization process.

Commissioner Grebner stated that he thought the reorganization could not be run through the budget due to the two processes being too contradicting.

Commissioner Stivers stated that the Human Resources Department did an excellent job evaluating the reorganization and when it was said that people did not get paid enough, she trusted the assessment. She also stated that the Treasurer had made a great case of why it was necessary, so she would be voting in favor of the resolution.

The motion carried. **Yeas**: Crenshaw, Celentino, Grebner, Koenig, Maiville, Sebolt, Slaughter, Stivers, Tennis, Trubac. **Nays**: Morgan, Polsdofer, Schafer **Absent**: Naeyaert.

This Agreement is entered by and between INGHAM COUNTY, whose address is 341 S. Jefferson, P.O. Box 319, Mason, MI 48854 (the “Taxing Jurisdiction”) and MERIDIAN CHARTER TOWNSHIP DOWNTOWN DEVELOPMENT AUTHORITY, whose address is 5151 Marsh Road, Okemos, MI 48864 (the “Authority”), and the CHARTER TOWNSHIP OF MERIDIAN, whose address is 5151 Marsh Road, Okemos, MI 48864. The Taxing Jurisdiction, Charter Township of Meridian, and Authority are collectively referred to as the “Parties.”

BACKGROUND

The Authority has requested certain amendments to its Development Plan and Tax Increment Financing Plan, (the “Plan Amendments”) of the Authority, pursuant to Public Act 197 of 1975, as amended,¹ (MCL 125.1651 et seq. recodified at MCL 125.4201 et seq.) (the “Act”). The Taxing Jurisdiction previously adopted a resolution exempting its taxes from capture by the Authority pursuant to Section 203(3) of the Act (MCL 125.4203(3)). The proposed Plan Amendments are intended to fund improvements to property within a downtown district of Meridian Charter Township, to halt property value deterioration and increase property tax valuation, where possible, in its downtown business district; to eliminate the causes of that deterioration; and to promote economic growth.

The Parties wish to enter into this Agreement, pursuant to the Act and Section 214(4) of the Act, to grant a limited waiver of the exemption from capture of the Taxing Jurisdiction’s property taxes, as set forth below.

AGREEMENT

1. Unless otherwise specifically indicated herein, the words and phrases used in this Agreement shall have the definitions attributed to them in Section 201 of the Act. For example, “assessed value” means for valuations made after December 31, 1994, the taxable value as determined under section 27a of the General Property Tax Act, MCL 211.27a.

2. The Parties mutually determine that this Agreement shall control the terms and conditions relating to the capture of assessed value pursuant to the Plan Amendments recommended by the Authority and as adopted by the Charter Township of Meridian on December 4, 2018, and contains express authority for the DDA to capture the incremental property taxes due to the Taxing Jurisdiction within the existing District Boundaries of the Authority, which are specifically set forth in the Plan Amendments and depicted on the attached Exhibit A (the “District”), and as specified by this Agreement. Any other agreement or parts of agreements between the Parties in conflict with this Agreement are superseded.

¹ See Public Act 57 of 2018, the Recodified Tax Increment Financing Act.
3. The initial assessed value for all property in the District shall be as determined as of December 31, 2017 and finally equalized in May of 2018 (the “Base Value”).

4. The Taxing Jurisdiction agrees that the Authority shall capture, and the Township and County Treasurers shall transmit to the Authority, all captured assessed value within the District.

5. To afford the Taxing Jurisdiction the ability to meet annual budgetary needs and to limit inflation exposure of existing tax revenue, the Authority will remit a portion of captured assessed value from specific parcels within the Downtown District and Development Area, as provided for in this Agreement.

6. No inflation amount shall be due and the Authority shall not pay any inflation amount to the Taxing Jurisdiction unless and until both new private development occurs on any of the five (5) core block areas of the District as depicted on the attached Exhibit B (the “Core Block Areas”) and the Future Taxable Value (FTV) of Real Property (Land and Land Improvements and Buildings) within the Core Block Area increases by an additional minimum amount of $13,602,403 above the Base Value.

7. Subject to paragraph 6 above and only as reflected on Exhibit C, for all parcels within a three (3) block area as depicted on the attached Exhibit B (the “3 Block Plan Area”), the Authority will remit to the Taxing Jurisdiction not more than a 2.14% of increase in each year in ad valorem property taxes calculated from increases to the taxable value from the Base Value (the “Annual 3 Block Plan Area Inflation Amount”). Any payment under this paragraph shall be made from available tax increment revenues, as determined by the Authority in its sole discretion. The attached Exhibit C shows the Annual 3 Block Plan Area Inflation Amount which may be due to the Taxing Jurisdiction, as identified thereon.

8. For parcels not within the 3 Block Plan Area, after the conditions of paragraph 6 above are satisfied (the “Conditional Base Year”), the taxable value of those parcels in the Conditional Base Year shall be the Conditional Base Value. The Authority will remit to the Taxing Jurisdiction not more than the first 2.14% of increase each year above the Conditional Base Value in ad valorem property taxes for each specific parcel within the District which but for this Agreement would have been collected and paid to the Taxing Jurisdiction (the “Conditional Inflation Amount”). Any payment under this paragraph shall be made from available tax increment revenues, as determined by the Authority in its sole discretion.

9. Subject to paragraph 6 above, the Parties anticipate sufficient taxable value to allow any payment of the Inflation Amount will not occur until December 31, 2021 and no inflation amount payments are anticipated before the Authority collects tax increment revenues in tax year 2022.

10. Existing ad valorem property taxes due the Taxing Jurisdiction on the Base Value of all parcels in the District shall be paid to the Taxing Jurisdiction, as provided for in the Act. The current base taxes are reflected in the attached Exhibit D. If, for any reason, the taxable value of any parcel shall fall below the Base Value or Conditional Base Value, the Authority shall not be liable for any current base tax amount, no inflation amount shall be due, and the Authority shall not remit any inflation amount for that parcel to the
Taxing Jurisdiction. The Taxing Jurisdiction agrees to hold the Authority harmless for any reduction in Base Value or Conditional Value of any parcel within the District and Development Area.

11. The Charter Township of Meridian agrees that the Township’s property tax millage is and shall remain subject to capture by the Authority for the duration of this Agreement, and that it has not opted out of the DDA Plan or the Plan Amendments.

12. The Authority shall expend the captured assessed value and incremental tax revenues derived from the Taxing Jurisdiction’s millage for those improvements and infrastructure projects contained in the Plan Amendments on the effective date of this Agreement.

13. The Authority shall prepare an annual report including the use or allocation of the captured assessed value and incremental tax revenues derived from the Taxing Jurisdiction’s millage to infrastructure projects and improvements within the District. On a date mutually agreed to by the Parties, the Authority shall annually make a presentation to the Taxing Jurisdiction regarding the annual report and compliance with the policies of the Taxing Jurisdiction effective and applicable on the effective date of this Agreement.

14. This Agreement supersedes and replaces the tax sharing agreement entered into by the Parties on August 22, 2006.

15. The parties acknowledge and agree that the Authority and the Township may, from time to time, further amend the Plan as they deem appropriate pursuant to the Act. No such amendment shall have the effect of modifying the provisions of this Agreement and such amendment to the Plan shall not have the effect of extending the term of this Agreement.

16. This is the entire agreement between the Parties as to its subject. It shall not be amended or modified except in writing signed by the Parties. The Taxing Jurisdiction will consider future waivers of its exemption from property tax capture on a case-by-case basis.

17. This Agreement and limited waiver shall automatically expire following the tax collections due in December 2038, unless otherwise extended by the Parties, at which time the assessed value and taxes due the Taxing Jurisdiction shall no longer be subject to capture.

Approved: April 12, 2005  
Resolution No. 05-094

The Ingham County Board of Commissioners adopts the following revised policy with respect to the capture of county property tax revenues within new or expanded development districts including those under the Local Development Finance Authority Act (LDFA), the Downtown Development Authority Act (DDA), and other tax authorities or municipalities.

A. The County will not permit the capture of county property tax revenues in any new or amended development district unless the Ingham County Board of Commissioners has approved a tax sharing agreement with the affected development district and the affected municipality.

B. Except as otherwise provided in this resolution for high technology activities, the County will only consider the approval of a tax sharing agreement that meets the following conditions.

1. The agreement must be for specifically defined public infrastructure projects which are directly related to the economic growth within that district. Economic growth is understood to be the creation, retention, and expansion of jobs and income.

2. Specifically defined public infrastructure projects must be for specific items of work, each of which is limited to a specific maximum dollar amount to be completed within a specified time period. The agreement shall specify the maximum amount of captured property tax revenues and the time over which those revenues may be captured. It shall also specify that any excess collections must be returned to the County Treasurer annually.

3. The affected jurisdiction must allow the capture and expenditure of its property tax revenues for the same period of time during which the County tax revenues are being captured and expended in the district.

4. If tax revenue is generated faster than anticipated due to growth within the district exceeding initial projections, the additional revenues may be used to decrease or call any bonds or other debt obligations related to the projects approved by the tax sharing agreement in proportion with funds from other taxing jurisdictions.
5. The County Treasurer shall take the necessary steps to assure that captured property tax revenues collected in excess of the amounts permitted by the agreement are returned to the County on an annual basis.

C. The County recognizes that some economic development projects may not be strictly public infrastructure and will consider other project proposals related to high technology activities as defined in section 3 of the MEGA legislation, PA 124 of 1995 (MCL 207.803) as necessary.

D. The County Economic Development Corporation is designated as the county agency responsible for evaluating requests for the capture of county property tax revenues as to conformance with this policy, and shall recommend approval or disapproval of any such proposed agreement to the Board of Commissioners.

1. Upon receipt of a request for the capture of county property tax revenues, a copy of that request shall be forwarded to the County Economic Development Corporation for review and comment.

2. A resolution responding to the request as provided by this policy shall be placed on the appropriate committee agendas for consideration and final action by the Board of Commissioners within the sixty (60) day statutory requirement.

3. County Commissioners may also consider other relevant issues regarding the agreement proposal including the possible environmental impact of the projects proposed in the agreement.

E. An initial rejection by the Board of Commissioners of a county property tax revenue capture request may be rescinded if and when a tax sharing agreement that meets the conditions of this policy is reached.

RESOLUTION REAFFIRMING SUPPORT FOR LEGISLATION TO “RAISE THE AGE” FOR JUVENILE OFFENDERS IN MICHIGAN

RESOLUTION # 19 – 095

WHEREAS, the Ingham County Board of Commissioners adopted Resolution 17-507 Supporting Legislation to “Raise the Age” for Juvenile Offenders in Michigan; and

WHEREAS, Michigan remains one of four states in the U.S. that automatically prosecutes 17-year-olds as adults, regardless of the severity of the crime, which is unaligned with national best practices, U.S. Supreme Court decisions, and Michigan’s other governing laws that define “youth” as any individual under the age of 18; and

WHEREAS, the majority of 17-year-olds entering the criminal justice system are arrested for nonviolent, misdemeanor offenses, many of whom would be eligible for diversion in the juvenile justice system; and

WHEREAS, research on adolescent brain development shows that teens are more inclined to take risks, act impulsively, and succumb to peer pressure, which may lead to delinquent behavior, yet are very responsive to rehabilitative programs and behavior modification during these formative years; and

WHEREAS, recent research from the Justice Policy Institute shows that projected costs associated with raising the age of juvenile jurisdiction to 18 were consistently overstated and that states that have raised the age to 18 have instead contained costs by reallocating funds to keeping young people in the community, thus reducing confinement and improving community safety; and

WHEREAS, research shows that youths tried before an adult court were 44% more likely to be re-arrested for felony property crimes and 85% more likely to be re-arrested for violent crimes compared to those tried before a juvenile court; and

WHEREAS, when adolescents are tried as adults, their conviction data is public and thus accessible to employers and other professionals resulting in lifelong consequences, including significant barriers to accessing housing, employment, and higher education, and these obstacles lead to a lifetime of poor physical and mental health outcomes; and

WHEREAS, the juvenile justice system prioritizes developmentally appropriate community-based programs and diversion services designed to rehabilitate and encourage family involvement in treatment, but these programs and services are not made available to 17-year-olds in the adult system; and
WHEREAS, according to the Center for Disease Control, prosecuting youths as adults increases recidivism, and states that have transferred their 17-year-olds to the juvenile justice system have experienced improvements in public safety (Justice Policy Institute, 2017); and

WHEREAS, the “Raise the Age - Youth In Prison” legislative package, including House Bills 4133, 4134, 4135, 4136, 4137, 4138, 4139, 4140, 4141, 4142, 4143, 4144, 4145 and 4146, and Senate Bills 84, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101 and 102, was reintroduced to the Michigan Legislature recently to raise the age of juvenile court jurisdiction from 17 to 18 years of age.

THEREFORE BE IT RESOLVED, that the Ingham County Board of Commissioners hereby urges the Michigan Legislature to pass the “Raise the Age - Youth in Prison” package, including House Bills 4133, 4134, 4135, 4136, 4137, 4138, 4139, 4140, 4141, 4142, 4143, 4144, 4145 and 4146, and Senate Bills 84, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101 and 102 to align Michigan’s procedures with standard national practices and raise the age of juvenile court jurisdiction from 17 to 18.

BE IT FURTHER RESOLVED, that the Board of Commissioners further urges the Legislature to monitor and adopt an appropriate funding mechanism through the Department of Health and Human Services to cover the additional costs associated with increasing the age of the juvenile court jurisdiction from 17 to 18.

BE IT FURTHER RESOLVED, that the County Clerk shall send copies of this resolution to the Governor of the State of Michigan, Ingham County’s State Legislative delegation, and the Michigan Association of Counties.

LAW & COURTS:  Yeas: Koenig, Slaughter, Crenshaw, Polsdofer, Trubac, Schafer
Nays: None    Absent: Celentino    Approved 02/28/2019

Commissioner Koenig moved to adopt the resolution. Commissioner Slaughter supported the motion.

Commissioner Slaughter stated he had previously worked on this issue and had encouraged former Commissioner Kara Hope to take this issue up. He further stated that this was an important issue making sure young individuals had opportunities to enter into programs that could ultimately put them on the right path, not just in jail.

Commissioner Koenig stated that Michigan remained one of four states that automatically prosecuted 17-year-olds as adults and she hoped everyone would get on board, as some states were already proposing to raise the age to 21-years-old.

The motion carried unanimously. Absent: Commissioner Naeyaert.

WHEREAS, Health care costs continue to rise for all Americans and, for some Americans, this increase can be devastating; and
WHEREAS, Medicare is the focus of many lawmakers who portray it as an "entitlement" program that costs the Treasury too much money. Technically, the term "entitlement" is correct but it has an unfortunate connotation; and
WHEREAS, Medicare is an essential medical plan that millions of seniors and disabled individuals depend upon to stay alive. Medicare is not a gift, as the term "entitlement" suggests. Many of the beneficiaries have worked their entire adult life and paid into the system in order to receive this crucial medical plan; and
WHEREAS, Due to spiraling costs largely associated with the price of prescription medications, our elected officials find themselves passing on increased costs to those who can least afford that increase, namely senior citizens and disabled individuals who are on Medicare's Part D Drug program; and
WHEREAS, When congress enacted Medicare Prescription Drug Bill they enacted a law that does not allow Medicare to negotiate with pharmaceutical companies for drug price the way Medicaid and the Veterans Administration does; and
WHEREAS, One economist, Dean Baker, estimates that Medicare could have saved approximately $332 billion dollars between 2006 and 2013 (approximately $50 billion a year) had the Department of Health and Human Services been permitted to negotiate prices of drugs with the drug companies, as federal agencies do in other programs; and
WHEREAS, Rising prescription drug costs have been the primary reason for the increase in health benefit costs; and
WHEREAS, The increasing cost of prescription drugs and outrageous profits made by pharmaceutical companies is a systemic problem that significantly affects our state and our nation. It deserves non-partisan effort; and
WHEREAS, We must prevent our elected officials from balancing the budget on the backs of those who can least afford it, the elderly and disabled. Increases in premiums and drug costs are unacceptable. Ways to deal with a flawed Medicare Prescription Drug Bill; and
WHEREAS, We must preserve the Medicare program as it currently exists and to do so requires immediate action to cut unnecessary costs, particularly in the area of prescription drug coverage; and
WHEREAS, We must revise the Medicare Prescription Drug Bill of 2003 to allow negotiating lower drug prices and the importation of identical, cheaper, drugs from Canada and elsewhere; and
WHEREAS, We cannot allow the previously approved bill to stand as adopted at the risk of having the Medicare program be the cause of a staggeringly increasing deficit which will require tax increases or cuts to the rest of the government, nor can we allow the continuance of price increases to our citizens cause many to contemplate discontinuing medically necessary drugs in order to pay their bills, heat their houses and have food on the table; Therefore, Be It Further...
RESOLVED  That the Cheboygan County Board of Commissioners goes on record urging our Legislators to immediately commence the process of revising the Medicare Prescription Drug Bill of 2003 to allow negotiating lower drug prices and the importation of identical, cheaper drugs from Canada and elsewhere; Bell Further

RESOLVED  That a copy of this resolution be forwarded to our area Federal and State Legislators, the National Association of Counties, the Michigan Association of Counties and the other Michigan Counties.

Dear Cindy,

Please accept this email as my resignation from the Potter Park Zoo Board. Unfortunately my schedule no longer allows me to regularly attend meetings. It is only fair that someone who can dedicate the deserved and necessary time to the zoo has the opportunity to serve.

I have greatly enjoyed my time serving on the board and am so proud of all the amazing work you and your team have done, and will continue to do.

I plan to stay engaged, volunteer for events, and support the zoo however I am able. I’ve greatly enjoyed and appreciated this opportunity. Thank you.

Best wishes,

“Wayfinding provides guidance and the means to help people feel at ease in their surroundings.”

- Gibson
A wayfinding system is an important tool for helping people navigate and fully experience an area. Well placed signage ensures that people can safely reach desired destinations. It also can help people discover new areas of interest in an impromptu way. Good wayfinding design fits and even enhances the unique character of an area.

The first trail systems in Ingham County were developed in the mid-1970’s in the City of Lansing. Lansing has been expanding sections of its River Trail ever since. Other communities started planning and developing trail systems starting in the 1990’s. These trail systems have connected to each other and to trail systems beyond the county limits.

Wayfinding signs are needed by Ingham County visitors and residents to navigate their land and water trail systems that can often disorient the user, even when they are familiar with the area. Good wayfinding signs make directional information clear through sign placement, content, graphic design and text clarity. Consistent design elements are essential to the success of wayfinding signs. When a user can easily identify wayfinding information through the visual cues of color and type continuity, content information can be comprehended more quickly.

Currently there is a lack of wayfinding on most trails in the County and where it is present there is no consistency in physical design and frequency of signs along the trails. Some communities have signage and some do not. Existing signage has gaps in terms of destinations (that should be signed to, but aren’t), routes (that are important travel routes but don’t have signs), and branding (current signs represent a hodgepodge of designs). For trail users, there is no consistent look and feel that helps them get from place to place or that makes them feel that they are in a place that is pleasant and that cares to make traveling easier and more enjoyable.

Working with stakeholders throughout the Ingham County communities, a trail wayfinding system was developed. The wayfinding signs were designed to be cost effective and adaptable, and to maintain the unique visual identity established within the Ingham County Trail system.
This plan develops a family of wayfinding signage that creates a visual identity for the system and presents a consistent, unifying graphic style to enhance the branding or image of the Ingham County trails. Ingham County is home to Michigan State University, Lansing Community College and the State Capitol and draws visitors from all areas of the country and from international locales. Student populations bring a high rate of turnover of residents adding to the need for an effective wayfinding system.

The wayfinding system will be organized throughout each community’s trail system and to major attractions and destinations within Ingham County. Visitors and residents, whether travelling by bike or on foot, will be directed to these places through an attractive signage system. The design of the wayfinding system, inherent to the character of the region and the uniqueness of the people, culture, history and natural environment, will support the development of a sense of place as one moves along the trails.

The Ingham County Trail Wayfinding Signage Plan develops a wayfinding system for all trails within the County and lays the foundation of the system for pedestrians and bicyclists. A consistent wayfinding system on all trails within Ingham County will enhance the use of the public amenities, especially the parks, trails and downtown areas, providing, aesthetic, safety, health and economic benefits to the community.
HISTORY

Throughout Ingham County trail systems have been developed over the past 50 years with the earliest trail system in the City of Lansing in the 1970’s. Piece by piece that trail system has expanded across multiple communities within the County. Signage for these trail systems has been implemented on an individual basis which has resulted in inconsistencies in message and in incongruous look. It was found that once on the trail systems, it is difficult for users to clearly understand where they are. In an effort to implement clear, consistent, and effective signage through Ingham County Trail systems, the stakeholders of the Ingham County Trails and Parks Wayfinding, have worked to create this Wayfinding Plan.

With the passage of the Trails and Parks Millage in November 2014, the County first developed the Comprehensive Plan for Trails and Parks. This plan was developed to guide the expenditure of trails and parks millage funds. The plan was adopted by the Ingham County Board of Commissioners on March 22, 2016, by resolution # 16-107. Wayfinding was touched on in the plan.

With the completion of the comprehensive plan, Ingham County Parks developed a list of stakeholders. The stakeholders are comprised of staff from all local units of government within the County, the Trails Ambassador, Tri-County Regional Planning staff, Ingham County Park staff, park commissioners and board of commissioners, Friends of Ingham County Parks and other organizations, local businesses and individuals with an interest in trails. The list of stakeholders is a living document that changes with staffing, and new interested parties. A complete list of stakeholders can be found in Appendix B of this plan.

MEETINGS

The stakeholders were notified of the first meeting, held on June 16, 2016. This was an initial meeting to discuss how to move forward with wayfinding. It was determined to add this as a task in the request for proposals (RFP) that was being developed for a consultant.

In January 2017, the County hired Spicer Group as their consultant to assist with the Trails and Parks Millage projects, including Wayfinding.

With Spicer on board, the stakeholders were notified of the kick-off meeting to develop the Wayfinding Plan. This meeting was held on May 5, 2017. The discussions at the meeting concentrated on looking at wayfinding concepts, using the TART (Traverse Area Recreation and Transportation) trail system as an example, and developing a timeline for the development of the plan. Ingham County 911 was also brought into the discussion to discuss any signage needs.
The Wayfinding information to be presented at the June 29th stakeholder meeting was taken to the Ingham County Park Commission on June 26, 2017 as a discussion item.

The second meeting was held on June 29, 2017. The focus of this meeting was to review sign designs that were developed based on the input from the previous meeting. The committee also discussed sign sponsorship, mile markers and numbering, the schedule and correspondence from Commissioner Gregner.

The third meeting was held on August 10, 2017. The committee discussed sign revisions that were made, had further discussion about mile markers and numbering, had discussion about trail striping, reviewed the schedule and reviewed correspondence from Park Commissioner Gregg and Mike Smith at MDOT. Based on the correspondence from Mike Smith, an MDOT grant to fund the wayfinding was discussed with the MDOT timeline for submittal.

On September 25, 2017 a smaller committee of the stakeholders met to discuss sign sponsorship. This group was comprised of Jeff Smith (Friends of IC Parks), Lauren Ross (Trails Ambassador), Cherry Hamrick (IC PC), Tim Morgan (IC Parks Director) and Tanya Moore (Spider Group). The group determined the size and cost of sponsorships and implementation of sponsorships.

The fourth meeting of the stakeholders was held on October 5, 2017. A draft of the Wayfinding Plan was presented at this meeting. The plan was sent to stakeholders prior to the meeting so they could review it and be prepared to discuss the plan. Discussion at this meeting also included funding of the signs, an overview of FLRT’s proposal for sign sponsorship and the schedule.

On November 13, 2017, the draft Wayfinding Plan was presented to the Park Commission. The Park Commission passed a resolution recommending adoption of the plan to the Board of Commissioners (BOC).

On February 20, 2018, the Wayfinding Plan was presented to the Park Commission with implementation proposed to request funding for and MDOT TAP grant. The Park Commission requested more information and tabled the item.

On March 9, 2018 we held a fifth meeting with the stakeholders to discuss implementation of the plan, submitting the wayfinding for an MDOT TAP grant for funding, and having each community take an inventory of their existing signs, determine what and how many wayfinding signs would be needed and we reviewed the schedule.

At the March 18, 2018 Park Commission meeting a revised plan was reviewed. The Park Commission passed a resolution recommending the Ingham County BOC adopt the Ingham County Wayfinding Plan.

At the July 23, 2018 meeting, the Park Commission recommended approval of the implementation of the signs to submit a MDOT TAP grant to help fund the signs.
The Trail Wayfinding Plan was presented to the Ingham County BOC on August 20, 2018. The BOC tabled adoption of the plan.

The Wayfinding Plan has been further discussed since at Park Commission meetings on September 17, 2018 and December 10, 2018.

PLAN DEVELOPMENT
Taking all of the stakeholder input into account, the Wayfinding Plan was developed with the following goals. The goals guide the development of the plan, and set the foundation for a wayfinding system and the design of the family of wayfinding signage.

1. Provide sign system that is legible, informative, easy to install, cost effective and easy to maintain.
2. Guide trail users through the trails and enhance their understanding and experience.
3. Provide comprehensive, clear, consistent visual communication with concise messaging that requires minimal thinking.
4. Provide only the information that is needed and relevant to the space, location or navigation path.
5. Present a unique identity /branding of the trail systems within Ingham County.
6. Link attractions and destinations of the county.
7. Integrate with existing wayfinding systems (i.e. Ingham County 911).

Sign designs were developed as a “family of signage” to be flexible to fit multiple communities and allow for some customization by each, if desired. This family of signs included informational, directional, identification and warning information. The system includes information to aid in emergency medical services and has been designed to be accessible and used internationally symbols for non-english speakers.

Once implemented, the family of signs will provide Ingham County with better trail systems that will solve navigation issues, enhance safety and security and promote a sense of place.
SIGN DESIGN GUIDELINES

The Ingham County Trails Wayfinding Sign Design Guidelines were developed to create a consistent message for the land and water trails within Ingham County. The consistent visual elements will inform residents and visitors that they are using a trail within Ingham County.

The guidelines outlined in this manual will help partners develop signs that can be customized for individual sites. The purpose of this sign system is to provide a flexible framework for Ingham County’s Trail partners to help tell the story of their site(s). After the signs are installed their information will be entered into the Ingham County database.

The Wayfinding system developed for the Ingham County Trails consists of three tiers of different signs as follows (detailed drawings can be found in appendix A):

MAP / TRAILHEAD SIGNS

Map and Trailhead signs are large signs designed to be placed at trailhead locations or major entry locations along the trail system. The signs are designed to stand vertically so they attract attention. The signs can be mounted simply on 2 posts, or a more decorative structure. The map shown on the sign will inform trail users about their location, local attractions, trail amenities such as restrooms and parking and trail distances. The sign would also include any regulations. Regulations should be worded in a positive manner. For example, instead of saying “No littering”, say “Please leave the park as you would like to find it.”, or “Please help keep the Parks and Trails Clean.”

The blue/orange background with white lettering is the unifying portion of the sign, while the top portion (shown green) of the sign allows each community to individualize their sign, with color, logo and trail identity.
TRAIL BLADES

Trailblades serve multiple functions depending on their placement. They can identify mileage, upcoming trailheads, trailside amenities and points of interest. These signs should be placed at key decision points along the trail so that trail users can easily determine which direction they would like to travel.

When installed along the trail, signs will need to meet MMUTCD (Michigan Manual on Uniform Traffic Devices) requirements for placement and height. These requirements can be found on Figure 9B-1 (Sign Placement on Shared Use Paths) in the MMUTCD manual. A link to the manual can be found in the “Regulatory / Warning Signage” section of this report.

The blue/orange background with white lettering is the unifying portion of the sign, while the top portion (shown green) of the sign allows each community to individualize their sign, with color, logo and trail identity.

MILE MARKERS

Two types of mile marker signs have been developed. The first, displays the mileage, street name or location and amenities that can be found at that location. The second type displays only the mileage and street name or location.

The Lansing River Trail system currently has had 1/4 mile markers in place for over 20 years. The stakeholders thought it would be best to keep 1/4 mile increments for the mile markers, however each individual community can determine the increments that best fit their trail system or community. In densely populated areas where access points are numerous, it may be more advantageous to have ¼ mile increments. Where the trail is straight with few access points, it may work with larger increments, like ½ mile.

The blue/orange background with white lettering is the unifying portion of the sign, while the top portion (shown green) of the sign allows each community to individualize their sign, with color, logo and trail identity.
REGULATORY / WARNING SIGNAGE

Any regulatory signage placed on the Ingham County trail system will meet the requirements of the Michigan Manual on Uniform Traffic Control Devices (MMUTCD). The MMUTCD manual can be found at:

ON ROAD

Some of the trail routes in Ingham County will be on-road routes where users will “share the road” with vehicular traffic. Where an on-road system is present, the wayfinding should consist of road signs to identify the trail and/or pavement markings to guide users to their destinations. Signs are typically placed at decision points along the route – typically at the intersection of two or more roads or trail systems and at other key locations.

These signs must meet MMUTCD (Michigan Manual on Uniform Traffic Devices) standards and will require approval by the local or state road authority.

PAVEMENT MARKINGS

Pavement markings can be installed to help reinforce routes and directional signage and to provide bicyclist positioning and route branding benefits. Under urban conditions, pavement markings may often be more visible than signs to users of the route. Pavement markings may be especially useful where signs are difficult to see (due to vegetation or parked cars). They can also help bicyclists navigate difficult turns.

Pavement markings need to be strategically placed as they can create slippery conditions on the trail surface.

These pavement markings must meet MMUTCD (Michigan Manual on Uniform Traffic Devices) standards and, if on road, will require approval by the local or state road authority. A link to the manual can be found in the “Regulatory / Warning Signage” section of this report.

BRIDGE MARKING

For both the land and water trails, there are numerous road bridges which span across the rivers, or that the trail crosses over/under. These bridges should be signed with the road name and the river name. The river name should be signed with the river name from the view of the water trail user and the land trail user. The bridge signs are designed to provide locational information. No logos or extraneous information are included on the bridge signs. The lettering size will be determined on a case by-case basis and is based on several factors. The distance of the bridge deck to the water surface, the span of the river at the bridge location, and the speed of the water flow are all considered. These calculations are based on accepted letter sizing guidelines for maximum visibility ranges.

WATER TRAIL SIGNS

Ingham County contains the Grand River, the Sycamore Creek and the Red Cedar River. Water Trails have been identified along the Grand and Red Cedar rivers, in the Trails and Parks Comprehensive Report completed in 2016.
Signing of the water trails is a major priority in Ingham County and safety is the primary focus of these signs. Water landing trailhead and trailblade signs will follow the templates laid out in the Land Trail section. Smaller scale landings may use water landing trailblades to inform users. The side of the trailblade facing the river identifies the landing name and available amenities, such as restrooms, parking, or picnic facilities. The side of the trailblade facing land shows the landing name and the next two significant points of interest downriver. The signs provide a unifying element that identifies the landing as part of the overall trail system.

It was determined that it would be difficult to use mile markers along the river corridors due to the large amount of the land being privately owned. Design and installation of all signs along the water corridors needs to take into consideration the flooding and ice conditions that occur.

WATER TRAIL WARNING SIGNS

There are areas on the river that require portages or should only be attempted by experienced paddlers. Warning signs are designed to alert paddlers of upcoming situations that may require caution or portage. These signs must be sited far enough upstream to allow for action, but not so far upstream as to lose correlation to the significant point on the river. The ideal site will most often be the nearest bridge upstream due to the instability of the shoreline or excessive vegetation at the river's edge. If shoreline installations are unavoidable, installation details must be carefully planned due to the corrosive action of the river during high water events. It is desirable that shoreline warning signs are standardized due to the increased possibility of sign loss and the costs associated with replacement. Warning sign text must be as concise as possible so that font size can be maximized. No logos or extraneous information are included on the warning signs.

INTERPRETIVE SIGNS

Interpretive Signs tell a story about the historical, cultural, educational or natural resources. The ultimate goal in telling a story is to personally connect with visitors-something they value and wish to preserve for their children and grandchildren. Good interpretive signs do more than provide information. They are rich, evocative stories presented in a graphically pleasing composition. Since some visitors may have a limited amount of time to take in all the elements of a site, partners should avoid the temptation to "information-overload." Identify the points of information you wish to convey and prioritize the most relevant. Thought must also be given to the siting of interpretive signs. Partners will want to provide interpretation without obscuring or detracting from the views to the resource. Interpretive signs should be available but should not dominate the setting. Communities are encouraged to creatively tell the story of their site with as
little graphic limitations as possible. Each community will be responsible for formulating the content and layout of the interpretive material about the particular site. There are many sources for obtaining information and developing sign content. One local source to the Ingham County region is the Michigan History Center through the Heritage Trail Coordinator, Daniel Spegel, (517) 420-6029, spegeld@michigan.gov.

All interpretive signs should be accessible to people of all abilities with access to and around them, adequate maneuvering space and options for receiving the information (i.e. QR codes). The National Park Service has developed a document, Programmatic Accessibility Guidelines for National Park Service Interpretive Media, which is a great resource and can be found at: https://www.nps.gov/hfc/pdf/accessibility/access-guide-aug2009.pdf

Interpretive Signs are available in many styles and mounting options.

TRI-ANGULAR KIOSK
The Ingham County Trail Wayfinding signage system strives to allow design flexibility for partners developing signage for their specific sites. Consistent design elements signal that these signs are part of a larger system. To maintain the visual continuity throughout the county’s trail area-wide sign system, elements like fonts (typefaces) and color must be consistent.

**FONTS**

Typography is fundamental to graphic design standards. Consistency in typography throughout the sign system aids the user in identifying and comprehending the information presented.

The font has been chosen for readability, ADA compliance, and accessibility, and as such, must not be changed. **Myriad Pro** is the preferred font for all Ingham Trails Wayfinding signs.

If the Myriad Pro font is unavailable, Arial may be used with specific substitution standards.

**COLORS**

The blue colored background was chosen for its compatibility with other colors. The colors have been tested for color blindness and have passed in all areas of this testing.

It is important that partners adhere to these colors. The integrity of these base colors provides a visual cue that the viewed sign is part of the Ingham Trails area-wide sign system.

**Background Color, Top portion of Sign:** (shown green) C:63, M:0, Y:57, K:28; Each community can choose to use the standard green color or may substitute any color of their choice to individualize the sign, only on the top portion of the sign.

**Background Color, Bottom portion of Sign:** (Dark Blue) C:85, M:58, Y:0, K:69

INTERNATIONAL SYMBOLS

The Ingham County Wayfinding Sign system will utilize the internationally accepted sign symbols, as defined by the Bureau of Land Management, which were derived from the Manual of Uniform Traffic Control Devices (MUTCD), and adaptations from symbols from the National Science Center for Technology (NSTC) and the U.S. Forest Service.

These symbols can be downloaded from the internet as a font set. Examples of some of these symbols area as follows:
IMPLEMENTATION

The implementation strategy presented here is a plan for realizing the wayfinding signage system on all Ingham County trails.

Implementation of the wayfinding and interpretive signage system is proposed to occur initially on the entire developed trail systems, both water and land, within Ingham County. This will require each community to provide a list of the desired signs, quantity and type, to the County. The initial phase of the sign implementation will be funded with the Ingham County Trails and Park Millage and a possible state grant through MDOT and/or the DNR.

After the initial phase of implementation on all the developed trails, each community will be required to include wayfinding in their future trail projects.

FUNDING

The Ingham County Trails and Park Millage may be used as leverage for State/Federal funds through grant programs in Michigan, such as programs administered by MDOT and/or the DNR.

The steps for funding wayfinding signs are as follows:

1. Each municipality will determine their wayfinding sign locations, type and quantity for each type of sign.
2. Each municipality will communicate their sign needs to the County.
3. Ingham County Parks will develop and submit a grant application for all signs for each trail systems county-wide.
4. If the grant is awarded, the County will oversee construction documents, bidding and contract installation.
5. After the initial funding and installation, signs should be included as a scope item in each municipality’s future grant application.

Each municipality will be responsible for any interpretive signs they choose to install.
SIGN SPONSORSHIP

Sign sponsorship will be managed by the Friends of the Lansing Regional Trails (FLRT), through the work of the Trails Ambassador position. Through FLRT different levels of sponsorship will be available. Sponsors can choose which level of sponsorship fits their needs by either sponsoring a mile marker, a trailblade or a trailhead sign.

The funds raised through the sponsorship program will be managed by FLRT. It was proposed that 20% of the funds raised will be earmarked for maintaining the sponsorship signs, while the other 80% will assist with funding the Trails Ambassador position and program.

FLRT has been working with Tri-County Regional Planning to map the entire trail system within the County into GIS. Once the wayfinding signs are in place, they will be added to the GIS system. Interested sponsors can contact FLRT through their website at www.lansingtrails.com. When the signs are not sponsored, the text will read, “GET INVOLVED! SPONSOR THIS SIGN: (517) 676-2233, www.lansingtrails.org”.

The following sponsorship levels will be available:

**LEVEL 1:**
8” x 2’-0” on the base of the Trailhead Map Sign

**LEVEL 2:**
6” x 8” on the base of the Trailblade Sign

**LEVEL 3:**
4” x 6” on the base of the Mile Marker
CONSTRUCTION / INSTALLATION

The drawings for each type of sign can be found on the following pages.

INSTALLING SIGNS

In order to maintain a consistent level of quality and longevity, sign partners must comply with the minimum standards in construction detailing and specifications.

Partners and/or their contractors are responsible for obtaining any and all permits required by law regarding the installation of signs and shall comply with all legal and safety requirements governing the work shown in the details.

Contractors shall notify Ingham County Parks and/or FLRT (Friends of the Lansing Regional Trails) of any discrepancies in the details or design templates.

SIGN DETAILS

The posts for all signs along the trails should be a break away post.

Where applicable along the trails, it is preferred to have each sign 2-sided instead of having signs on both sides of the trail in order for the information to be visible for users from both directions.

Clear Zone: All trail side signage will be installed a minimum of 2 feet from the edge of the trail surface.
MAINTENANCE / MANAGEMENT

Maintenance is an important part of any sign program.

The Friends of the Lansing Regional Trails (FLRT) through the work of the Trail Ambassador position, will work closely with each community to monitor the signs and set up a maintenance plan for cleaning, repair and replacement. As a partner in the Ingham County Trail System, these signs will be entered into a GIS-based database maintained by FLRT and Tri-County Regional Planning. This provides a storehouse of information about all wayfinding sign information. This database will include location, design, installation features and a photo of each sign. FLRT will work with partnering organizations to develop a process for keeping the database up to date.

PEDESTRIAN BRIDGE WEIGHT LIMITS

Pedestrian bridge weight limit signs should be maintained as part of the Ingham County 911 database.

UNIQUE NUMBERING SYSTEM

As the Ingham County Land and Water Trails continue to be a popular destination, the safety of users is critical. Working with Ingham County 911 and other wayfinding stakeholders, it was determined that each mile marker sign should not only have the trail system identified, but also have a unique number. This system will provide water and land trail users with reliable locating information in the event of an emergency. Each number will be unique and will be coordinated with local 911 services’ databases and will be permanently recorded in the Ingham County database along with other sign management information.

Introduced by the Human Services and Finance Committees of the:

INGHAM COUNTY BOARD OF COMMISSIONERS

RESOLUTION TO AUTHORIZE A CONTRACT WITH SIGNS BY CRANNE

RESOLUTION # 19 –

WHEREAS, the Purchasing Department solicited proposals from firms experienced in designing and fabricating custom wayfinding signs for its Trail Wayfinding Signage project; and

WHEREAS, after careful review and evaluation of the proposals received, the Evaluation Committee recommends that a contract be awarded to Signs by Crannie.

THEREFORE BE IT RESOLVED, that the Ingham County Board of Commissioners hereby approves entering into a contract with Signs by Crannie in the total amount not to exceed $281,427.77 from the Trails and Parks Millage Fund for the designing and fabricating custom wayfinding signs for its Trail Wayfinding Signage project.

BE IT FURTHER RESOLVED, that the Controller/Administrator is authorized to make the necessary budget adjustments consistent with this resolution.

BE IT FURTHER RESOLVED, that the Chairperson of the Board of Commissioners is hereby authorized to sign any necessary contract documents on behalf of the County after approval as to form by the County Attorney.

WHEREAS, House Bill 4249 has been introduced by Representative Hoitenga in the Michigan Legislature and would amend the Emergency 9-1-1 Service Enabling Act, P.A. 32 of 1986, as amended by 2008 P.A. 379, rescinding the requirements for Multi-Line Telephone Systems (MLTS) to provide an Emergency Response Location (ERL) for every telephone capable of dialing 911 on a multi-line telephone system by December 31, 2019 as required; and

WHEREAS, this bill’s proposed elimination of the requirements to provide ERL for every telephone capable of dialing 911 on a multi-line telephone would result in the 9-1-1 Center in Ingham County and centers around the state not getting accurate call location information in an emergency; and

WHEREAS, receiving accurate location information through the MLTS allows 9-1-1 operators to reduce the time of processing calls and as a result to dispatch first responders to the correct location, in situations where time saves lives; and

WHEREAS, the elimination of the requirements for MLTS to provide a ERL will result in calls being directed to the wrong 911 centers; and

WHEREAS, the elimination of the requirements for MLTS to provide a ERL will result in responders spending greater time finding the location of an emergency in large or multi-storied buildings; and

WHEREAS, the legislature provided extensions to the original deadline to meet the requirements in 2016 to the current deadline of December 31, 2019; and

WHEREAS, the membership of the Michigan Communication Directors Association is opposed to eliminating the requirements for the MLTS system due to its impact on the public’s safety around the state and here in Ingham County.

THEREFORE BE IT RESOLVED, that the Ingham County Board of Commissioners hereby adopts this resolution in opposition to House Bill 4249.

BE IT FURTHER RESOLVED, that copies of this resolution shall be forwarded to Governor Gretchen Whitmer, Representative Hoitenga, and the Ingham County state legislative delegation.

INTRODUCED BY THE LAW & COURTS, COUNTY SERVICES AND FINANCE COMMITTEES OF THE:

INGHAM COUNTY BOARD OF COMMISSIONERS

RESOLUTION TO AUTHORIZE CREATION OF A WITNESS MANAGEMENT ASSISTANT POSITION AND REORGANIZATION WITHIN THE INGHAM COUNTY PROSECUTORS OFFICE VICTIM/WITNESS UNIT

RESOLUTION # 19 –

WHEREAS, the Ingham County Prosecutors’ Office (ICPO) currently maintains a unit dedicated to providing direct services to crime victims as required by the Michigan Constitution, Michigan statutory law, and the corresponding federal laws; and

WHEREAS, this unit is staffed by victim advocates whose positions were previously partially funded through the Crime Victims’ Rights Fund administered by the Michigan Department of Health and Human Services (MDHHS); and

WHEREAS, the Board of Commissioners has approved a resolution (#19-071) to accept an amended grant increase from MDHHS of $83,150.00 which would allow the ICPO Victim/Witness Unit to be fully grant funded since the increase would cover salary and fringe benefits now paid for by the county; and

WHEREAS, once fully funded the Crime Victim Rights grant prohibits general witness management and notification services that are often performed by the Victim/Witness Unit; and

WHEREAS, witness management, witness notification, subpoena management, witness travel, lodging and transportation, and related duties are all functions essential to operation of ICPO and regularly performed by the Victim/Witness Unit; and

WHEREAS, these job duties will now need to be performed by a non-grant funded position to continue providing routine witness management functions, ICPO is seeking authorization for creation of a Witness Management Assistant position; and

WHEREAS, a job description has been created and the Human Resources Department has point-rated the job description and is recommending this position be classified UAW F (salary range $37,206 to $44,339); and

WHEREAS, the 2019 budget currently lists the county’s contribution to the Victim/Witness Unit to cover the grant shortfall at $73,805 and the grant increase would result in a savings to the county in that amount; and

WHEREAS, ICPO requests that savings be used to fund the new Witness Management Assistant; and

WHEREAS, it is desirable to have the position created so that ICPO may accept the grant amendment increase, stay in compliance with the grant terms, and further use the increased funding to assist crime victims.
THEREFORE BE IT RESOLVED, that the Ingham County Board of Commissioners authorizes creation of an ICPO Witness Management Assistant, effective immediately.

BE IT FURTHER RESOLVED, that the Controller/Administrator is authorized to make the necessary adjustments to the 2019 budget and position allocation list.
