1. **Innovation & Technology Department** - Resolution Authorizing an Amendment to Resolution #15-408 to Authorize the Use of Funds from the Community Health Center Fund for the IT Infrastructure of the Forest Community Health Center (FCHC)

MOVED BY COMM. NOLAN, SUPPORTED BY COMM. MAIVILLE, TO APPROVE THE RESOLUTION #15-408 TO AUTHORIZE THE USE OF FUNDS FROM THE COMMUNITY HEALTH CENTER FUND FOR THE IT INFRASTRUCTURE OF THE FOREST COMMUNITY HEALTH CENTER (FCHC).

Commissioner Nolan asked if the vendor was the best vendor to contact for the IT Infrastructure. She further asked if it was imperative that the Health Department have this done before moving into the Forest Community Health Center.

Linda Vail, Health Officer, stated that the IT Infrastructure must be in the Forest Community Health Center in order for the Health Department to operate there.

John Neilsen, Chief Deputy Controller, stated that the Center would not be open by the January 1st deadline if the IT Infrastructure went out to an RFP. He further stated that a local vendor, who the County had worked with previously, would be used as an installer. He stated by going with the local vendor, there was a high confidence that it was the best price.

Steve Walters, Network Administrator, stated that the pricing for the equipment did not vary much. He further stated by going with a local vendor, the price was going to be the cheapest.

Mr. Neilsen stated that expenditures were within the projected budget for the project.

Commissioner McGrain asked if any of the vendors were questioned about or implicated in anything.

Mr. Neilsen stated that he had no reason to believe so and that the discussion was not had.

Commissioner McGrain asked who would have made the recommendations for the vendors.

Mr. Neilsen answered that they came from the IT Department.
Commissioner McGrain asked if there was a threshold of costs for when a committee would review the recommendations.

Mr. Neilsen stated that there was none for purchasing IT equipment. He further stated that Jared Cypher, Deputy Controller, recommended doing a Request for Proposal (RFP), but quotes were done instead. He stated that the main concern was not the equipment, but finding a vendor who would install it.

Commissioner McGrain stated that he would support the resolution.

THE MOTION CARRIED UNANIMOUSLY.

3. Health Department
d. Discussion: Letter of Support for Groundwater Testing in Williamstown Township

There was a discussion regarding the Letter of Support.

Ms. Vail reviewed correspondences with Commissioner Schafer regarding the Letter of Support.

Commissioner Maiville clarified that since there was not a letter, it was difficult to have a clear discussion about it. He stated that he would support a letter because it was important for citizens that used well water.

Chairperson Tennis stated that more details about the letter were needed to move forward.

There was a discussion about obtaining a letter.

Commissioner Anthony stated that she would be in support of a letter as long as the letter explicitly stated that the Health Department could not support the City of Williamston with their resources.

Commissioner Banas asked that if it was not time sensitive, could it be done through the Health Department. She further asked if the Tri-County Regional Planning Commission could help.

Commissioner McGrain answered that there was a meeting with the Tri-County Regional Planning Commission, but they had the impression that they were committing resources that didn’t exist.

Commissioner Banas asked where governmental responsibility lied to ensure that groundwater was safe.

Ms. Vail stated that it lies with the Department of Environmental Quality (DEQ) because it was not a mandated service. She further stated that it’s only done by the government when triggered by an event.
Commissioner Maiville asked what was being checked by the County in regards to the point of sale program.

Ms. Vail answered that it was not as extensive as when it was done as a point of sale.

Commissioner Naeyaert asked if the Health Department relied on the rural municipalities to report water issues.

Ms. Vail answered that the City would be in charge of it.

Commissioner Naeyaert stated that people in the out-county are more reliant on well water.

Commissioner Maiville clarified that the main concern was who would pay.

There was a discussion on the cost of the study.

Commissioner McGrain stated that he was unclear on what the County’s role in monitoring drinking water was.

Chairperson Tennis stated that there was no statutory requirement because underground well water testing was not mandated.

Ms. Vail stated that the Health Department would monitor ground water if there were sources of pollution or areas of concern.

Commissioner McGrain stated that he would like a statement for the Commissioners outlining information regarding the County’s role in monitoring drinking water.

Ms. Vail stated that ensuring safe groundwater was not a priority of the Health Department, but it was still important.

Commissioner Banas asked what percentage of the county used well water.

Ms. Vail stated that she did not know.

There was a discussion regarding well water.

Mr. Neilsen clarified that the Committee was comfortable with a letter of a support from Ms. Vail as long as the City of Williamston indicated what they wanted, and the letter stated that the Health Department could not commit resources.

Commissioner Maiville thanked Ms. Vail for her work on the electronic smoking device resolution.
Commissioner Banas thanked Ms. Vail for her work on the electronic smoking device resolution and complimented her on how she worked with local vendors.

This resolution authorizes the conversion of position #601192, currently a .75 FTE Medical Assistant I (UAW Grade 1) to 1.0 FTE Medical Assistant I. Through Resolution #15-375, Ingham County Health Department (ICHD) accepted $215,200 of Health Center Expanded Services funds from the U.S. Department of Health and Human Services’ Health Resources and Services Administration (HRSA) for the period of September 1, 2015 through August 31, 2016.    a. Resolution Authorizing Expansion of Current Mental Health Screening Services in the Ingham County Jail to Include on Call Personnel for Weekends and Holidays

This resolution authorizes expansion of current Mental Health Screening services (known as the CATS Program) in the Ingham County Jail to include on call personnel for weekends and holidays. Currently, CMH provides 1.5 FTE employees Monday-Friday, 8:00 a.m. – 4:30 p.m. that provide mental health screening and referral for individuals who are flagged by ICJ staff at booking or during incarceration as having possible suicide risk or mental health symptoms. There are no CMH staff available at ICJ from 5:00 p.m. Friday through Monday morning or on holidays. This leads to some inmates being held in observation up to 3 days before being seen by a Mental Health professional. Without CMH staff available, the deputies at the Ingham County Jail are left with the burden to determine severity. The Ingham County Sheriff’s Office and CMH Administration worked to develop a proposal for on call Mental Health services that would be available Friday evening through Monday morning; and holidays. The cost for this coverage is $30,000 annually, and is included in the 2016 budget.

ABUSE IN LATER LIFE – COORDINATED COMMUNITY RESOURCE PROJECT – LANSING/INGHAM COUNTY

'Abuse in later life' (ALL) is a term with which we must become more familiar as the numbers of those aging over 50 years increases in our community. ALL encompasses the physical, sexual, mental, emotional, and/or financial exploitation experienced by a growing number of men and women over the age of 50 in our community. To address the special needs of this population in the Lansing/Ingham County area, a Coordinated Community Response (CCR) Partners group was formed through a grant through the Department of Justice / Office of Violence Against Women, which concluded September 30, 2015. The CCR is currently seeking support to continue victim services and preventive initiatives to a growing and exceptionally needy population.

The CCR represents services across our community, including the Tri-County Office on Aging, the City of Lansing, the Lansing Police Department, Elder Law of Michigan, End Violent Encounters (EVE), Advent House Ministries, Loaves & Fishes Ministry, as well as area financial institutions, hospitals, and senior living centers. Over the last three years this partnership has resulted in the following:

- **Outreach** to thousands of Lansing/Ingham County residents to build awareness of ALL;
- **Support** for the increase in use by women over 50 of the domestic violence shelter resources at EVE (grew from less than 1% to over 25% in three years);
- **Development** of Transitional Housing options at Loaves & Fishes Ministry and Advent House Ministries, through which women can live independently in a supportive environment for up to 2 years while they gain stability;
- **Consistent engagement** among key services, such as Adult Protective Services, law enforcement, and financial institutions, to promote strategic planning, understanding, and cooperative action;
- **Direct assistance** to over 200 women and men in our community.

With this proposal, we are seeking support to continue this effort and expand its impact to match the growing needs in our community. Specifically we seek to:

- **Enhance** the current multidisciplinary CCR Partners by supporting the strong cooperation between the Tri-County Office on Aging (TCOA) and End Violent Encounters (EVE) to identify and assist victims of elder abuse, to address service gaps and needs in response systems, to reach out to additional organizations that serve older adults, and to intensify the focus on financial exploitation;
- **Ensure** long-term support by hiring a full-time staff/consultant to provide advocacy to victims, serve as a liaison to the CCR and its members, coordinate with other local agencies (e.g., Adult Protective Services, the Lansing Police Department, and other similar organizations), and provide outreach to the community;
- **Create** an interdisciplinary team/Community Response Team to respond and intervene to resolve and prevent abuse, creating options to alleviate threat and harm;
- **Collaborate** with EVE and other area shelters to ensure effective identification and assistance to those at-risk, meeting basic needs and building self-sufficiency with resources/services for both female and male victims;
- **Provide** trained peer senior volunteers through RSVP to provide direct assistance to older victims;
- **Develop** recommendations to streamline unclear and/or complicated systems dealing with elder abuse, including APS, law enforcement, and financial institutions;
- **Offer** assistance with gap-filling services to protect the safety of older victims, including transportation, emergency housing, food, and other basic needs;
- **Design** educational materials for presentations and outreach to older adults and media campaigns to broaden the awareness of elder abuse, with special attention to various cultural communities;
- **Reach out** to LGBT older adults, recognizing the unique issues of isolation and their higher risk for elder abuse.

One of the results of the existing CCR Partnership has been on-going needs assessment and surveys of older adults and service providers to assess the needs, gaps, and potential solutions for elder victims of abuse. This information has been key in the development of strong foundational supports with the investment of the OVW funding. It is also the basis of our assessment of the need going forward and the beginning of a long-term strategy for our entire community. Additional information can be made available as requested.
Greater Lansing Homeless Resolution Network
Community Investment Proposal 2015-16

Homelessness in the Lansing/Ingham County area included over 4500 people in 2014. The Greater Lansing Homeless Resolution Network (GLHRN) has been a collaborative center, a motivator for change, and a foundation of support for those most at-risk in the Lansing/Ingham County area for the past 25 years. In 2015, as the fight against homelessness continues to build momentum, the GLHRN is moving beyond a simple gathering of community partners to become an established non-profit entity able to support the complex and comprehensive efforts to end homelessness in our community. The GLHRN is requesting your investment in our effort and support of the structure necessary for the success of this effort.

History:

Over 27 agencies in our community are members of the GLHRN. To effectively plan, evaluate, and act for the improvement of our community, these partners join on a monthly basis with other interested community agencies and representatives of local government entities.

Our goals:

- To prevent homelessness, through education, advocacy, and financial assistance (funding presently provided through HUD and other federal sources),
- To resolve homelessness by moving homeless families and individuals into permanent housing using a Housing First Model (i.e., minimal emergency shelter with timely and effective housing placement – funding also provided through HUD and other federal sources),
- To educate the community about the cause, prevention, and resolution of homelessness.

The GLHRN requires the service of a Coordinator, working in cooperation with the Board and Executive Committee, to facilitate and organize all GLHRN activities. As the work of the GLHRN has broadened and the investment of community partners has grown, the function of this position has become many-faceted, requiring participation in multiple avenues throughout our area.

Strategy:

Current strategy in addressing homelessness in the Lansing/Ingham County area includes the efficient use of our present shelter system, increased development of affordable housing properties and partnerships, as well as solicitation of additional federal and state funding and technical assistance. At this time, our work with special groups, such as veterans and high-risk families with children, is gaining support and investment from public and private sources. Since the inception of the GLHRN, the investment of Ingham County has been strong through the Department of Health and Human Services (DHHS) and the Ingham County Health Department (ICHD).

Request:

As we build momentum in the resolution of homelessness, the GLHRN is seeking another level of commitment from the Ingham County Commissioners. We would like to present information about current homeless trends in our area with a summary of our action plan. It would be helpful to engage in a brief discussion of future involvement from the County and possible County support of the GLHRN Coordinator position.

SUBJECT: Resolution to Authorize an Agreement with the Michigan Department of Environmental Quality for 2015-16

This is a resolution to authorize an agreement with the Michigan Department of Environmental Quality (MDEQ) under which the Ingham County Health Department (ICHD) will conduct environmental monitoring and inspections of MDEQ Non-Community programs. MDEQ began to contract with Ingham County after the State of Michigan reorganized services and moved many of its environmental protection programs and services to the Department of Environmental Quality. The Public Health Code still locates the primary responsibility for environmental protection at the community level with local public health departments. The current agreement expired on September 30, 2015.

The proposed agreement for 2015-16 includes the following services and funding of $29,616 allocated as follows:

**NON-COMMUNITY PUBLIC WATER SUPPLY PROGRAM** – up to $23,066
ICHD will conduct sanitary surveys of non-community public water supplies in Ingham County. ICHD will also oversee water quality monitoring at these supplies, issue water well permits for new supplies, and ensure that proper public notice is issued should a supply become unsafe for drinking.

**DRINKING WATER LONG-TERM MONITORING** – up to $700
ICHD will collect samples from drinking water supplies and sites of environmental contamination identified by the State.

**PUBLIC SWIMMING POOLS** – up to $5,600
ICHD will inspect all public swimming pools/spas licensed by the MDEQ in Ingham County. In addition, ICHD will investigate complaints, conduct meetings and/or conferences related to compliance issues, and complete inspection forms provided by the State.

**CAMPGROUND REQUIREMENTS** – up to $250
ICHD will inspect all campgrounds licensed by the MDEQ located in Ingham County, collect fees, investigate complaints, conduct meetings and/or conferences related to compliance issues, and complete inspection forms provided by the State.
I recommend that the Board of Commissioners authorize the agreement with the Michigan Department of Environmental Quality for the period of October 1, 2015 through September 30, 2016.

SUBJECT: Recommendation to Amend Resolution #15-193 to Include Ingham County Health Department Environmental Health Fees

Each year, Ingham County passes a resolution to set fees for various county services as part of the budget process. Resolution #15-193 authorized these fees for FY 2016. At the time this resolution was passed, Maximus Consulting Services, Inc. was evaluating the Ingham County Health Department’s (ICHD) Environmental Health (EH) division in order to provide a cost of services analysis. This evaluation was authorized by Resolution #14-416.

Prior to this study, EH had been operating under their existing fee schedule for more than 10 years with no change in fee structures. Because the Maximus cost study for Environmental Health services was in progress when Resolution #15-193 was passed, its fees were not included.

A new, simplified fee structure was developed utilizing the Maximus study. The proposed fee schedule ensures EH will achieve the appropriate level of cost recovery for each service provided.

I recommend that the Board of Commissioners adopt the attached amendment to Resolution #15-193 to update EH service fees.

SUBJECT: Resolution to Authorize a Revised Cooperative Operational Agreement with the Community Health Center Board of Directors

This is a resolution to authorize a revised Cooperative Operational Agreement with the Community Health Center Board of Directors.

Per Resolution #13-481, the Ingham County Board of Commissioners authorized the current Cooperative Agreement with the Community Health Center Board of Directors through November 30, 2015. A Short-Form Authorization extended this agreement through December 31, 2015.

As a health center program grantee of the U.S. Department of Health and Human Services’ Health Resources and Services Administration (HRSA), Ingham County Health Department (ICHD) is required by Section 330 of the Public Health Service (PHS) Act to maintain a governing board that is representative of the demographics of the patients served such as race, ethnicity, and sex. As a public entity, ICHD may fulfill this requirement with a co-applicant board. The Health Center Board must meet all the selection and composition requirements and perform all the responsibilities expected of governing boards except that the public entity retains the responsibility of establishing fiscal and personnel policies.

When there are two boards, each board’s responsibilities must be specified in writing so that responsibilities for carrying out the governance functions are clearly understood. Per section 330(k)(3)(H) of the PHS Act and 42 CFR Part 51c.304, at a minimum, the health center governing board must:

- Hold monthly meetings;
- Approve the health center grant application and budget;
- Select/dismiss and conduct a performance evaluation of the health center CEO;
- Select services to be provided and the health center hours of operations;
- Measure and evaluate the organization’s progress in meeting its annual and long-term programmatic and financial goals and develop plans for the long-range viability of the organization by engaging in strategic planning, ongoing review of the organization’s mission and bylaws, evaluating patient satisfaction, and monitoring organizational assets and performance, and
- Establish general policies for the health center.
Since ICHD has a separate Health Center Board, it must meet this requirement through a Cooperative Operational Agreement between the Ingham County Board of Commissioners and the Community Health Center Board of Directors to remain compliant with the PHS Act. The most recent Cooperative Operational Agreement will expire December 31, 2015.

The Cooperative Operational Agreement has been updated to include language that aligns with the Health Center Board bylaws to meet the requirements of HRSA.

I recommend that the Ingham County Board of Commissioners authorize the Cooperative Operational Agreement for the term of January 1, 2016 through December 31, 2017.

This resolution authorizes expansion of current Mental Health Screening services (known as the CATS Program) in the Ingham County Jail to include on call personnel for weekends and holidays.

Currently, CMH provides 1.5 FTE employees Monday-Friday; 8:00 a.m. – 4:30 p.m. that provide mental health screening and referral for individuals who are flagged by ICJ staff at booking or during incarceration as having possible suicide risk or mental health symptoms. There are no CMH staff available at ICJ from 5:00 p.m. Friday through Monday morning or on holidays. This leads to some inmates being held in observation up to 3 days before being seen by a Mental Health professional. Without CMH staff available, the deputies at the Ingham County Jail are left with the burden to determine severity.

The Ingham County Sherriff’s Office and CMH Administration worked to develop a proposal for on call Mental Health services that would be available Friday evening through Monday morning; and holidays. The cost for this coverage is $30,000 annually, and is included in the 2016 budget.

Sparrow Attempts to Silence Nurses About Substance Abuse Unit Closure

Unfair labor practice charge filed

The Michigan Nurses Association (MNA) is asking the federal government to protect nurses speaking out for patient safety. Today MNA filed an unfair labor practice (ULP) charge with the National Labor Relations Board on behalf of registered nurses at Sparrow Hospital’s St. Lawrence campus.

“Nurses have the right and the responsibility to speak up on behalf of their patients and their practice,” said Jeff Breelin, RN, President of the Professional Employee Council of Sparrow Hospital (PECSH). “This includes discussing the ramifications of the inpatient substance abuse unit closure.”

On Friday, November 13, Sparrow management contacted nurses in person and over the phone. Managers forbade RNs from speaking to press or posting to social media in regards to the closure of the inpatient substance abuse unit, which is scheduled to accept its last patients on Saturday. MNA filed the charge because Sparrow management threatened registered nurses with discipline or termination for activities that, in reality, are protected by law.

“This closure means that Sparrow will no longer have an inpatient unit dedicated to substance abuse treatment. Patients who have substance abuse issues will no longer feel safe and secure in an environment that is conducive to their recovery,” said Breelin. “The hospital should be encouraging open community discussion about the changes that they are making, rather than threatening nurses for raising legitimate safety concerns.”

Once the St. Lawrence substance abuse unit closes, the nearest inpatient unit specializing in medical detox treatment will be in Brighton. Registered nurses are concerned that placing patients detoxing from heroin, alcohol or other substances next to patients who are in for surgery or other medical treatment will reduce the overall quality of care.

“There are so many unanswered questions that need to be addressed before this change takes place. Will patients who need addiction treatment be admitted if there is no longer a specialized unit? If so, will they receive the same high quality, specialized care they are receiving now? If patients are required to go through the emergency room to seek care, will insurance plans cover substance abuse treatment in that way?” Breelin concluded. “Nurses should not have to fear for their jobs for raising these issues and questioning the effect they will have on the community.”
Copies of the ULP charge are available upon request.

The Michigan Nurses Association represents 11,000 nurses and health care professionals across the state, including more than 2,000 members at Sparrow Hospital.
