1. Health Department
a. Building Bridges between Jails and Community Grant Update (Medication Assisted Treatment Best Practices) (Discussion)

Linda Vail, Health Officer, introduced Major Darin Southworth, Corrections Major, Kelli Zurek, Corrections Health Administrator, and Da’Neese Wells, 55th District Court Chief Probation Officer. She further stated that Chas Koop, Assistant Prosecutor, Ericanne Spence, CEI Community Mental Health Director, were also team members but could not be present at the Human Services Committee meeting.

Ms. Vail gave an update on the Building Bridges between Jails and Community Grant.

Ms. Wells stated that this was a great example of interagency cooperation and further summarized the project.

Commissioner Slaughter stated that this was what made Ingham County great and complemented the team for taking the risk. He asked when other jails would create similar programs.

Ms. Vail stated that she would think and hope that medication assisted treatment programs would become more prevalent in jails. She further stated that it was a complicated process, as it was not easy to obtain all the licensing for methadone and buprenorphine and that you needed waivered providers.

Ms. Vail stated that in addition to those difficulties, it was also a new wave of acceptance of medication assisted treatment as a viable evidence based alternative. She further stated that it was not that long since medication assisted treatment was viewed as a crutch and that some people still believed that abstinence was the only way to go.
Ms. Vail stated that if you had something like diabetes for a lifetime, there was no judgement overtaking medication for a lifetime. She further stated that it was an uphill battle against the stigma of treating opioid addiction as an illness that required medication.

Commissioner Trubac stated thanked the team and commended them for doing more than saving lives, but also saving families who are at risk of having their world destroyed. He asked if there was a process to determine dosing.

Ms. Vail there was a screening process built in at intake.

Commissioner Trubac stated that a lot of times when people were released from jail their tolerance had changed and they ended up overdosing.

Ms. Vail stated that that was why it was important to get those people treatment in jail and that those who are identified as being at risk when released were provided a kit which included Narcan.

Commissioner Naeyaert asked how hard it was to follow up with people once they were released.

Ms. Wells stated that some people in jail did not end up charged or convicted and this also reaches those people. She stated that while it could be hard to follow up with transient populations, they were coordinating ways to ensure that everyone received follow-up.

Ms. Zurek stated that one of the resources would be a caseworker who would connect with people in the jail and help them with follow-up.

Commissioner Naeyaert stated that she loved hearing that the County was honing in and shepherding those who needed help through this vital process.

Discussion.

Major Southworth stated that when the team attended the Building Bridges workshop, they found out that the County was already doing a lot of things very well, which was reassuring. He further stated that he had grown over the past few years to understand that addiction was a disease and needed to be treated that way.

Major Southworth stated that the jail would have the finest and best practices in place to implement medication assisted treatment. He further stated that the investment made in jail medical was already reaping huge benefits, including the handoff to the outside community.

Major Southworth stated that this grant set up for a secondary grant for medication assisted treatment implementation funding, which would help lighten future budget requests. He further stated that there was a video about addiction and dopamine that would be sent to the Commissioners, if it had not been already, and encouraged everyone to watch.
Commissioner Morgan stated that, regarding the investment in jail medical, it was important to have trained, qualified, and well-compensated County employees working in jail medical, rather than a revolving cast, and that he was glad that the Board of Commissioners made that decision.

Commissioner Naeyaert asked if there were still positions open in jail medical.

Ms. Vail stated that there were.

Chairperson Tennis thanked everyone.

BACKGROUND
The Parks Department owns and maintains the buildings at Lake Lansing North and Lake Lansing South. The Ingham County Parks Department has a roof replacement plan in place to ensure routine replacement of building roofs. It was brought to our attention after the 2020 budget request was submitted the severity of need for replacement for these two roofs. These two request were brought forward as potential Z-list requests for the 2020 budget request. Upon recommendation of the Controller’s office we instructed to pursue quotes for a request to the Board for replacement in the 2019 budget. The Purchasing Department solicited proposals from qualified and experienced roofing contractors.

ALTERNATIVES
The Lakeview Shelter at Lake Lansing South and Snell Bathroom at Lake Lansing North are in need of replacement. Failure to address this could result in damage to the building and contents within.

FINANCIAL IMPACT
The bid was evaluated by the Purchasing Department, and it is their recommendation, with the concurrence of Parks Department staff, to award the contract to L. J. Trumble Builders, LLC. for the base bid in the amount of $32,565, and a contingency (due to any unknown damage in the underlayment of the roofs) not to exceed $5,000, for a total amount not to exceed of $37,565.

In order to complete this project, the Parks Department is requesting authorization from the Board of Commissioners for the utilization of $37,565 from the County’s contingency fund into a new capital line item to be determined by the budget office to complete the project.

STRATEGIC PLANNING IMPACT
This resolution supports the overarching long-term objective of striving to make facilities and services user-friendly, specifically Section A. 1(f) of the Action Plan - Maintain and improve existing parkland, facilities, and features.

SUBJECT: Park Ranger

For the meeting agenda of 9/30/19 Human Services

BACKGROUND
The Parks Department was requested by the Finance Committee at their meeting on September 11, 2019 to bring the Ranger Position as a discussion item to the Human Services committee. See attached justification for this position, the job description and a millage funds spreadsheet as well as the original millage ballot language.

ALTERNATIVES
We appreciate the Board of Commissioners willingness to discuss potential funding opportunities for this position.

FINANCIAL IMPACT
One new Park Ranger would cost $80,375, for Step 5.

STRATEGIC PLANNING IMPACT
This resolution supports the overarching long-term objective of striving to make facilities and services user-friendly, specifically Section A. 1(f) of the Action Plan - Maintain and improve existing parkland, facilities, and features.

OTHER CONSIDERATIONS
N/A.

RECOMMENDATION
Based on the information presented, I appreciate your consideration to potentially fund this position.
Justification for additional FT Ranger position:

- **Accessibility:** Distance problem – can take hours for them to reach other park if immediate need for them arises. The work list/job duties from the park they leave from suffer delays resulting in all parties’ progress hindered causing frustration and stress in working relationships.

- **Scheduling projects:** Time sensitive needs – hard to schedule project development when the Lead on a project is the FT Ranger but is only available every other week. Projects are also susceptible to inclement weather delaying projects beyond a reasonable timeline. It is even a greater challenge to build new structures or complete bigger projects that require more than a week, since much of the time spent at each park is just to catch up on repairs. Many current projects/improvements could be done in a timely manner if a Ranger I was assigned at each location. Management will sometimes take lead on these projects and spend time planning, purchasing supplies, and initiate construction to get the Ranger I started. Other times these projects are started by a Ranger I, but completed by management with the help other seasonal staff because of the lack of Ranger I availability week to week. This takes away from other important managerial duties and park operations.

- **Scheduling conflicts:** Time sometimes does not end up being divided fairly between the two parks because of the FT Rangers personal time conflicts. For example, the FT Ranger is splitting time between two parks every other week, the one week he is scheduled he or a family member becomes ill and has to take off the week – the result could be he/she is not at the particular park for a three week period. Also holidays and vacation use affect the time spent at one park or the other.

- **Sense of ownership:** A person develops a sense of pride with ownership as they become more knowledgeable with the facilities and personalities. It is hard to establish those senses when he/she is bounced between facilities. Ranger I has to think about two separate parks all the time and often field questions about repairs or projects when they are at the other location.

- **Large combined coverage:** Currently the FT Ranger is responsible for two larger park areas totaling seven different smaller parks. Between the two areas, there is over 1000 acres, 20 miles of trail, and over 11 miles of river they are responsible for. Almost all of the facilities are over 30 years old and deteriorating quickly. These aging structures need more maintenance needs with every passing year. The work that is required to make repairs often takes skilled working knowledge in construction, electrical, masonry, and plumbing and would be very expensive to contract out. Our seasonal staff generally do not have the skill sets or experience to perform most of the building and infrastructure repairs.

- **Safety and customer service:** Safety and customer service – When items/structures break down, it’s never at a convenient time. This often leads to the closure of a structure or a quick fix by assistant manager or manager until a Ranger I is back on the scheduled week. Time delays in repairs can increase risk exposure and sometimes result in customer complaints. The issue is compounded when the assistant or manager has to fill in the gaps by being in the field. This often takes time away from other administrative tasks and supervision of staff. This occurs on a regular basis due to biweekly scheduling.

TO: Board of Commissioners Human Services and Finance Committees
FROM: Linda S. Vail, MPA, Health Officer
DATE: 09/12/2019
SUBJECT: Extension of agreement with Ionia County Health Department

BACKGROUND
Ingham County Health Department (ICHD) wishes to enter into a six month extension with Ionia County Health Department to enable ICHD’s Medical Director to continue providing medical direction and consultation to Ionia County Health Department. The extension would be effective January 1, 2020 through June 30, 2020. This agreement was authorized in Resolution # 16-407. Under the existing agreement, Ionia County Health Department agreed to pay ICHD $56,290.00 for the 2019 calendar year. Due to the fact that a 2% increase in salaries is scheduled for FY 20 this extension requests a commensurate increase of 2% for the duration of the extension for a total of $28,707.90. Enclosed please find the recommended adjustments to the Ingham County budget for the third quarter of fiscal year 2019. The total increase to the General Fund is $0.

The quarterly budget amendment process as authorized by the Board of Commissioners is necessary to make adjustments to the adopted budget. Usually, adjustments are made as a result of updated revenue and expenditure projections, grant revenues, reappropriations, accounting and contractual changes, and general housekeeping issues.

There are no adjustments to the general fund this quarter.

The Road Department is requesting $125,000 from fund balance to purchase 3 or 4, depending on cost, new pickup trucks to replace old, and retired units.

The Animal Shelter Debt Fund is in need of $1,212,700 for revenue and expense for the payment of the bond for the shelter. The Animal Control Millage will need use of fund balance to transfer the $1,212,700 to the Animal Shelter Debt Fund.

The Justice Millage is requesting moving $5,710 attrition funds from personnel line to building repair and maintenance line to address some security needs in the Pretrial Services Office.

The Public Defender is requesting moving $200,000 from contractual services line to leasehold improvements for actual expenses in accounts different from the adopted budget.

The 55th District Court is requesting an additional $880 from fund balance to cover overages spent on a work station project in the Machine and Equipment Revolving fund.

Attached is an update of contingency fund spending so far this year. The current contingency amount is $326,950. The attached document details how the Board has allocated the contingency funds throughout the year, beginning with a balance of $350,000.
