FROM: Lindsey McKeever, Fairgrounds Events Director

DATE: October 5, 2021

SUBJECT: Resolution to authorize an amendment to the contract with Sterle Builders

BACKGROUND

The Fairgrounds is producing Jack O' Lanterns Unleashed in October 2021. The assets need to be disassembled and prepared for storage until the 2022 Show.

ALTERNATIVES

The Fairgrounds could rely on temporary labor.

FINANCIAL IMPACT

Disassembly for Jack 'O Lanterns Unleashed has been budgeted in the 2021 operational budget. The contract will not exceed \$13,500.

STRATEGIC PLANNING IMPACT

This resolution supports the long term objective providing recreational opportunities.

OTHER CONSIDERATIONS

Three companies were asked to supply a proposal for the assembly, Sterle Builders submitted the lowest quote. Because of the intricate details of the assembly, Sterle Builders is now the only qualified company to disassemble the show.

RECOMMENDATION

Based on the information presented, I respectfully recommend approval of the attached resolution.

INGHAM COUNTY BOARD OF COMMISSIONERS

DATE: October 6, 2021

SUBJECT: Resolution to Reclassify Fair Secretary Position to Administrative Assistant

BACKGROUND

The Fair Secretary position has been vacant since July, 2021. The position needs to be converted to Administrative Assistant in order to provide greater flexibility of duties, enhance service to the public, and attract better talent.

ALTERNATIVES

Should the position not be converted it would remain the Fair Secretary Position in a UAW E classification.

FINANCIAL IMPACT

Step 5 UAW E costs \$80,962.26 and the Step 5 UAW H costs \$91,451.15. The \$10,488.89 will be absorbed into the Fairgrounds budget.

STRATEGIC PLANNING IMPACT

This resolution supports the long term objective providing recreational opportunities.

OTHER CONSIDERATIONS

If the position is not reclassified the position will not be desirable for the talent level required to maintain proficient operations at the Fairgrounds.

RECOMMENDATION

Based on the information presented, I respectfully recommend approval of the attached resolution.

RE: Support for Reclassification: Administrative Assistant

Per your request, Human Resources has reviewed the classification titled Secretary - Fair. The position's primary responsibility is to provide administrative support to the fairgrounds.

After analysis, the reclassification has a community of interest with the UAW and is appropriately compensated at a UAW salary range H (\$42,457.97 - \$50,646.74). The title should be changed from Secretary –Fair to Administrative Assistant. The UAW has been notified. They support the reclassification and salary placement.

Please use this memo as acknowledgement of Human Resources' participation and analysis of your proposed classification. You are now ready to complete the next step in the process: contact Budgeting, write a memo of explanation and prepare a resolution for Board approval.

If I can be of further assistance, please email or call me 887-4374.

RE: Request for additional grant funds for Project TR069

Dear Members of the Ingham County Parks & Recreation Commission:

The City of Williamston and Ingham County executed a grant agreement in 2020 for a project identified as TR069, for the development of a canoe/kayak launch and parking lot in downtown Williamston that provides recreational public access to the Red Cedar River. The project was released for bids in May, with bids due on June 16. The project attracted six bidders, with the low bid (after clarification) being \$88,533.90 over the estimated construction cost submitted in our 2019 grant application. The average bid was approximately double the estimated construction cost submitted in our 2019 grant application, which apparently is consistent with other similar projects during these inflationary times. A copy of the bid tabulation is attached.

When comparing the estimating to the actual bids, for almost every line item there was a comparable price in the bids. Unfortunately, they were scattered across all the bidders so no one consistently aligned with the estimate. For the low bid specifically, the greatest changes in cost were the concrete stepped launch and stormwater basin, riser, and outlet. Contractors generally included the cost for dewatering or isolation barrier in the cost for the concrete stepped launch, which will be needed dependent on the water level in the river.

The City timed the bid process to coincide with the permit review from the Department of Environment, Great Lakes, and Energy (EGLE). However, EGLE did not complete its review in time due to staffing issues. The project has made it through two of the three reviews with no issues raised, but EGLE did not submit the public comment notice in a timely fashion, so that is still ongoing. The City has granted a 30-day extension to EGLE for the review period to coincide with the closing of the public comment period.

Given the circumstances, we are requesting your consideration for additional grant funds totaling the overage (\$88,533.90) and a 10% contingency for the construction project (\$20,373.76) which might include changes required by EGLE or field changes during construction. Thus, our total request is for an additional \$108,907.66 in grant funds. The City will take on the cost of the entrance sign, tree and stump removal, realignment of an electrical pole, and water line removal.

This project is a key component toward the establishment of a water trail on the Red Cedar River. In late 2020, Williamstown Township, through an Ingham County grant and partnership with the Ingham County Drain Commission, cleared several major logjams in the river downstream from downtown Williamston, further opening this corridor for recreational activity. This project provides the access point to enjoy the newly cleared river. We appreciate the Commission's consideration of this request otherwise the project might not be able to be built.

Sincerely,

Corey Schmidt City Manager

SUBJECT: Resolution Authorizing an Agreement with Dignified Aging Project

For the Meeting Agendas of October 18, 2021 and October 19, 2021

BACKGROUND

Ingham County Health Department (ICHD) wishes to enter an agreement with Dignified Aging Project (DAP) in an amount not to exceed \$19,500 to allow DAP to provide Jail Medical with Medication Associates to assist with distribution of medications to inmates as prescribed by the medical provider. Historically, it has been difficult for ICHD to find Jail Medical staffing. Jail medical division currently has critical staffing needs which potentially threatens the health of the inmates we serve. Partnering with DAP would allow ICHD to fill these assignment gaps quickly on a temporary basis. This amendment would be effective September 15, 2021 through September 30, 2022.

ICHD collected quotes from the following agencies:

- Cross Country Staffing
- Maxim Healthcare Services
- Dignified Aging Project

After reviewing the 3 quotes, DAP was chosen as the appropriate vendor for this agreement after submitting the lowest rates to fill the Medication Associate position. DAP is also a local vendor in Ingham County.

ALTERNATIVES

ICHD could continue to recruit new hires and explore other staffing options for Jail Medical.

FINANCIAL IMPACT

All costs of this agreement will be covered by funds that have been saved from vacant Jail Medical positions.

STRATEGIC PLANNING IMPACT

This resolution supports the overarching long-term objective of promoting accessible healthcare, specifically section A.1(e) of the Action Plan – Expand access to healthcare for county residents, with an emphasis on the uninsured and underinsured.

OTHER CONSIDERATIONS

There are no other considerations.

RECOMMENDATION

Based on the Information presented, I respectfully recommend that the Ingham County Board of Commissioners authorizes an agreement with DAP in an amount not to exceed \$19,500 to provide staff to fill Medication Associate positions at ICHD's Jail Medical, effective September 15, 2021 through September 30, 2022.

SUBJECT: Resolution to Authorize Positions, Contracts and Other Expenses to Increase Treatment

Programming for 2022 as Authorized by the Justice Millage

For the meeting agendas of October 14, 18, and 20

BACKGROUND

On August 7, 2018, Ingham County voters approved the Justice Millage. In addition to providing funding for a new Justice Complex, the millage language authorized funding for "programming for the treatment of substance addictions, treatment of mental illness, and reduction of re-incarceration among arrested persons."

Beginning in January 2019, the Board of Commissioners has allocated funding to Community Mental Health, the Community Corrections Department, the Health Department, the Sheriff's Office and the Pretrial Services Division of Circuit Court to provide programming. In addition, Resolution 21-131 allocated Justice Millage funding for two new Corrections Deputies to assist in facilitating inmate programming and reclassified the Intake/Referral Coordinator to an Inmate Programming Coordinator. Continuation funding for this programming is being requested in 2022.

ALTERNATIVES

There are many beneficial services and programs that could qualify under the millage language to treat substance addictions, mental illness, and reduce recidivism. After much consideration, the programs presented here address the priorities developed by the Law and Courts Committee and the work group at this time.

FINANCIAL IMPACT

Continuation of current programs will total \$1,796,559, with all costs to be paid from proceeds of the Justice Millage.

The 2022 costs are as follows:

- Community Mental Health Correctional Assessment and Treatment Services (CATS): \$633,836 to continue to fund three full time mental health therapists to provide mental health therapy, case management services and to coordinate care as well as to increase collaboration at the Ingham County Jail, one full time nurse case manager to work directly in partnership with the Ingham County Health Department/Jail Medical to integrate behavioral health and physical health care, and one full time mental health secretary to provide clerical support for these services. Also funded is a full time Program Manager to assist in the direct management of Jail Re-entry; inclusion in the Ingham County Health Department Medication Assisted Treatment (MAT) program; and to manage Jail Diversion activities, both of which include community liaison and development of the services necessary for re-entry purposes.
- Community Mental Health Medication Assisted Treatment (MAT) Peer Recovery Coach: \$71,170 to fund a Peer Recovery Coach to work with inmates involved in the MAT program (managed by the Ingham County Health Department) and inmates identified as high risk by the CATS therapists to provide intensive community support for MAT and other clients.

- Community Based Programs: \$475,600 to fund electronic monitoring, substance abuse assessment and psychological evaluation, day reporting, and MRT Cognitive Behavioral Change.
- Ingham County Health Department Pathways to Care Program: \$89,228 to continue previously grant funded services in a client-centered approach to inmates who have a current or past history of opioid and other substance use disorders.
- Ingham County Sheriff's Office/Jail Programming: \$128,400 to fund inmate initiatives, seeking safety, break out, trauma centered yoga, restorative justice, re-entry programming and parenting.
- Ingham County Sheriff's Office: \$223,058 to fund two Corrections Deputies to assist in facilitating inmate programming and a portion of the Inmate Programming Coordinator.
- Circuit Court/Pretrial Services: \$175,267 to fund a Pretrial Services Clerk and a Pretrial Services Investigator.

Additional information on these requests are attached to this memo.

There are two notable change in this year's requests. Last year, CMH request only three months of funding for the MAT Peer Recovery Coach. This was to cover the remaining costs for 2021 once a grant had expired. In 2022, a full year of funding is requested, as grant funding is not available.

The bigger change is the substantial increase in request for electronic monitoring. In 2021, \$70,000 was requested, and for 2022, the request is for \$400,000. Although the initial 2021 allocation was for \$70,000, an additional \$230,000 was allocated to address increased utilization related to the COVID-19 pandemic, and an additional \$120,000 is being requested at this round of committee meetings. It is expected that utilization will remain high in 2022, while the court system works through its backlog of cases, and the effects of the pandemic on the justice system and the economy continue into 2022.

The projected Justice Millage revenue for 2022 is around \$7.1 million. The 2022 debt service payment is \$4,468,250, leaving over \$2.6 million available for other expenditures, including the 2022 recommended programming allocation detailed above. Unspent funds will remain in the millage fund balance to be used as a possible construction contingency for the Justice Complex and for future consideration by the Board of Commissioners for a reduction to the millage rate.

STRATEGIC PLANNING IMPACT

This resolution supports the overarching long-term objective of providing user friendly, accessible facilities and quality infrastructure, specifically section E 1. (b) of the Action Plan – Develop strategies to finance with new revenue a modern new Ingham County Jail this is more humane, efficient and cost effective with appropriate security levels, programming and staffing.

OTHER CONSIDERATIONS

The allocated funds for programming from the millage are subject to approval and appropriation by the Board of Commissioners each year. Programs funded in the current year will not necessarily be continued in upcoming years.

RECOMMENDATION

Based on the information presented, I respectfully recommend approval of the attached resolution.

Request for Continuation of Justice Millage Funding for CATS Y22.

Request for Additional Funding Post Bureau of Justice Building Bridges Grant Ending (December 31, 2021)

The Ingham County Health Department wrote for and received funding from the Bureau of Justice Building Bridges endeavor to add one full time Peer Recovery Coach in the Ingham County Jail. The Building Bridges Workgroup felt this was the best use of the extra funding. The funding was subcontracted to CMHA-CEI/CATS program. This funding is available March 1, 2020 – December 31, 2021.

The Recovery Coach will work with inmates involved in the Medication Assisted Management program (managed by ICHD) and inmates identified as high risk by the CATS therapists. CATS had one Full Time Recovery Coach with a consistent caseload of 40 plus individuals. Because of this CATS has only able to focus on the high priority population upon release from jail. The addition of the BJA Recovery Coach (RC) has allowed CATS to focus on providing intensive community support for MAT as well as other clients who would benefit from RC services.

Per the Substance Abuse and Mental Health Services Administration (SAMHSA), a Recovery Coach focused on Medication Assisted Treatment focuses on:

- 1. Holistic wellness. A PRSS program within an OTP promotes holistic wellness and offers recovery and life skills support.
- 2. Guidance. PRSS provide venues to advocacy, role modeling, and peer coaching, and provides direction and assistance in practical problem solving.
- 3. Stigma reduction. PRSS programs serve to reduce the stigma of medication-assisted treatment and recovery. Through education and advocacy, peer leaders raise awareness and understanding of addiction, treatment and recovery, not only individuals enrolled in an OTP but also for the client's family and the community. Engagement and empowerment. MAR PRSS providers demonstrate the authenticity of lived experience, and often have greater credibility with individuals in treatment and recovery. This can result in greater engagement and empowerment, as individuals relate through shared experiences and become confident in making good and informed decisions for themselves.
- 4. Hope. Being in contact with a successful peer role model is helpful to individuals enrolled in an OTP in seeing that they, too, are capable of achieving recovery. Peer providers are role models and provide living examples and hope that recovery can and does happen within a MAT environment.
- 5. Buy-in. More targeted research is needed in order to move PRSS from practice-based evidence to evidence-based practice. The ability to measure positive individual and program outcomes will result in increased buy-in from treatment professionals, policymakers, funders, and other stakeholders.
- 6. Workforce Expansion. PRSS providers can improve the client to staff ratio and allow clinicians to provide greater attention to MAT patients. Peer providers can also offer services outside of clinical settings, in various recovery community locations. Over time, individuals accessing MAR PRSS.

COMMUNITY CORRECTIONS - COMMUNITY BASED PROGRAMMING

2022 JUSTICE COMPLEX MILLAGE PROPOSAL

According to the Department of Justice, Bureau of Justice Assistance, over the last two decades, a critical mass of evidence has accumulated challenging the prior prevailing belief that nothing works to rehabilitate offenders. (*BJA*, 2014) To the contrary, research findings show that evidence-based interventions can significantly reduce recidivism. It is clear that sanctions alone do not result in positive behavior change or reduce recidivism (*R. Warren, CJI/NIC*, 2007). The leading researcher in what works and what does not in reducing recidivism, Edward J. Latessa, Ph.D., states that, "Not a single review of studies of the effects of official punishment alone has found consistent evidence of reduced recidivism." While up to 60% of treatment services studies reported reduce recidivism rates (*E. Latessa*, 2002).

Electronic Monitoring: \$400,000

Electronic monitoring (EM) is an effective and cost-efficient resource, capable of directly reducing the jail population while maintaining public safety.

In addition to monitoring and tracking, a large National Institute of Justice study showed significant decreases (31%) in the probation failure rate for all groups of offenders and age groups who are supervised on electronic monitoring (*NIJ*, 2011). Use of alcohol monitoring devices deters recidivism during use; and, when combined with treatment, provides the user an opportunity to change negative behavior (*Court Review*, *V. Flango & F. Cheesman*).

Judicial Services Group, Ltd. (JSG) utilizes a variety of monitoring devices that can provide a broad range of supervision parameters based on the individual user. Locally, EM is used in pretrial and probation supervision, as an alternative to incarceration under the Sheriff's jurisdiction, and saves jail staff that would otherwise be used for hospitalized inmates. In 2020 and 2021, EM utilization increased significantly, due to the COVID-19 pandemic. EM has proven to be an efficient and effective resource to assist with reducing the jail population by providing county funded indigent services to appropriate users who can be diverted from the jail and to self-pay clients who lost employment or had their hours reduced due to COVID-19.

Substance Abuse Assessments and Psychological Evaluations

\$5,000

Conducting a clinical assessment is essential to understanding the nature and severity of the patient's health and social problems that may have led to or resulted from the substance use. This assessment is critical in determining the intensity of care that will be recommended and the composition of the treatment plan. Tailoring the treatment to specific needs increases the likelihood of successful treatment engagement and retention. Research shows that those who are matched with the appropriate level of treatment using ASAM (American Society of Addiction Medicine) criteria participate more fully in treatment and typically have better outcomes. (3X improvement in addiction severity outcomes at 3 months/30% reduction in dropout from treatment/25% - 300% reduction in no shows to next stage of treatment) (ASAM, D. Gastfriend, MD).

Psychological Evaluations determine the severity of a specific mental health concern or to determine an individual's capacity for adequate functioning. Assessments and evaluations may be required to develop a sentence that includes appropriate treatment placements and programming.

COMMUNITY BASED PROGRAMS – 2022 MILLAGE PROPOSAL

Page 2

Day Reporting: \$52,000

This program provides an additional layer of monitoring and supervision, structure, accountability and programming in the community. Based on individual need, it addresses a wide array of fundamental needs such as food, clothing, housing and housing. All critical to successful integration into the community and being able to focus on treatment. Also based on assessed need, on-site evidence-based groups include Cognitive Behavioral Therapy, Dialectical Behavior Therapy, Seeking Safety, Anger Management, and Conflict Resolution. AA and NA groups meet onsite.

Community Corrections funded Day Reporting has a highly successful completion rate that ranges from 65% - 70%. This demonstrates its effectiveness at assisting participants achieve their Individual Plan goals with no rearrests while engaged in the 120-day program. While, Day Reporting programs across the country are not standardized, there are a number of studies of similar programs that demonstrate significant recidivism reduction (30% - 60%) (*PA 2013, Utah & Oregon 2010*).

Expanding this State funded Community Corrections program will increase the number of offenders served, including those not be eligible under State MDOC approved criteria (e.g. District Court misdemeanants).

MRT – Cognitive Behavioral Change

\$18,600

Moral Reconation Therapy (MRT) is a systematic treatment strategy to decrease recidivism among adult criminal offenders by using 16 objectively defined steps focusing on seven basic treatment issues to promote positive change. MRT is a cognitive-behavioral treatment approach that is probably the most widely researched offender treatment modality (*Meta-Analysis*, *G. Little*, 2005). 200 outcome studies have been conducted up to 20 years after treatment and release of over 100,000 individuals. Overall, finding lower recidivism rates, improved personality variables, and enhanced treatment compliance. (S. Swan, 2013)

Expanding this State funded Community Corrections program will increase the number of offenders served, including those who are not eligible under State MDOC approved criteria.

"Motion by Melvin, Second by Muckenthaler to adopt Resolution #2021-09-01;

RESOLUTION #2021-09-01 OPPOSING PROPOSED LEGISLATIVE CHANGES TO CURRENT MENTAL HEALTH SYSTEMS

WHEREAS, Northern Lakes Community Mental Health Authority has served for more than 50 years as the public mental health and intellectual/developmental disabilities services provider for this community, serving approximately 24,900 residents in Roscommon County each year; and

WHEREAS, Northern Lakes Community Mental Health Authority was created by the Roscommon County Board of Commissioners as duly authorized under the Community Mental Health Act of 1963; and

WHEREAS, Every year thousands of individuals and their families in this community depend on the public behavioral health system for daily and life-long supports and services; and

WHEREAS, Northern Lakes Community Mental Health Authority opposes any behavioral health redesign that harms the state and county partnership for community mental health and related Medicaid safety net services and/or seeks to privatize Medicaid behavioral health services; and

WHEREAS, The Roscommon County Board of Commissioners believes recent proposals in the Michigan House and Senate fundamentally change the public behavioral health system and will harm those served by the system for the following reasons:

- Beneficiaries would stand to lose access to services, supports and input into the design and operation of their services and supports system. Many Michiganders would be left out of the redesign proposals completely;
- Public oversight, governance, operations and accountability would be ended;
- Current proposals for redesign are not based on performance metrics related to positive outcomes, effectiveness and efficiency measures associated with the current public system. Also, there is no clear statement about the problems that the Senate or House are attempting to address or solve;
- The Senate proposal specifically incentivizes and prioritizes profits to private companies at the expense of the public and the beneficiaries served by the public behavioral health system;

WHEREAS, Instead of damaging our public behavioral health system through pursuit of these proposals recent innovations by the public behavioral health system should be supported. The Roscommon Board of Commissioners supports and asks our Legislative and Executive Branch leaders to support;

- Certified Community Behavioral Health Clinics (CCBHCs)
- Behavioral Health Homes
- · Opioid Health Homes
- State Innovation Models

 Local primary and behavioral health integration infrastructure and care coordination at the point of service delivery

WHEREAS, The public behavioral health system is the safety net system for our state's most vulnerable and needy people, we believe strongly that the public safety net behavioral health system must remain public in governance, accountability, funding and operation and we believe strongly that representatives in the community and to the whole board of directors through participation in local public board meetings under the Open Meetings Act, and recent proposals by the Michigan Senate and House eliminate these key features of the behavioral health system, we stand united in opposing these proposals, and

WHEREAS, The premise of these proposals seems to be that privatization (Senate) and state-centralization (House) are better than local access, local control, local accountability, collaborative regional/local management and local oversight. These are just a few of the beneficial features of the current public behavioral health system that the House and Senate proposals ignore and for these reasons we stand united in opposition to them, and

WHEREAS, Having come through a recent pandemic, and currently dealing with further results of the pandemic. this is no time for a major upheaval of the public behavioral health system that so many thousands of persons, their families and entire communities rely on for support. The public behavioral health safety net has ensured continued services and supports for all these people in our communities throughout the pandemic period.

THEREFORE, BE IT RESOLVED by the Roscommon County Board of Commissioners, that we request that our policy making representatives support, improve and strengthen the public behavioral health safety net system, and that you support improvements in the delivery of publicly governed, publicly accountable, publicly operated regional and community-based systems, invest in and expand initiatives that are proven to improve citizen access. beneficiary engagement, individual and population health, behavioral wellbeing, quality of life and community betterment such as those mentioned above. These are among the accomplishments of the public system that would be destroyed by pursuing these new legislative proposals.
