3. Controller/Administrator's Office / 911
 - c. Update on 911 Consolidated Dispatch Center Project (*No Materials*)

Mr. Neilsen informed the Committee that the Building Authority has authorized Clark Construction to proceed with the 9-1-1 Center, and are now waiting for the building permit to be formally approved by the City of Lansing. Construction is anticipated to begin as early as next week. Undersheriff Spyke and Mr. Shewchuk complimented Mr. Neilsen on a fine job in chairing the Committee.

Mr. Neilsen stated there is a formal Ingham County consolidated construction schedule. He highlighted that the schedule plans for the building to be enclosed by the middle of December 2011, substantial completion by March 13, 2012, and an occupancy permit by April 17, 2012. Additionally, the date of the integration process (employee merger) will begin on April 17, 2012. He noted landscaping will be done at a later date when weather permits. Mr. Neilsen stated that the Committee could expect a construction update in September.

Mr. Neilsen informed the Committee that during the next round of meetings the City of Lansing and East Lansing will present their operational budgets. He noted the budgets should be for 10 months, and will be the last before the County takes over. Additionally, the 10 month budget may need to be adjusted if the construction is delayed.

Comm. Grebner asked if there would be any employee integration problems. Mr. Neilsen stated most of the problems are resolved and there are methods in the legacy agreement that will resolve the other problems.

Mr. Neilsen stated that the County approved project of MSU installing a new tower for WKAR is tentatively scheduled for Monday or Tuesday. He further stated that the reason for the long delay in implementation was due to cost. He noted the transmission changeover will take two to four hours, and public safety officials are aware of the changeover issues.

(Comm. Copedge arrived at 6:35 p.m.)

Mr. Neilsen commented on Agenda Items 3 a & b. informing the Commissioners that the 9-1-1 Advisory Committee met earlier today and made the recommendations for both of these items.

He noted at the meeting there was discussion from other agencies about grant funding, matching funds, and devising a sub-committee for future policy.

There was a discussion of the original estimates, Building Authority process, vendor bids, final costs and long-term savings.
